

Baby Literature.

We once heard of a rich man who was injured by being run over. 'It isn't the accident,' said he, 'that I mind; that isn't the thing; but the idea of being run over by an old swill cart, that's what the matter.'

A grim old judge, after hearing a flowing discourse from a pretentious young barrister, advised him to pluck out the feathers from the wings of his imagination and stick them in the tail of his judgment.

A Quaker said recently in reference to the Quaker formula of marriage, 'It is true I did not promise to obey when I was married; but I might as well have done so, for I had to do it.'

Harry M'Arthy used to tell of an Irishman who was seen at the trenches of Yorktown holding his hand above the earth-work. His captain asked, 'What are you doing that for, Pat?' He replied, 'With a grin and a working of his fingers, 'I am feelin' for a furlough, sure!'

The latest story in reference to Regeneration was given not long since at a public dinner in Edinburgh, by Professor Blackie:

A boy at a Presbytery examination was asked 'What is the meaning of regeneration?' 'O to be born again,' he replied. 'Quite right, Tommy; you're a very good boy. Would you not like to be born again?' Tommy gave no reply; but on being pressed for an answer, at last said, 'No.' 'Why, Tommy?' Tommy replied, 'for fear I might be born a lassie.'

The following is said to have been told by a prominent Southern orator for the benefit of Mr. B. H. H., of Georgia, during a political canvass. Said the speaker, 'The ambition and the uniform bad luck of Mr. H.—remind me of a little incident. A worthy but poor farmer paid a visit to a sister of more means, and somewhat astonished her by his breakfast appetite. When some twenty of the inevitable Georgia biscuit had disappeared without satisfying him, she gently said, 'You seem fond of wheat biscuit, George.' 'Yes,' said he, reaching for another, 'I likes um as well as any body you ever saw, and gets um a seldom!'

An apothecary lately sent a bill to a lady, which ran thus:—To curing your husband till he died.

A citizen of Essex county, Massachusetts, who evidently reveres the institutions of that State, writes that a few years ago, when Justices of the Peace in Massachusetts were made 'sort of spontaneous,' it was remarked to him by a friend that 'Governor Boutwell came the nearest to the Great Creator of any man living.' Asking for an explanation, he said, 'God made the world out of nothing; and Governor Boutwell made a Justice of the Peace out of the nearest to nothing possible.'

A NEW WRINKLE IN HORSE TRADING.—The Providence Bulletin says that, recently, a business man who could talk horse very learnedly and who thought he was pretty well informed on the subject of horse-flesh, swapped a small white for a fine cream-colored horse, by paying such boot as he thought gave him 'a real bargain.' Shortly afterward he met a man with a beautiful, glossy, coal-black horse, who was willing to swap for the cream of any amount of boot named. The business man accepted the offer very readily, paid the required boot and took possession of the glossy coal-black. Very soon, however, the coal-black began to grow rusty; and in spite of great care currying and washing, the rusty tint increased in rustiness, when, upon making 'a scientific examination,' the glossy coal-black was found to have been simply another manifestation of the remarkable progress the country is making in the fine art of hair-dying, and especially of horse-hair dying. The business man's new coal-black horse turned out to be his original white one, which he had swapped for the cream color.

Agriculture.

KEEPING FOWLS IN ORCHARDS.

The public has yet to learn the full advantages of keeping poultry. Few seem to appreciate the service they may do among the trees in an orchard of a quarter or half an acre, where they may be kept, by picket fence, four or five feet high, putting in say one hundred and twenty-five fowls, and observe the result. He will avoid the annoyance in the garden of which so many complain, while they will work among the trees, doing just what is needed, keeping the ground well cultivated, and destroying everything that would injure the fruit trees in the shape of bugs, worms, or other insects, and lay a large number of eggs, which are a cash article, to say nothing of the chickens, which pay well for the raising at the present time. I have tried it, and know it is so. I have about one hundred fowls, which have worked admirably among my trees, keeping off the insects, and promoting the growth of the orchard. I am satisfied that we have yet to learn the full benefits which may be derived from the proper management of fowls, and it is quite possible that the method I have suggested may offer the best way of getting our apple orchards into bearing condition again.

EFFICACY OF ONIONS.—A writer says: 'We are troubled often with severe coughs, the result of colds of long standing, which may turn to consumption or premature death. Hard coughs cause sleepless nights by constant irritation of the throat, and a strong effort to throw off offensive matter from the lungs. The remedy proposed has often been tried, and is simply to take into the stomach before retiring for the night a

piece of raw onion after chewing. This esculent in an uncooked state is very heating, and collects the water from the lungs and throat, causing immediate relief to the patients.'

