Collars, Cuffs & Ties

Like a comfortable collar—or stylish collar—or both—we can please you

New shapes from 1 1/2 inches to 2 1/2 inches, 3 for 25c and 20c each.

New ties just came in Thursday. See them.

## SIR WILFRID'S GERRYMANDER

### A Most Outrageous Bill Submitted Yesterday

#### TO STRANGLE THE CONSERVATIVES IN ONTARIO

Creates Constituencies Varying from 50,000 to 12,000.

[SPECIAL TO THE EXAMINER]

OTTAWA, May 20.—The Government scheme for the gerrymander of the constituencies was brought down by the Premier yesterday.

Before Sir Wilfrid Laurier had proceeded far with his explanation he dispelled from the mind of Opposition members any hope they may have felt that it would be a fair measure.

The bill is evidently designed and intended to strangle the Conservative party in Ontario.

It sets at naught the principles of representation by population, as it creates constituencies varying in population from 50,000 down to 12,000. The measure does not touch Nova Scotia. In New Brunswick it rearranges St. John, giving one member for the city and one for the county outside of city. In P. E. Island the country lines are restored, Prince and Queen's each returning two members running together, and King's returning one. In Quebec certain parishes are removed from one constituency for the alleged purpose of restoring municipal boundaries. West of Toronto it is that the bill gets in its work. Sir Wilfrid Laurier explained that the principle regarded in this arrangement was respect to the county boundaries of constituencies.

It appears, however, that this doctrine is only applied where the Government finds it advantageous to do so.

Many constituencies will still cross the municipal boundaries.

The act provides that the constituencies of Cardwell, Bothwell and West Ontario shall disappear and Middlesex shall lose one seat.

Two new members are given to Kent in which the greater part of Bothwell and a small part of Elgin is merged. Dufferin, that is in part made out of Cardwell as well as out of Simcoe, is given a member, and one one is allowed to Parry Sound now joined to Muskoka.

The bill provides that Ottawa and Hamilton shall each return two members and London city and one as now.

Toronto, which contains one district electing two members, and two others which return one member each, will receive portions of the municipality now included in East York and West York adding 30,000 to the population.

The city will still have only four members and will be carried into a single member district.

The bill then gives a list of the counties which will return one, two, or three members each, every county being treated by itself, having assigned to each county a number of representatives.

The bill provides a court to divide the several counties into ridings.

This is to be done by a commission of three judges of the Superior Court, to be appointed by letters patent, who are instructed to make a division on the basis of population and convenience.

A change of representation is to come into effect on the expiration of this Parliament.

Sir Chas. Tupper protested against the adjustment of the constituencies at other times than after a census when the constitution provides such readjustment.

He charged that Sir Wilfrid Laurier was afraid to appeal to the constituencies to which he owed his present position. Notwithstanding the successes obtained by the government in the bye-elections, through the co-operation of two governments in wholesale corruption, ministers were afraid to trust their future on a

general election to the electorate as now constituted.

They had altered the franchise, placing the control in the hands of their friends in the Provinces, and still they found necessary to violate the principle of representation by population.

The Opposition leader showed that the whole operation of the bill was to reduce the representation of the Conservative Counties.

For instance the grit county of Brant was allowed one member for each 16,000 people, while Conservative Toronto only had one for each 50,000. Thirty thousand people have been added to Toronto, and it got no more members, while Kent, a strong grit county, was given large additional representation, making it, proportionately to population, three times as large as that of Toronto.

Clarke Wallace, from whose constituency a large body of Conservative voters will be taken, declared that this was a more infamous gerrymander than either of those perpetrated by the Ontario Government to keep itself in power.

In the course of the discussion that followed it was pointed out that Simcoe, a conservative county, was only allowed one member for each 27,000 people; while Kent, a Liberal place, had one for every 19,000; Brant, a Liberal place, one for each 16,000.

Col. Tisdale begged the Government to reconsider their action and withdraw the bill and proceed fairly to give representation according to population.

Sprule, Clancy, Montague, Bennett and others offered their protest.

After dinner Sir Charles Hibbert Tupper made a few remarks, when the bill was read a first time.

It is not often that a bill is discussed to this extent on its first reading, and the tone of the opposition members indicates a rather bitter debate at subsequent stages.

