Yank Doubts ECM Members Will Meet New British Plan

By HAROLD MORRISON

WASHINGTON (CP)—A qualified U.S. authority just returned from Brussels said he doubts the European Common Market will accept immediately Britain's proposed elimination of tariffs on industrial raw materials. Such a move could benefit Canada, the U.S. and other non-European exporters.

This official said that while the U.S. has given the inner six assurance that the U.S. will repay later any benefits it may get now through Britain's duty-free proposals, the U.S. offer has not impressed the tough Brussels negotiators.

However, the inner six likely will say they will be prepared to negotiate reduction or elimination in tariffs on industrial raw materials at some later stage when countries outside the Common Market who might benefit are prepared to provide immediate concessions in return.

NO BRITISH TARIFF

Under existing Commonwealth tariff preferences, there is no British tariff on a large group of industrial raw materials from her Commonwealth partners. But the Common Market maintains a variety of external tariffs on such products.

If Britain were to enter the European Economic Community under existing Common Market rates of duty, Canadian aluminium exporters, for example, would find a nine-per-cent tariff nailed on Britain's door.

The U.S. also exports aluminum, as well as copper, wood pulp and other materials to Europe.

The U.S. official who was at recent Brussels talks said he firmly believes Britain will gain entry into the European community. But the Brussels atmosphere appeared such that Britain's duty-free proposals would not be accepted.

Planning Is Urged For Canada

QUEBEC (CP)—There is no longer any place in the world for a small country such as Canada to drift aimlessly without economic planning, real estate executive Bert Kartz said here.

He told the opening session of the annual convention of the Canadian Association of Real Estate Boards that it is time Canada "grew up as a nation and faced the facts of life."

He told the 600 delegates from across Canada that people think in terms of labels, not facts. To them economic planning "might seem to be a distasteful term, smacking of socialism and government interference."

"Let us look forward to the future with confidence but let the future arrive in a guise we can recognize. Let us deliberately, energetically and hopefully plan for it."

CITES PLANNING

Comparing Canada's economic situation with that of Europe countries, Mr. Kartz said the upsurge of members of the European Common Market has come about because of economic planning.

Instead of worrying about Britain's proposed entry into the Common Market, Canadians should be planning how to do business with its 280,000,000 inhabitants.

"As Europe prospers so will her ability to purchase goods from whatever sources can supply the goods. . . . The same holds true for the emerging African and Asian nations. Let us put ourselves in a position where we can compete for these markets.

The government's present austerity government and financial crisis shows "either something has gone wrong or was never right in the first place," Mr. Kartz said.

Loans To Farmers Set New Records

OTTAWA (CP)—The Farm Credit Corporation gave Canadian farmers a record number of loans last year, the agriculture department has reported.

The Crown corporation issued 5,985 loans in the fiscal year which ended last March 31 for a total of $68,574,850. This was a 12 per cent increase over the previous year when $60,704,050 was made available through 5,597 loans.

Meanwhile, the corporation's acting chairman, George Owen, predicts that the current year will set new records. Up until the end of August this year, loans totalled $47,372,200, compared with $39,821,300 at the same time last year.

Increases were recorded in all provinces. The biggest increase was in Quebec where, up to Aug. 31, loans were up about 730 per cent over last year.

4 Charged In Seizure Of $5 Bills

MONTREAL (CP)—Four men have been charged with possession of counterfeit money in the wake of week end police raids that have uncovered about $40,000 in bogus $5 bills in the Montreal area.

Ligueri Lacombe, 45, was charged with possession of 1,593 counterfeit $5 bills police said they seized at his downtown apartment. He was released on $10,000 property bail to appear for preliminary hearing Oct. 2.

Clifford Roberts, 18, pleaded guilty to illegal possession of 21 counterfeit $5 bills. He will be sentenced Oct. 2.

Albert Turgeon, 48, and Rene Cloutier, 42, were both released on $1,000 cash bail after being charged with possession of $10 counterfeit bills. Their preliminary hearing was set for Sept. 28.

Jacques Fournier, a special federal prosecutor who appeared for the Crown, said the counterfeit money situation in Montreal had reached "extremely serious proportions."

New Speaker For Senate Announced

OTTAWA (CP) — Appointment of Senator George S. White, 64, as Speaker of the Senate was announced here by Prime Minister Diefenbaker.

Senator White, first member of the Upper House appointed by Mr. Diefenbaker after he became prime minister in 1957, succeeds Senator Mark Drouin, 58, speaker since Oct. 4, 1957.

A Madoc, Ont., lawyer, Senator White was appointed to the Upper House Sept. 20, 1957 after representing the Ontario constituency of Hastings-Frontenac continuously in the Commons since 1940.

Senate speakers are appointed by the prime minister at the opening of each new parliament. Mr. Drouin was reappointed for a second term May 12, 1958.

During the time he served in the Commons, Senator White, a veteran of the first and second world wars, was a strong supporter of advanced legislation for war veterans.

He served as a private in the First World War with the 44th battalion. He was awarded the Military Medal for bravery.

PLAN TO AID TURKEY

BRUSSELS (AP)—The ministerial council of the six European Common Market countries will try to put up $300,000,000 in financial aid to Turkey, it was decided Tuesday. A spokesman said the six countries (Belgium, Netherlands, Luxembourg, Italy, West Germany and France) hoped to come to agreement on a division of this aid at the October meeting of the Organization for European Co-operation and Development (OECD).

The bidding:

South	West	North	East
1♠	Pass	4♠	Pass
Pass	Pass		

Opening lead—queen of clubs.

A fine declarer makes not only the contracts he's supposed to make, but also some contracts that are impossible, or appear to be impossible, to make.

Whenever a contract appears hopeless on the surface, the careful declarer will burrow beneath to see whether or not any method of play or any distribution of the adverse cards will permit the hand to be made.

There may be no solution in some cases, but the declarer is duty-bound to look for one.

Here is a good illustration of the principle. The hand was played by Louis P. Frank, New York attorney. He got to four spades and West led the queen of clubs. Apparently, two spades and two diamonds had to be lost, and possibly a heart.

But Frank made the hand, despite the bleak outlook, by adopting a method of play that gave him a chance for the contract. He ruffed the club in dummy and finessed the queen of hearts.

When the queen held, he ruffed another club and finessed the jack of hearts. He then cashed the ace of hearts, everybody following suit, and ruffed his last club, the ace. Now he led dummy's established heart.

If East had trumped with the ace, South would have discarded a diamond and made the hand without further ceremony. But East made the more natural play of discarding the eight of diamonds, whereupon Frank discarded a diamond and West ruffed.

West then led the king of diamonds, followed by the jack. Declarer ruffed and returned a spade, the king and ace falling together on the trick. That was the third trick for the defense and also the end of the hand.

Of course, Frank had to be lucky to find East with the king of hearts, to find the hearts divided 3-3, and to get a favorable trump division besides. But if you don't play for miracles in such hands, they won't happen and you'll never wind up with your name in the paper.

DAILY CRYPTOQUOTE — Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.
