

### BEDEQUE BOYS WIN MARVEN SHIELD

Bedeque Sigma C. Boys are seen receiving the Marven Shield, emblematic of first place in the Maritime provinces' share-selling campaign, sponsored by the Maritime Religious Educational

Council. The presentation was made in Bedeque United Church recently where the group includes, left to right, Kenneth Webster, group member; David Hamilton, Boy's Work Secretary for

the M.R.E.C., Saint John, N.B.; Rev. G.A. Cowper-Smith, former pastor of Bedeque United Church; Carl Wright, group member; Charles Ballem, chairman of P.E.I. Boys Work Committee.

### O'LEARY

A large congregation attended the church service Sunday morning in the O'Leary Baptist Church. The speaker was the pastor, Rev. Ross Howard. Mrs. L.G. Dewar was called upon to present Life Membership certificates to two members of the Mission Band, Ellen Dewar and Eric Ellis.

Mr. Roger Ellis returned to his duties in Moncton, N.B. after spending the weekend visiting his parents, Mr. and Mrs. Jack Ellis, West Point. Roger is on the staff of the Bank of Nova Scotia in Moncton, N.B.

Mrs. Nicholas Bulger returned to her home in West Point after visiting with friends in O'Leary.

Mrs. Watson Bodder has returned to her home in Milligan after spending a couple of months visiting her son and daughter-in-law Mr. and Mrs. Calvin Bouter of Pictou, N.S.

Mr. and Mrs. Guy Harris and daughter Glennis, Knutsford, accompanied Mr. Jack Cooke to Toronto, Ont. They will visit some friends and relatives for a couple of weeks.

Mrs. Neil MacKay, Coleman, entertained the Women's Institute members at her home for their June meeting. Nine members and two visitors were present.

Mr. Frank Stevens, Campbellton, N.B. recently purchased the

### Bake a batch of crusty Dinner Rolls

● If you bake at home, you'll want to try a batch of crunchy Dinner Rolls. They're so easy to make when you use fast rising dry Best Yeast!

#### CRUSTY DINNER ROLLS

Measure into a large bowl 1/2 c. lukewarm water; crumble and add 1 cake Best Yeast—or stir in 1 tsp. granulated sugar and sprinkle with 1 envelope Best dry Yeast. Let stand 10 minutes, THEN stir well. Add 3/4 c. lukewarm water and 1 tsp. salt. Add, all at once, 3 1/2 c. once-sifted all-purpose flour and work in with the hands; work in 3 lbs. soft shortening. Knead on lightly-floured board until smooth and elastic. Place in greased bowl. Cover with a damp cloth and set in warm place, free from draft. Let rise until doubled in bulk. Punch down dough in bowl, fold over, cover and again let rise until doubled in bulk. Turn out on lightly-floured board and divide into 2 equal portions; shape each

portion into a long roll about 1 1/2" in diameter. Cover with a damp cloth and let rest 15 mins. Using a floured sharp knife, cut dough into 2" lengths and place, well apart, on ungreased cookie sheets. Sprinkle rolls with cornmeal and let rise, uncovered, for 1/2 hour. Brush with cold water and let rise another 1/2 hour. Meanwhile, stand a broad shallow pan of hot water in the oven and preheat oven to hot, 425°. Remove pan of water from oven and bake the rolls in steam-filled oven for 1/2 hour, brushing them with cold water and sprinkling lightly with cornmeal after the first 15 mins., and again brushing them with cold water 2 minutes before removing baked buns from the oven. Yield—18 rolls.

## Common Market Seen Likely For Base Metals, Oil and Gas

OTTAWA (CP)—Canadian and American law-makers appear to be aiming at some form of North American common market for base metals and, possibly, oil and gas.

A strong hint of such a long-range development came Saturday night in the communique issued following the second meeting of the Canada-United States Inter-Parliamentary group and in statements at a press conference by its leaders.

Roland Michener, Commons Speaker and one of the Canadian co-chairmen of the conference, said that the group "agreed to seek the removal of all unnecessary restrictions" to the marketing of such base metals as uranium, lead and zinc.

#### NOW RESTRICTED

Lead and zinc now are under import quota restrictions in the U.S., seriously affecting Canadian exports.

The group's communique said

problems affecting many minerals are common to Canada and the U.S. and arise from temporary over-production.

