Sackville West's Explanation.

THE EX-MINISTER'S LETTER TELLING HOW HE WAS DISMISSED.

The correspondence between the American and British Governments in reference to the Sackville incident, is being given to the public in daily instalments. In one communication to Lord Salisbury, Lord Sackville claims that on October 26 he had an interview with Mr. Bayard about the Murchison letter, in which he received the impression that his explanation was satisfactory. He received no further communication until his passports were sent him on the 30th. "I was," he continues, "all along ignorant of the precise grounds on which my removal was sought. But party exigencies over-ruled international comity. Telegrams were being received to the effect that the Irish vote in New York was slipping away from the Democratic ticket, and that immediate action was necessary on the question of my dismissal. In order to conciliate this section, involving as it did a want of courtesy which, I venture to say, is unprecedented in history, diplomatic intercourse was broken off on the 30th, without an intimation to me from Mr Bayard that the situation was in any way changed since I saw him on the 26th, when he accepted my explanation, and said he bore me no ill-will. The question at issue never assumed an international character, as far as I was aware, until the moment was decided to send me my passports, when all adjustment was rendered impossible, and an incident which concerned me personally was at once made the cause of serious complications with Her Majesty's Government."

Mountains of Gold.

THE WONDERFUL GOLD AND SILVER MINES AWAITING DEVELOPMENT IN BRITISH COLUMBIA.

T. W. H. writes the Winnipeg *Free Press* as follows:—I herewith beg to furnish you with a few remarks on British Columbia and its mining resources, based on travels in that section the past two years. First, as confirmatory of late reports of the Toad Mountain mines, I will say that undoubtedly this mining camp is the most important of any in British Columbia, as the mine is one of the richest in America, both in quantity and quality of its copper and siver-bearing ores, which are confined in slate walls, which stand at an angle of about 60, and are will defined in every detail. This vein is from eight to forty feet wide, and the average yield of silver is from $100 to $3.000 to the ton of ore. The vein can be traced for over three miles, and all the quartz contain similar quality of ore. There is plenty of water and timber near at hand, so that taking everything into consideration this is one of the greatest fields of the time, and affords great inducements for investment of capital. This camp is well situated for transporting ores and getting in supplies, as the distance to steamboating is ohly six miles by a good trail which has been cut by the mine owners who have made several shipments of ore to the Anaconda Smelting Works in Montana. One shipment by the Hall Brothers of twenty-two and a half tons, netted a profit of $7,000.

There are several other mines in this camp that will pay handsomely to work at present, and when the proposed smelting works are established in Revelstoke to reduce the ores to the surrounding country, British Columbia will be the "Miners' Paradise," as not only the Kootenay district, but the whole of British Columbia, will be a network of mining camps.

Relics of the Jeannette.

Chief Engineer Melville, of the United States navy, is very much interested in a letter which he has received from C. Mitchell Grant, of San Francisco, secretary of the Geographical Society of the Pacific coast. He writes to Mr. Melville that his society has received a letter from President Johnsty of the Royal Geographical Commission of Greenland, conveying information received by that society from Colonial Governor Litzer, of Julianshaab, which is in the southern portion of Greenland. This information is that the latter has in his possession more than a dozen different articles which appear to be the relics of the Jeannette and which have floated in to the shores of that region on ice floes. The fact that these ice floes have come to the western coast of Greenland indicates a very remarkable movement of the polar currents, provided the relics are genuine, and, therefore, it becomes of interest from a geographical point of view, as well as a personal one to Melville, to discover whether such is the case. If the relics are genuine, they have floated clear across the Polar Sea down the east coast of Greenland, and then around toward Baffin's Bay, and this would prove that there was an open current through the whole of this vast expanse. The letter gives a list of the articles, some of which seem to Mr. Melville to bear strong evidences of genuineness, and others, if correctly described, cannot be so. One of the things mentioned in the list of articles is a tent, and Mr. Melville states that there were no tents whatever among their effects. One of the names given as being on one of the articles is that of F. C. Lindo. There was no such person in the party. Mr. Melville will reply to the San Francisco letter at once.

Piles! Piles! Itching Piles!

SYMPTOMS.—Moisture; intense itching and stinging; moist at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulcerations, and in most cases remove the tumors. All druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia. oct12 6m dw

EPPS'S COCOA

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctor's bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*

The treatment of many thousands of cases of those chronic weaknesses and distressing ailments peculiar to females, at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast experience in nicely adapting and thoroughly testing remedies for the cure of woman's peculiar maladies.

Dr. Pierce's Favorite Prescription is the outgrowth, or result, of this great and valuable experience. Thousands of testimonials, received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had baffled their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women. It is not recommended as a "cure-all," but as a most perfect Specific for woman's peculiar ailments.

As a powerful, invigorating tonic, it imparts strength to the whole system, and to the womb and its appendages in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine, "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, exhaustion, prostration, hysteria, spasms and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the womb. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Favorite Prescription is a legitimate medicine, carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. It is purely vegetable in its composition and perfectly harmless in its effects in any condition of the system. For morning sickness, or nausea, from whatever cause arising, weak stomach, indigestion, dyspepsia and kindred symptoms, its use, in small doses, will prove very beneficial.

"Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhea, excessive flowing, painful menstruation, unnatural suppressions, prolapsus, or falling of the womb, weak back, "female weakness," anteversion, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness in ovaries, accompanied with "internal heat."

As a regulator and promoter of functional action, at that critical period of change from girlhood to womanhood, "Favorite Prescription" is a perfectly safe remedial agent, and can produce only good results. It is equally efficacious and valuable in its effects when taken for those disorders and derangements incident to that later and most critical period, known as "The Change of Life."

"Favorite Prescription," when taken in connection with the use of Dr. Pierce's Golden Medical Discovery, and small laxative doses of Dr. Pierce's Purgative Pellets (Little Liver Pills), cures Liver, Kidney and Bladder diseases. Their combined use also removes blood taints, and abolishes cancerous and scrofulous humors from the system.

"Favorite Prescription" is the only medicine for women, sold by druggists, **under a positive guarantee,** from the manufacturers, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on the bottle-wrapper, and faithfully carried out for many years.

Large bottles (100 doses) **$1.00, or six bottles for $5.00.**
