HARVESTER'S EXCURSION.—Quite a number of young men left this morning by the express en route to the Northwest. They will join the C. P. R. Harvester's Excursion train at St. John and pass thence to their several destinations. There will probably be quite a large Island contingent.

Tenders will be also received by the Secretary of the C. A. A. A. up to Thursday at 6 p. m. for the catering privilege at the Labor Day Bicycle meet.

SEASIDE HOTEL.—A beautiful place to enjoy an outing or holiday is the Seaside Hotel, Rustico Beach. Shady groves, walks and avenues, good tables, and the manager, Mrs. Newson, will be glad to welcome you at all times. The drive from the city is over a good road, through a beautiful part of the country.

GOLD IN NOVA SCOTIA.—A new find of gold has been made at New Germany, near Tute Falls. Some gentlemen from Windsor are working it. They have found forty leads ranging from two to eight inches wide. A crusher and other mining apparatus arrived at New Germany station on Saturday for the mine.—Gold Hunter.

THAT NEW HOTEL.—We have been informed that a wealthy gentleman, now resident on the Island, has offered to subscribe $5,000 towards a new hotel for Charlottetown, and a citizen of Summerside has offered double that amount for the same purpose. It is now time for some of the city's own capitalists to consider about the matter.

MOONLIGHT EXCURSION.—The I. O. G. held a moonlight excursion last night on board the steamer Jacques Cartier. There was not much moonlight but the boat was crowded, numbers being left behind on the wharf. The 82nd battallion band was in attendance. The boot left at 8 p. m., but had to return at 10 o'clock when it began to rain.

GOLD IN NOVA SCOTIA-Yesterday another piece of gold-bearing quartz, which will will yield fully 200 ounces of gold, was taken from the Tonquoy mines. This quartz is much richer than that secured on Thursday. Within a week, from $8,000 to $10,000 worth of the precious metal has been taken out of this now famous property, which stands at the head of all Nova Scotia gold mines yet discovered.—Truro News

TERRORS OF THE KLONDYKE.

Plenty of Gold, But it is Not Easy to Get.

The wonder of the Klondyke ever grows, Here is the record of John Douglas, a county Scotchman, whose home is close to Ottawa. Ten months' hard work; ninety-two thousand dollars; fourteen claims, worth —but who shall say how much they are worth—perhaps millions.

John Douglas is suffering from a broken jaw. That is why he came back to civilization. He passed through the city yesterday evening, and stopped for a few hours at the Broadway Hotel.

Of cource, John Douglas does not carry gold nuggets about his person. He is too Scotch for that. A draft is good enough for him. And he uses the draft cautiously too. Nor does he volunteer any information. He has to be drawn out. Then, indeed, the talk of John Douglas is like unto a fairy tale.

What do you think of five hundred dollars worth of gold to the pan'ul? Or what would you say to five dollars a pound for flour?

The half has not been told. John Douglas saw barrels literally filled with gold. You have only to stoop to pick it up. He saw men working round him whose bodies were bulging with gold nuggets. Can you believe it? John Douglas says it is all true. But then he would have liked a little more sun, and a little less hardship, and a little more certainty touching food.

Nevertheless, when that troublesome jaw is mended—it was a blast of powder that did it—he is going to return. That is to say, in February. He laughs at the men who take a year's provisions with them. Says that you can't get it hauled for love or money; that you will have to sit down and eat it. About getting back to civilization—do you know that he had to tramp over a thousand miles before he touched the fringe of order and comfort? The spring is the time to go out, for then you will reach the Klondike about May, which is the best time for work.

John Douglas would recommend all men who are thinking of going out to be sure that they are fitted for roughing it; they should be accustomed to hardship, and have no fear of semi-starvation.

He has known, in an emergency, men to get fifty dollars a day for ordinary labor. Of course, you could live a week in the east on the money it takes you to buy a single meal. But then it's gold, gold, gold, all over the country for thousands of miles.

STRAWBERRY CULTURE.

A Capital Pamphlet Recently Prepared by Prof. John Craig.

A pamphlet on strawberries recently issued by the Central Experimental Farms contains very much valuable advice to growers and connoisseurs of this delicious fruit. The pamphlet was prepared by Mr. John Craig, the Farm horticulturist and records the results of experiments conducted by him during the past few years. Mr. Craig deals with the new varieties, the qualities of good berries, and the culture of the berries. During the past ten years the area of strawberry cultivation has very greatly increased. Many places at one time considered unsuitable have proved to be good centres for berry cultivation. This has been particularly noticeable in the Ottawa district. The centres in Ontario for the fruit are Picton, in Prince Edward County, along the St. Lawrence river, and the eastern shores of Lake Ontario.

Mr. Craig has over two hundred varieties under his control at the Farm and his advice as to treatment applies to all seasons of the year. The pamphlet contains a number of illustrations showing the proper ways of planting and also the effects of blight and rust. Remedies are also given so that to professional or amateur the pamphlet will be found to be very valuable.
