Farm and Household.

The leaves of the grape} like sun ; the fruit, shade

Fall fallowing cleans the land and brings it into fine condition for spring crops.

For sheep losing their wool the *Country Gentleman* recommends bathing with saltpetre water, one ounce to the quart.

As a remedy for grasshoppers that may be troublesome in the outskirts, near cleared land, borax sprinkled on vines and foliage of young trees is said to be efficacious.—*Troy Times.*

A nice way to cook boiled potatoes for supper is to slice them as thin as possible and still have them keep their shape. Put some milk, butter, pepper and salt into the saucepan and let it boil up once or twice; then put the potatoes into it and let them cook five minutes not longer.—*N. Y. Post.*

Sheep husbandry, like any other industry, must heave the right man at the helm to be profitable. One must have a liking for it, and make it a study. Blood will tell and feed will tell; one may take a flock of sheep and make them gain and pay, while another will lose by the operation.—*Cleveland Leader.*

Rice Pudding Without Eggs.—Take two quarts of milk and one cup of rice, one-half cup sugar and a teaspoonful of salt. Bake in a moderate oven three hours. Should be stirred gently two or three times after it has begun to bake. Raisins may be added if one likes. Cream and sugar is a nice dressing for it if anything is desired.—*Boston Budget.*

The great flow of milk of cows is truly artificial. In a state of nature the cow gives only the necessary quantity, and gives it only the necessary time to sustain the calf. The greater and longer yield of milk is the result of better feeding, better treatment and longer manipulation of the teats. Hence, to increase the yield of milk, feed and milk well.—*Albany Journal.*

Dr. Sturtevant, the Director of the New York State Experiment Station, experimented with several methods of ridding his cabbage, cauliflowers, turnip and radish plants of the turnip flea beetle, and found nothing so good as airslaked lime dusted over the plants while wet with dew. Plants grown in a frame made up of twelve-inch boards were not perceptibly injured by the beetles.

ELECTRIC GLOSS.

FOR cleaning Solid Silver, Nickel, Brass, Copper and Plate Glass. Quick! Sure! Permanent! No dirt, no trouble, no labor. Being entirely free from grit and acids, it cannot injure the most finely burnished surface. It is the only preparation ever produced that will polish brass or copper without the use of acid. Nothing approaches it for removing grease and finger marks from Brass, Copper, Glass, etc; while for cleaning Nickel or Stoves it is especially useful. Retail price, 25 cents per bottle.

MICA WASH.—This wash is the only thing of the kind ever invented. A stove may be as handsome as a jewel and shine like ebony; but smoked mica lights will spoil it all. Day by day mica becomes scarcer and higher in price, and an article that will clean and preserve it is valuable to all concerned. Try this wash once, and you will always use it. Retail price, 25 cents per bottle.

The above household necessities are manufactured by The Electric Gloss Co., Philadelphia, U. S. A., and sold by every respectable Druggist, Stove Dealer, Hardware Merchant and General Dealer in Canada. The Canadian trade supplied by

MRS. SOPHIA POTTER'S Bone Rheumatic Liniment

IT is a fact worth knowing that Mrs. Sophia Potter's Bone Rheumatic Liniment cannot be excelled for removing pain and soreness. It is no worthless trash, as some may suppose, simply because they have been imposed upon by others but is positively the "King of Pain." Sore throat cannot stand before its power.

All we ask is a trial that you may be convinced of the truth of our statement. Our experience is that one bottle tried also sells many more.
