With Councillor W. E. Jenkins retiring in the East Ward after serving on the council for six years, the two candidates here will be Reginald Clough and Robert Dewar.

In the Center Ward Councillor W. E. MacCausland has renominated, and will be opposed by Ray Tanton whose nomination papers were filed several days ago.

In the West Ward Councillor Edgar Cannon has also renominated in an election contest against Fred Leo D. Arsenault.

With election day scheduled for next Tuesday, interest in the election is beginning to be a subject of conversation among the

FILMS SHOWN On Friday afternoon, Grades eleven and Twelve viewed several interesting and informative films. These were obtained for us by the film committee from the National Film Board. The title of the first film was "Let's Look At Water" which was about city water purification and the part it plays in the fight against infection.

Secondly, we viewed, "Across Arctic Ungava". This film was a record of an expedition by four Canadian scientists and their Indian guides into the interior of Ungava Peninsula. Here they recorded soil temperatures, collected rock specimens, and observed plant and animal life. The third film was "Everyman's World", which pictured the role of the average Canadian in the preservation of world peace and emphasized the responsibilities of Canadian citizenship.

Next we saw the film, "Tomorrow's Citizens", which dealt with the education of future citizens for life in an age of science. The final film was "Home and School", which was concerned with the relationships that should be maintained between parents and the school life of their children.
