

WEATHER

Table with weather forecasts for various locations including Toronto, Dawson, Vancouver, Victoria, Edmonton, Calgary, Regina, Winnipeg, Toronto, Ottawa, Montreal, Quebec, Fredericton, Saint John, Moncton, Charlottetown, Sydney, Yarmouth, and St. John's.

HALIFAX (CP) — The weather office says a disturbance moved across the New England states Monday bringing up to one inch of rain to most of the Maritimes. The disturbance will pass to the south of Nova Scotia early today and general improvement in weather is expected over the district.

Forecasts:

Northern Nova Scotia, Prince Edward Island: Overcast; occasional rain and drizzle ending during the morning, clearing in afternoon; much warmer; light winds. Low-high at New Glasgow and Charlottetown 50 and 70. High tide today at Charlottetown at 5.49 a.m. and 7.50 p.m. At Rustico at 1.43 a.m. and 1.33 p.m. Summerside tide eighteen minutes later than Charlottetown. Sunrise today at 4.48 a.m. and sets at 7.50 p.m.

Mystery Light Is Seen In Skies

TORONTO (CP) — The RCAF's Ground Observer Corps has been tracking an unidentified flying object in the skies over Ontario for the last month. Herb Harrison, chief observer for the suburban Don Mills area here, said, "It's like a little ball of fire. It keeps shifting from north to east to west to south. We have no idea yet what it is." Members of the Ground Observer Corps have been instructed to maintain a close watch on the mystery light.

4-H MEMBERS AT THE EXPERIMENTAL FARM

More than 150 4-H club members from Kings County yesterday had the opportunity of seeing a prize Ayrshire herd which has distinguished itself not only at Charlottetown but at Amherst and Toronto Exhibitions. George MacMillan's Jerseys at Cornwall were included in the stops and here the boys and girls were able to inspect another of the Island's top notch herds.

Tom Sanderson, long distinguished with the breeding of top notch Herefords was pleased to have the 4-H members as his guests. At Dunstaffnage the youths had the experience of seeing one of Canada's top sheep breeders when Almon Boswell became host for a short time. Between 12 and 1.00 o'clock a picnic lunch was enjoyed at the Experimental Farm which proved to be of keen interest to the rural youths. The tour was organized and conducted by Mr. Dave MacLean, provincial agricultural representative for Kings County.

Remove Pickled Snakes From Ship

MONTREAL (CP)—Union and management co-operated Monday to get a cargo of pickled snakes off a strike-locked ship in Montreal harbor. The snakes, worth \$10,000, will be shipped by plane or train to Toronto's Royal Ontario Museum, officials of Canadian National Steamships said.

Mommy Is Back From The "Dead"

WHITLEY BAY, England (AP) The prayers of an 11-year-old girl were answered here over the weekend. Her mother came back from the "dead." The strange case began last Friday night when Carole Draper's mother, Mrs. Nicolette Draper, collapsed in her home. The frightened child watched as an ambulance took her mother to the hospital. Then, 24 hours later, a sad-faced policeman knocked on the Drapers' front door.

Describes Achievement Of Giant Aircraft Industry

The achievement of a giant Canadian industry was told by George Keefe of Montreal procurement manager of Canadair Limited, at the weekly luncheon meeting of Rotary held at the Charlottetown Hotel yesterday. The speaker was introduced by Art Carruthers who presided, and thanked by Stan MacInnis. "The aircraft industry has stepped into the third place in salaries and wages and has become a real economic factor in Canada," Mr. Keefe said as he described the development of his organization and the need of expansion during the war years and since.

Remove Pickled Snakes From Ship

The snakes, worth \$10,000, will be shipped by plane or train to Toronto's Royal Ontario Museum, officials of Canadian National Steamships said. The Seafarers International Union, (CLC) currently on strike against CNS ships for higher wages, gave permission for stevedores to shift the vessel's cargo of the crates of snakes. The snakes were loaded into a smaller boat and brought ashore. The ship, Canadian Cruiser, has been tied up in mid-stream since July 6.

Mommy Is Back From The "Dead"

"Is this Mrs. Raper's home?" asked the bobble. "It's Mrs. Draper's home," said Mrs. Nellie Morrill, Carole's grandmother. "Well," said the policeman, "I must have mixed up the names, but I've got some bad news for you—Mrs. Raper, or Draper, is dead." Stunned, Carole fell to her knees. "Please, God, make my mommy live," she prayed over and over until she fell asleep.

Describes Achievement Of Giant Aircraft Industry

The Montreal plant of Canadair has 250 million feet of covered floor space and gives employment to 11,000 persons. Well known aircraft such as Canco, North Star, and others are built in the plant and spare parts for other types. Sabre jets are coming off the assembly line for the R.C.A.F. and there is a world wide bid from many nations for advanced models. The Argus, long range aircraft now in an advanced stage of construction, is a maritime reconnaissance aircraft which will be based at Summerside.

Remove Pickled Snakes From Ship

Director Duncan Cameron of the Royal Ontario Museum had appealed to Transport Minister George Hees to intervene before mould and fungus destroyed the stuffed reptiles. He said the crates had to be refrigerated as fast as possible. Four men spent two years in the jungles of Trinidad collecting the shipment, risking their lives to get. The reptiles, mostly rare varieties, were pickled, some by injection of preserving fluid and some in jars.

Mommy Is Back From The "Dead"

"Mrs. Draper dead?" said an official. "She's ill, but she certainly isn't dead." The official took the uncle to ward 15. Carole's mother was sleeping soundly. "A horrible mistake," said a senior hospital official, "we are starting an inquiry."