MECHANICAL USE OF CASTOR OIL.—We find in one of our exchanges the following remarks relative to the use of castor oil in the trades, more particularly its application to leather: It is much better to soften and redeem old leather than any oil known. When boots and shoes are greased with it, the oil will not at all interfere with polishing afterward, as is the case with lard, olive, or any other oil. In Harrisburg, Pa., the old leather hose of some of the fire companies was greased with it, and found to become almost as soft and flexible as new.—Leather belts for transmitting motion in machinery will usually last three to five years, according to the wear and tear they are exposed to; when greased with castor oil it will prevent slipping, so that a belt three inches wide, impregnated with it, will be equal to a belt four and a half inches without castor oil. It is necessary, however, to wait twenty-four hours, till the oil has disappeared from the surface and penetrated the leather, otherwise the freshly-greased surface will cause slipping. The rats and other vermin detest anything impregnated with castor oil, and will not touch it—another advantage.

REILLY'S PRINCE GEORGE TOBACCO FACTORY

Removed to Water Street, To the Store lately occupied by Mr. GEORGE CRABB, Harness Maker, in the House of Mr. GEORGE O'NEILL, where Tobacco of all Kinds, Twist, Flat and Natural Leaf, will be kept constantly on hand, and sold at

Lower Prices than ever! People from the country will find it to their advantage to call before purchasing elsewhere. PATRICK REILLY, Proprietor. Summerside, July 23, '68.

Wool! Wool!

THE STANFIELD WOOLEN MILLS at TRYON, having been thoroughly reconstructed and enlarged by additional machinery and Steam Power, will continue to manufacture Cloth from custom wool as heretofore, and at the usual rates. Having doubled their facilities for manufacturing, and procured skillful operatives for every department, the Company feel confident of giving their customers greater satisfaction generally, by manufacturing a better quality of Cloth, and making quicker returns for wool left with them. In addition to the various kinds of CLOTH previously made, they are manufacturing SEVERAL NEW STYLES FOR MEN'S WEAR, and full width Blanketing. Wool, which must be clean washed, free of mats and coarse locks, and of good quality, may be left at Hon. H. J. Calbeck's, Charlottetown, or at the mill. STANFIELD WOOLEN CO. Tryon, May 14, 1868.

THE CHURCH UNION.

THIS Paper has been recently enlarged to mammoth proportions. It is the LARGEST RELIGIOUS PAPER IN THE WORLD. It is the leading organ of the Union Movement, and opposes ritualism, close communion, exclusiveness and church caste. It is the only paper that publishes HENRY WARD BEECHER'S Sermons, which it does every week, just as they are delivered,—without qualification or correction by him. It advocates universal suffrage; a union of christians at the polls; and the rights of labor. It has the best Agricultural Department of any paper in the world; publishes stories for the family, and for the destruction of social evils. Its editorial management is impersonal; its writers and editors are from every branch of the church, and from every grade of society. It has been aptly termed the freest organ of thought in the world.

Such a paper, offering premiums of Sewing Machines, Dictionaries, Appleton's Cyclopaedia, Pianos, Organs for Churches, etc., makes one of the best papers for canvassers in the world. Every congregation may obtain a Communion Service, an Organ, a Melodeon, a Bible, or a Life Insurance Policy for its Pastor, or almost any other needful thing, by a club of subscribers. Send for a copy, enclosing 10 cents, to HENRY E. CHILD, 41 Park Row, New York.

INK. INK. INK.

CARTER'S Combined Writing & Copying INK!

THIS COMBINATION INK has been awarded the highest premiums over all others in the United States, and pronounced by the most celebrated Chemists the best ink ever offered to the public. It is used by many of the largest commercial houses, Banks, Railroads, and other Corporations, and gives perfect satisfaction. The Advantages of this over other Inks, are: First.—It flows freely from the pen, and does not thicken by exposure to the air. Second.—It will give a perfect and instantaneous copy. Third.—It will not mould. Fourth.—Being equally as good for copy in as for Book-keeping, it entirely does away with the use of two kinds of ink. Fifth.—It is more permanent than common Inks. Sixth.—The color, when first written, is a beautiful dark green, but in a remarkably short time it changes to a brilliant jet black—not a brownish black. Seventh.—It is admirably adapted to the most delicate writing, and always 'makes its mark.' The Ink is warranted to flow as freely as any other writing fluid now in use; to give as perfect a copy as any copying ink; and not to mould. This Ink is for sale at HARVEY'S BOOKSTORE, Queen Street, Cl'town, Nov 4, '68.
