A Warning.—A report published in a Chicago paper states that Halsey Raby, five years old, was smothered to death, and Lucia Ketchum, daughter of Attorney-General W. A. Ketchum, narrowly escaped death in a similar way. It is said that the cause was the heating of the carbonic acid gas generated by the heating of the stove in the room, where they had gone down to play unknown to the farm hands.

She has made some statements bearing on the tragedy in addition to those already published, and it is believed her evidence, if she recovers, will be of the utmost importance.

THE ETHEL TUCKER COMPANY. Robert Buchanan's great English melodrama "Alone in London," was presented in the Opera House last evening by the Ethel Tucker Company. The play was excellently rendered, and the ladies and gentlemen of the company added to the splendid reputation they have already gained among the theatre-going people of this city. As "Nan," the flower girl, the wife of "Reddick," the adventurer, Miss Tucker was splendid, and she was cleverly supported by Mr. Meldon, Mr. Clarke, Mr. Kranz, and the others in the cast. The specialties between the acts were very cleverly performed, and the Lawrence sisters and Miss Westcott were the recipients of beautiful bouquets. To-night "The Wife," the famous Lyceum theatre (N. Y.) success will be presented, with Miss Tucker and the full strength of the company in the cast. The costumes used during the presentation of "The Wife" are said to be very beautiful indeed, a fact that cannot fail to be of special interest to the ladies. Those who appreciate a good play cleverly presented should make a point of attending the Opera House to-night.

The company will give two farewell performances on Saturday. At half-past two there will be a matinee (with candy for the children) at which the ever-popular "Fanchon, the Cracker" will be produced. In the evening at 8 o'clock the famous English melodrama "The Fugitive," will be presented.

PROSPECTUS OF THE LITTLE BESS GOLD MINING CO.

CAPITAL STOCK, \$2,000,000. FULLY PAID AND UNASSESSABLE SHARES OF \$1.00 EACH. \$500,000 of this Stock is in the Treasury for Undevelopment Purposes.

The LITTLE BESS Claim is located in the southern belt of the celebrated Trail Creek gold mining district of British Columbia, being a full claim of about 52 acres.

BOARD OF DIRECTORS. JAMES BEATY, Q. C., Toronto. T. H. GEORGE, Wine Merchant, Toronto. J. E. ELLIS, Jeweller, Toronto. W. A. WERRETT, Barrister, Toronto. J. H. STOTESBURY, Prop'r Belgian Mine, Leadville, Colorado. J. D. LEWIN, Mining Engineer, Toronto.

BANKERS, ROBERT BEATY & CO. DEVELOPMENT. The development work on the "Little Bess" consists of numerous open cuts and prospect holes upon both veins, exposing in almost every case as good quality of ore, and similar in every respect to that shown on the "Hill Top" and "Mayflower." The principal development work is near the centre of the claim on the south ledge, being an open cut twenty (20) feet long and nine (9) feet wide, with a shaft in this cut eleven (11) feet in depth, making a total of twenty (20) feet from the original surface. The bottom of the shaft exposes exceedingly good mineral, a sample of which assayed \$26.00 in gold and silver to the ton. The peculiar feature of the claims upon this Lake Mountain is that the grade of ore, at practically the surface, is very much higher in value than upon any part of the better known Red Mountain in the same district. The great development work on the "Mayflower" and also upon the "Hill Top" proves that the ore rapidly increases in value with depth of development. It is only reasonable to suppose that like results will follow upon the "Little Bess" and "Essex."

FORMATION. The formation is diorite with an occasional appearance of syenite. The strike of the ledges is easterly and westerly. The "Little Bess," located as it is on the south side of the mountain, permits of its being worked to great depth by tunnels, thus doing away with the necessary cost of pumps and hoisting apparatus; the surface is covered with pine, fir and cedar, thus making the cost for timbering very slight. There is ample water for all mining purposes close at hand.

TRANSPORTATION. The Columbia and Western R. R. passes within 1,500 feet of this property, allowing the ore to be trammed immediately from the mouth of the tunnel to the cars. This one feature is of immense advantage, as it does away with the expense of building wagon roads and wagon transportation. What with the "Mayflower" on the west slope and the "Crown Point" on the north east slope of Lake Mountain, it requires work only upon the intervening claims to give it a Red Mountain reputation.

Respectfully, W. E. GORDON. We are instructed to raise the price of the stock from 6c. to 7c per share, (\$100 par value), in blocks of not less than 250 shares, until further notice when the stock will probably be raised to 10c. This is a good opportunity to invest in what promises to be a paying mine when properly developed, and the chances are that every seven cents invested will yield one dollar within a year, and after that a much greater percentage. Applications for stock and other information, apply to