Describes Achievement Of Giant Aircraft Industry

This aircraft is designed to detect submarines, surfaced or submerged, with equipment capable of destroying the same. It will have a range of 4,000 miles and represents the final word in this type of aircraft. One thousand man-years of research work planning and testing were consumed on this job and 29 months in the actual construction. Describing some of the equipment in this new aircraft Mr. Keefe said that the electricity output required would light sixty six-room houses and the fuel carried would carry a car 130,000 miles. The heating generated would be sufficient for 28 six-room houses. Sixty miles of electric wire are used in the craft and ten acres of drawing paper were used in the planning. Seventy-five million dollars worth of aircraft will be sent to West Germany in the next year, from Canada.

Speedy "Railine" Service Is Established By The C. N. R.

MONCTON, July 23 — New, fast "Railine" service which will greatly shorten running time, operate a more convenient schedule, and provide additional passenger comfort is to be inaugurated August 12th between Moncton and Campbellton by Canadian National Railways, it was announced here today by the company. The new Budd Diesel car will replace trains 25 and 26 on this route, shortening the trip to Campbellton by an hour and 40 minutes. From Campbellton to Moncton the time will be cut by an hour and 15 minutes.

"Sooner or later the guided missile development will create a new situation and the slack created in the aircraft business will have to be taken up. This has been recognized and already a worth-

Speedy "Railine" Service Is Established By The C. N. R.

The new service is designated to be especially beneficial to residents of intermediate points between Moncton, Newcastle, Bathurst, and Campbellton. The Railiner will make connection with mainline trains such as the "Ocean Limited" which stop only at divisional points, giving travellers fast service on East or West-bound trains between Halifax and Moncton. The railiner will carry 48 passengers as well as mail, express and baggage. It is a stainless steel, lightweight coach, fitted with operating controls at each end to plastic roller curtains, and the floor is laid with terraflex tile in attractive patterns.

Stresses Value Of Marketing

KENTVILLE, N.S. (CP)—Deputy agriculture minister Dr. F. Waldo Walsh said here Monday that marketing has failed to keep pace with farm production Nova Scotia. In a talk to a service club he urged a combination of efficient production and marketing as a solution in a talk. Distribution methods must be improved if the farming industry was to prosper. "Our big weakness is in beef cattle outlets, where we receive \$30 a head below Ontario prices while our meats are costing the consumer practically the same."

Primary Source Of Late Blight Disease

"During the eleven years that these advisory bulletins have been issued, potato growers have been constantly reminded that late blight makes its first appearance on the plants growing on cull piles. "States the weekly potato bulletin issued by the science Service Laboratory, Charlottetown. In spite of annual warnings to eliminate these primary sources of disease, the cull pile continues to threaten the health of our fields, and the story this season naturally follows its regular pattern. "Late blight was found in a potato cull pile in Kings County, Nova Scotia, on the 11th of July, and on the 17th of July it was discovered in a pile by a warehouse in the eastern part of Prince County, Prince Edward Island.

Find G. M. C. Had Excess Profits

WASHINGTON (AP)—Government auditors reported Monday that General Motors Corporation overstated or misstated production costs on a 1952-53 contract for fighter planes and reaped \$17,459,000 in "excess" profits. The auditors blamed air force laxity, and "excessive estimates" and "incorrect statements of cost" by General Motors, for "unreasonably high prices being paid by the government." They said the air force three times has appealed unsuccessfully to GM for a voluntary refund as a matter of principle and GM replied it saw no reason to readjust its figures. The audit report, made by the general accounting office, was submitted by Comptroller General Joseph Campbell to a House armed services subcommittee. Chairman F. Edward Hebert (Dem. La.) called the figures "shocking" and "bordering on actual fraud."

Hebert told a reporter that "if necessary," he would subpoena GM officials from President Harlow Curtice on down. The air force - GM contract called for manufacture of 59 F-84F jet planes, plus spare parts, with prices predetermined at several stages of the contract as production advanced. The contract was a negotiated fixed-price agreement concluding with a final price to the government of \$375,000,000 in May, 1955. The audit report said GM received \$42,200,000 actual profit. An audit of a profit rate of eight per cent was agreed upon during negotiations, but that the over-all realized profit was 12.6 per cent. The audit gave the per cent of profit on costs at around 19 per cent.

PERSONALS

MONTREAL (CP)—The father of missing narcotics suspect Larry Petrov looked Monday at a severed human limb on which his son's shoes and socks fit, but could not identify it positively as that of his son. "It looks like Larry's leg," said John Petrov after leaving the morgue. "I am more convinced that it is his than that it isn't." The father, 59, visited the morgue after medico-legal examinations showed the leg could be that of his son. The severed limb, with one sock on its foot, was found Sunday floating in Lac Beauport about 75 miles north of Montreal. The sock was similar to and almost matched the type of socks Petrov owned, provincial police said, and one of Petrov's shoes fitted the foot. The 36-year-old welder and painter was awaiting trial on a narcotics charge when he disappeared July 2. Police have speculated that he was the victim of a gangland slaying. INVESTIGATED REPORT Police investigated a report that a human torso had been found in a field near St. Henri de Massouche, in the same general area, but were unable to find anything. A provincial medico-legal expert established that the leg had been in the water for two or three weeks. Dr. Rosario Fontaine said the leg had belonged to a "heavy-set man, about five feet, 10 inches tall, with red hair." Petrov was described as being five feet, 11 inches tall, weighing 225 pounds, and with red hair and blue eyes.

DEATHS

MACKINLEY — At North River, Mass., on Sunday, July 21, 1957, Daniel MacKenzie, aged 83 years. Remains will arrive at the MacLean Funeral Home tomorrow.