"The problems with respect to the marketing of uranium, lead and zinc are particularly acute," it said. "It was thought that in order to control and limit the harmful consequences of the current over-abundance of certain minerals, the problem of marketing these commodities should be considered on a continental basis and from a long-term point of view."

#### "MAKES SENSE"

Senator George Aiken (Rep.-Vermont), co-chairman of the American group said in comments on the communique that "It is obvious that when several countries produce surpluses it makes sense that they should reach an understanding on marketing."

However, it seemed to him that the U.S. is not ready at this time

to agree to a common market. But an example of how two countries can reach "an understanding" on marketing of surplus products could be found in the two countries' disposal of surplus wheat.

Another American said oil producers of the western hemisphere, including Venezuela, may be headed towards mutual agreement on oil marketing.

#### OIL COMPETITIVE

On the oil question, the communique said Canada expressed satisfaction at the removal of mandatory U.S. import controls on Canadian crude, and hopes "Canadian crude oil would have access to United States markets on a freely competitive basis."

The conference agreed that difficulties with export of Canadian natural gas to the U.S. was "a major problem centred around the delays in processing applications for licences." But it hoped the U.S. Federal Power Commission and the New Canadian National Energy Board, to be set up shortly, would co-operate to overcome the problem.

The inter-Parliamentary group, 24 U. S. Congressmen and 24

Canadian MPs, was established in Washington last January. It is scheduled to meet twice a year. The next meeting will be in the U.S., possibly next spring.

#### LITTLE POWER

The group is designed to give legislators in both countries an opportunity to exchange views informally and to learn about each country's problems. It does not act as a body or pass on formal resolutions to the Canadian and American governments. Each section reports to their respective authorizing bodies—Congress and Parliament—in the manner it sees fit.

The legislators also discussed questions relating to continental defence and defence production sharing and boundary waters.

The communique said "there was complete agreement that the best hope of avoiding a nuclear war rests in the collective determination of the free world to resist aggression and in the maintenance of strong deterrent forces. In this context, Canada-United States co-operation in air defence (through radar lines and the North American Air Defence

The Guardian, Charlottetown, Tues., June 30, 1959

Command) assumed special importance."

It said the missile remains a threat to North America, but added there is "no question of dispensing with anti-bomber defences in the immediate future."

The communique added: "In the field of defence production, it was recognized that there is a unique degree of interdependence, requiring the best use of the resources of the two countries with the minimum duplication of effort. Special attention was

given to the question of what constituted a proper sharing of defence costs in the common effort."

#### DISCUSSED DRAINAGE

The working group of boundary waters reported hope that inter-governmental consultation will resolve differences arising from a proposed added division of 1,000 cubic feet of Great Lakes water through the Chicago drainage canal and from pilotage regulations on the Great Lakes system.

# STOP WITH NEW EASE... Dodge-style!

Fashionable Dodge Viscount—another Chrysler of Canada quality product

## DODGE TOTAL-CONTACT BRAKES

... put a new kind of stop power right at the tip of your toe! And understandably so. For when you touch a foot to Total-Contact brakes, the entire lining (not just part of it) goes to work... makes solid, even contact with the drum. Result: A smoother stop with less push.

But that's only a hint of the no-extra-cost bonuses you get when you make beautiful Dodge your car of the year. The Dodge ride is another... with incomparable Torsion-AIRE suspension to keep you level no matter how snaky the turn or rough the road. And Dodge go is still another... whether you choose the spirited Dodge "313" V-8 or the penny-pinching Dodge Econo-Flite Six.

Yet with all that, the best is still to come. For much as you'll like the stunning new Dodge, you'll like its price tag even better! It's priced with the lowest of all leading makes... with our own summer trade-in to make it an even better buy. May we show you a Dodge today?

**Dodge Swivel Seats** swing out to meet you, swivel you into position and lock automatically. What could be more graceful than that?

**Dodge Push-Button Drive** lets you select your driving range with one finger. Just press a button, Dodge automatic transmission takes over.

**Dodge low-friction ball-joint steering** makes your new Dodge the easiest handling car on the road. You'll feel the difference every time you turn a corner, ease into a parking space.

**QUALITY BUILT** Quality Built to the highest standards of automotive craftsmanship by Chrysler Corporation of Canada, Limited.
