Dated this 29th day of April 1899. JAMES W. ADDELL, Supt & Treas

Of Special Interest to our Farmers

The Beef Cattle Industry.

The acknowledged scarcity of well-bred and well-formed beef cattle in the country at the present time doubtless accounts in large measure for the improved prices being paid by dealers and shippers for the class of cattle suitable for the export trade. This fact also accounts in a great measure for the active demand for pure-bred bulls of the beef breeds, and the higher prices which are being obtained for such animals. It is gratifying to know that the farmers of Canada are waking up to a realization of the situation and of the needs of the times, and are increasing numbers acting on their convictions and putting themselves in line with the requirements of our markets, as they apply not to beef cattle, but also to dairy products, pork and poultry. There is, however, yet much room for improvement and expansion in all these lines, and we need have no fear of overstocking the market, if we are only careful to produce the best quality. The live stock market reports furnish interesting reading for farmers and feeders, and the startling differences between the prices of well-bred cattle for beef and those paid for ill-bred animals should lead all who read to cherish the ambition to improve their stock, and thus to share in the best prices going. It is not all uncommon to note a difference of 75 cents to \$1 per 100 lbs. between the prices paid for a bunch of ordinary ill-bred butchers' cattle averaging 1,000 lbs., and that of a well-bred and well-finished lot of export cattle averaging 1,350 lbs., and a little figuring will serve to show that, rating the former at say \$4.25 and the latter at \$5 per cwt., the difference in the value is just \$25 per head; \$250 on ten head of cattle, or \$500 on a carload of twenty head. And this may fairly be reckoned as the profit on one class over the other, as the scrub cattle have cost nearly if not quite as much to raise and fatten as have the well-bred ones, to say nothing of the pleasure and satisfaction which comes to all concerned in handling the better class. It is our entire confidence in the soundness of the doctrine that well-bred cattle are infinitely the most profitable to raise and to feed that prompts us to so persistently preach the gospel of good blood to our farmer readers throughout our vast constituency, feeling assured, as we do, that the general adoption and practice of these precepts would in a very short time add many millions of dollars to the value of our farm stock, and to the wealth of our farmers individually.—Farmer's Advocate.

Mr Dillon on the Cheese Trade.

The following is from the Co-operative Farmer's report of the annual

SICK HEADACHE

The Truly Magical Efforts of DIAMOND DYES Astonish and Delight all Women.

Diamond Dyes are home favorites in every part of the civilized world for coloring silks, all wool goods and cotton and mixed fabrics. Diamond Dyes have long ago established a perfect record for sure and faithful work. Every color of Diamond Dyes produces a shade that is marked as full, clear and rich, equaling the colors produced by the best European professional dyers. Ladies will do well to bear in mind that there are special Diamond Dyes prepared

for dyeing silk and all wool materials, and specially prepared colors are made for the dyeing of cotton and mixed goods. Carefully shun all dyes that pretend to color all-wool, silk and cotton and union goods with the same dye; such dyes are always failures. Our direction Book and Card of 49 Colors should be in the hands of every woman who desires success in the work of home dyeing. Sent free to any address by Wells and Richardson Co., Montreal, P.Q.