#### GRASPING RUSSIA.

#### Insisting Upon Further Grants From China.

LONDON, May 19.—The Peking correspondent of the Times says: "M. de Giers, Russian Minister to China, declines to accept the refusal of the Chinese Government to grant a railway concession to connect Peking with Russia's present railway system in Manchuria. He will insist upon the grant. Unless supported by some other power, China will yield to Russia. She is surrounded with calamities, brought upon her by Italy, France and Germany, while England's hands are tied by the Anglo-Russian convention."

#### A Test Case.

OTTAWA, May 19.—The Government has decided to throw a sop to the temperance people of the Eastern Townships to assuage their wrath over their treatment on the prohibition question. In the Dunkin Act case of Wentworth v. Mathieu, the former being agent for the alliance, and the latter a druggist of Sherbrooke, the case was lost to the alliance on appeal, on the ground that Mathieu, having paid his fine of \$100 on the 29th charge against him the other 28 could not be proceeded with. The Government has decided to pay all the costs of a further appeal to the Imperial Privy Council.

#### Steamship Consolidation.

BOSTON, May 19.—The Herald says: "It is reported that negotiations are under way looking to the consolidation of the three steamship lines now operating between Boston and provincial ports. Two lines are competing for the trade between Boston and Yarmouth, including rail points to Halifax and other eastern cities and towns, while the third, running to Halifax direct, has its business reduced somewhat by the competition of the Yarmouth concern. To stop rate cutting and reduce expense is the object of the consolidation."

#### 28 Called Him Father.

GUELPH, Ont., May 18.—The familiar countenance of Mr. Robert McConachie, watchman at the G. T. R. crossing, Gordon street, was beaming yesterday morning on account of the arrival of a young son which makes, as Mr. McConachie said to a reporter: "Let me see; wait till I count them; well, 28 so far." McConachie is 61 years of age, or will be on the 24th of May next, and was born in the northern part of Scotland. He has been married three times. There are seven children in the last family. Of the 28 children 19 are living.

The P. E. Island Magazine is out, and on sale at the usual places.

#### THE TRANSVAAL.

#### Alleged Revolutionists in Court.

PRETORIA, Transvaal Republic, May 18.—The eight alleged revolutionists, who presented the appearance of ordinary loafers, were arraigned yesterday in court and were charged with the capital offence of high treason. They were remanded for a fortnight.

Sworn affidavits alleged that 2,000 men have been enrolled for military service, and that it was intended to arm them in Natal to return them to the Rand, and at a given signal to seize and hold the fort of Johannesburg for 24 hours, pending the arrival of British troops.

The Press says the Government regards the matter as "an unfortunate local incident, which will not affect the general political situation."

The Government also confirms the report that the arrangements between President Kruger and the Government of Cape Colony and the High Commissioner of South Africa, Sir Alfred Miller, for a meeting at Bloemfontein, capital of the Orange Free State, are nearly completed. The President's proposed reforms will be presented to the Raad prior to the meeting.

#### Kruger Prisoners

LONDON, May 18.—All the morning papers devote their principal editorial to the arrests in the Transvaal, counselling a postponement of conclusions until the facts of the case are ascertained, and declining to believe that English officers or subjects have been guilty of what the Standard terms "such treasonable folly."

The Daily Mail says:—"The conditions are that of a boiler with furnaces at full blast and safety valves screwed down. No conspiracy can flourish while freedom exists; and the Kruger policy will inevitably produce resistance."

The Times, which repudiates the idea that the prisoners are of weight among the British Uitlanders, or represent important interests of any kind at Johannesburg, suggests that President Kruger has been imposed upon by his own detectives.

The papers publish an interview with Mr. Chamberlain, who apparently depreciates the seriousness of the arrests, but says he does not recognize the names of prisoners or understand the causes of arrest.

#### Cheese and Butter.

HALIFAX, May 18.—New cheese has been on the Halifax market for some time and is selling for 11 cents wholesale. September cheese is quoted at 10 1/2 cents. In Montreal there is quite a big movement of cheese just now, and 16,421 boxes went out from Montreal the past week, against 5,532 boxes a year ago. Butter is also forging ahead of the 1898 figures at a good price, and they total 7,757 packages, against 2,789 packages for 1898.

## ROYAL Baking Powder

Made from pure cream of tartar.

Safeguards the food against alum.

Alum baking powders are the greatest menaces to health of the present day.

ROYAL BAKING POWDER CO., NEW YORK.
