MANTLES a specialty—Bear Bros. THE KINDERGARTEN will open to-morrow morning at ten o'clock.

REMEMBER the meeting at the P. E. Island Hospital at 7.30 this evening.

ADVANCE IN PORK.—An exchange reports that pork advanced 50c. to \$1 in the Upper Province market last week.

FIRE.—We are sorry to hear that the dwelling house of Captain Thomas McRae, at Eldon, was destroyed by fire on Sunday night. The origin of the fire is unknown. There was no insurance. The estimated loss is about \$2000.

WILL NOT ASSIGN.—A Halifax despatch says: Robert Taylor, boot and shoe manufacturer, who recently suspended payment with liabilities of \$200,000, will not assign, his principal creditors having agreed to a compromise for forty cents on the dollar without security. The heaviest creditors are in Quebec, Montreal and Toronto.

THE MARKET.—To-day the attendance at the market was good, with no change in inside prices. Outside the supply, except oats, was good, hay selling at from 65 to 70 cents per cwt. with an odd load bringing 75 cents; potatoes, 34 cents per bushel; oats, from 39 to 40 cents per bushel; lobsters, from 3 to 6 cents each; cod, from 5 to 12 cents each.

INDUSTRIAL EXHIBITION.—An exhibition of articles made during the past winter by the St. Paul's Church Band of Hope will be held this evening in the schoolroom at 7.30. Admission 5c. Refreshments at moderate charges. The Band of Hope children will carry out an interesting programme, consisting of songs and recitations. All are heartily invited.

THE WHEEL.—The five, ten, fifteen and twenty mile bicycle road records were broken by F. H. Herrick at the fourth annual road race of the Detroit Wheelmen's Club, at Detroit, on Saturday. His desperate effort to smash the 2.57 mile record ended in failure owing to the lack of wind. The first five miles were made in 15.47, the second five in 14.25, the third five in 14.25, the fourth five in 14.57, and the twenty-five miles in 1 hour, 21 minutes and 54 seconds. He was handicapped ten minutes, being the heaviest hand-capped man of the forty in the race.

NEW TRADE PAPER.—We have received the first number of the Canadian Engineer, a new trade paper published in the interests of the mechanical, marine and sanitary engineer, the manufacturer, the contractor and the merchant. The publication office is at 62 Church street, Toronto, with outside offices at Montreal and London, England. The appearance of the paper is quite attractive. The illustrations are excellently produced, and have the merit of being devoted to practical matters of trade. There are in all 28 pages besides the covers of thick paper. The venture has the best wishes of THE EXAMINER.

THE COBAN.—The steamer Coban, Captain Robert Fraser, left last evening for St. John's via North Sydney, taking the following cargo: Shipped by B. Rogers, 4 horses; by G. H. Toombs, 2 horses and 2 ponies; by G. Wheatley, 2 horses and 2 sheep; by Joe. McCarey, 2 horses; by Long Bros, 1 horse and 3 sheep; by Win. Boyle, 9 bags leather; by P. Duffy, 10 bags turnips; by Carvell Bros, 158 bbls pork and 157 bales hay; by A. Horne & Co, 100 bags oats and 14 tubs butter; by John Scott, 3 tubs butter. For Sydney she had 1 crate pigs, shipped by R. E. Longworth, and 11 head of cattle, shipped by N. B. & M. Rattenbury. The passengers were James Gormley, James Pidgeon, Isaac Jenkins, Joseph Kelly and J. S. Kennedy.

THE LATE PATRICK HIGGINS' ESTATE.—Our readers will remember that after the death of the late Patrick Higgins, of Charlottetown, who perished in a snowstorm some two years ago, his will was contested by his brothers and sisters on the ground that he was, at the time of making it, unable to do so. The will was sustained, however, by the late Judge of Probate. By its terms the testator gave all his estate in trust for a little girl named Lawlor, who resided with him for her life, and at her death to her children. The will provided that in case the little girl died without issue the entire estate should revert to Higgins' heirs at law. This event has happened, as the girl died yesterday morning without issue, and now Higgins' brothers and sisters come into possession of the property the same as if their brother had died intestate and without leaving any issue.

AN ISLANDER KILLED.—A Baggor, Me., despatch of the 28th says: John Baggor, aged 35, unmarried, a native of P. E. Island, and after in the Smith Brewer pulp mill, while at work on Saturday afternoon, was caught in a shaft making two hundred revolutions a minute. When the body was found it was unrecognizable and simply a mass of flesh. One leg was wrenched from the body and thrown forty feet away. Bits of flesh, cloth, and splashes of blood covered the floor and walls. When last seen he passed a fellow workman on his way to the room, asked the time and was told it was 2.30 o'clock. "The clock must be slow," he said. Twenty minutes after a man was passing, and he saw some object wound on the shaft. He signalled the engineer to stop, and the object proved to be Baggor's body. It is presumed Baggor attempted to climb over the shaft and was caught on the waste hanging from his pocket in the rapidly revolving rod.

FISH REPORT.—P. E. Island—Good lobster and herring fishery yesterday at Mimingash and Roseville; stormy at other stations.

FOOTBALL.—There will be a meeting of the Junior Abegweit this evening at seven o'clock at Victoria Park.

THE EXODUS.—An excellent article dealing with the exodus and the causes thereof, from the pen of Mr. Geo. F. Owen, will be found on the first page of to-day's issue.

MEDICAL ASSOCIATION.—It is announced that the annual session of the Maritime Medical Association will be held at Charlottetown this year, on July 12 and 13. Last year the Association met in Halifax.

THE BOUY SERVICE.—The steam tug William Atken left today with the automatic buoy for Tryn shoals, where she will place it in proper position for the summer, and then return and take the other buoy to Indian Rocks, near Wood Islands.

CHOICE CATTLE.—The Sydney Herald says: Many of the steamers calling at the Cape Breton coal piers to replenish their supply of bunker coal have very fine cattle on board for the British markets. Some of these cattle weigh as heavy as 2,400 lbs. They come down the St. Lawrence and are raised in Ontario and Quebec. Some fine cattle were on board the Bonavista, which called here en route to Newfoundland last week.

STILL THEY COME.—The movement of Swedish immigrants towards Canada is assuming very extensive proportions. One evening last week 40 heads of families from the mother country, several of them being accompanied by their wives and families, arrived in Montreal and were sent forward by the Canadian Pacific. These people declare they will be followed by hundreds, say thousands, of their countrymen, who have all come to look upon the Canadian Northwest as the best field for Swedish immigration.

NEW FACTORY.—The enterprise of Councilor Hogan in fitting up a new wood-working factory is worthy of commendation. The factory is located on Great George Street, near the office of the Steam Navigation Company. The building is three stories high, with stone foundation. The boiler and engine are placed on the first or ground floor, at the east end of the building. The engine is of the most approved pattern, and is very powerful. On this floor also is the main shaft with pulleys to drive the different machines such as planer, matcher, beader, joiner, moulder, morticer, etc. On the second floor are the lathes and saws, and the third floor is used as a store-room. THE EXAMINER wishes Councilor Hogan and his latest enterprise every success.
