THE DAILY EXAMINER

SEPTEMBER 1, 1899.
BE READY.

THESE Liberal conventions and meetings indicate that the ministers are contemplating a general election. But of course the final decision will not be made until after Mr. Tarte comes home. In the meantime those who think that the promise-breaking government which has raised the public expenditure to \$60,000,000 a year should be voted down, will do well if they prepare for the fight,—which may be on before three months have elapsed.

ANOTHER EXCUSE.

ONE of Sir Richard Cartwright's excuses for the enormous expenditures of our Liberal Government was that Canada had developed more in the past three years than in the previous thirty. Another excuse was that the population of Canada had increased at least double or treble as fast as when the Liberals were in opposition. Upon this latter point the Montreal Gazette remarks as follows:

"Hon. William Paterson presides over the Customs Department, and issues the tables of trade and navigation. In Mr. Paterson's report to the Governor-General, dated 10th January, 1899, is the following calculation of the growth in the population of Canada since 1891, the year of the census:—

1891	4,843,256
1892	4,899,068
1893	4,961,528
1894	5,021,476
1895	5,083,434
1896	5,125,436
1897	5,185,990
1898	5,248,315

Mr. Paterson's figures, it will be noted, differ from Sir Richard Cartwright's in two respects. Sir Richard said there was little increase between 1891 and 1896; Mr. Paterson says there was over a quarter of a million, 282,000. Sir Richard said there was an increase of 300,000 or 400,000 between 1896 and the present time; Mr. Paterson says there was an increase between 1896 and 1898 of 122,000. Sir Richard Cartwright's estimate was made as a clutch at something that might serve as an excuse for the extravagance of the government of which he is a member; Mr. Paterson's was made as part of his annual report to Parliament, for the information of those who have occasion to study its tables. The sober calculation for which Mr. Paterson is responsible may be left to answer that for which Sir Richard Cartwright is responsible."

NOTES AND COMMENTS

—We are in receipt of the Canadian Home Journal for August. The Home Journal continues to be worthy of the patronage of the heads of all Canadian households. It is published in Toronto, and the subscription price is one dollar a year.

—A number of parents and many children have expressed a desire that the city schools shall not be opened until after the Labor Day celebration in Charlottetown,—that is to say on Thursday next, the 7th inst. We draw the attention of the School Board to this fact and have merely to add that the postponement will be popular, while the loss in an educational sense will be nil.

—The following were the expenditures on Consolidated Fund account during the last half dozen years of the Liberal Conservative regime, taken from the Public Accounts:

1891	\$ 36,343,567
1892	36,765,894
1893	36,814,052
1894	37,585,025
1895	38,132,005
1896	36,949,142

Total for six years \$222,599,685
Average per year 37,099,947

Compare these figures with those of the grants of our last Liberal session!

ST. DUNSTAN'S COLLEGE.

ST. DUNSTAN'S COLLEGE, within a mile of Charlottetown, was opened for the reception of students in January, 1855. During the forty-four years of its existence it has been ever faithful to the mission for which it was established, namely, to give to those of our young men who desire to do so an opportunity of completing their studies. To the good work done in St. Dunstan's during all these years its alumni both at home and abroad are ever ready and glad to testify. This institution has moreover merited the recognition and esteem of the great centres of education in the Dominion. In 1892 it became affiliated to Laval University. This event marked a new and more prosperous epoch in the history of the college. Since that time the number of students frequenting its halls has yearly increased. Last year a hundred and twenty young men enrolled their names on its register.

Being no longer able to accommodate the ever increasing number of students, the college authorities deemed it advisable to erect a new building, which will be ready for occupation at the beginning of the present scholastic year. This new wing is 98 by 40 feet, 4 stories high, with a large and well lighted basement. In the new building will be the library, reading rooms, infirmary, chapel, convocation hall, laboratory, etc.

The old college has been thoroughly remodelled and repaired. Both buildings will be heated with steam and fitted up with every other modern improvement, including bathrooms, improved system of sewerage, etc. In a word, nothing has been spared to make of St. Dunstan's College a first-class educational establishment where students, together with a sound moral and intellectual training, may find all the comforts that go to make college life pleasant and homelike. With its large skating rink and its first-class bicycle track encircling the spacious grounds, St. Dunstan's offers to students sources of recreation and amusement seldom found in institutions of this kind.

The prospects for the incoming year are very bright. Many applications have been received from abroad, particularly from the Province of Quebec and the New England States.

The staff of professors are an earnest and competent body of men, all experienced teachers, and with the increased facilities afforded by the new building, they will, no doubt, see that the high standard of education already acquired in old St. Dunstan's be maintained.

The board of governors deserve the highest praise for their spirit of enterprise, and their good work will no doubt be appreciated by our young men who intend taking a college course.

—In view of the supposed certainty of war with the Transvaal, some British investors are selling their holding of American stocks. They fear that the closing of the Rand mines will make money dear and that it may cost them too much to carry speculative investments.

Montreal Gazette: The Queensland Government is making arrangements for despatching its contingent of troops to the Transvaal. Backed by the moral support of the Canadian Parliament's resolution the colonial soldiers should be no mean help, in case the worst comes to the worst in the Boer dispute.

THE STEAMER BRENT.

Trial Trip Yesterday—She Will Cost About \$18,000.

The steamer Brent, built for the Marine Department by Mr. John White, O'Leary was given a trial trip yesterday afternoon. She left Pownal wharf about twenty minutes past three and returned to the Plant Line wharf about five o'clock. The steamer went outside the harbor about five miles and on return went up the harbor a short distance beyond the ferry wharf.

There were on board of the Brent during the trip Mr. Douglas Stevens, Government Inspector, Mr. Lord, Agent of the Department of Marine, Mr. W. C. Hobkirk, Fisheries Inspector, Captain Brown, of the Stanley, Mr. Poole, Locomotive Foreman of the Island Railway, Mr. D. A. McKinnon, M. L. A., Mr. Arthur Peters, M. L. A., Mr. T. A. McLean, Mr. H. B. Smith, Mr. J. T. Crockett and a goodly number of other citizens. The trip was a pleasant one, the Brent behaving splendidly. The maximum speed attained during the trip was ten knots—two more than the contractor was asked for.

The Brent has been well built by Mr. White, who comes of a family of ship-builders, and the machinery, which was made and supplied by Mr. Bruce Stewart, is of the best description. There is good accommodation for officers and crew. The deck houses are finished in ash, with skylights of oak. The work upon the deck houses was done by Mr. Henry Houghty, of Charlottetown.

It is thought that by the time the Brent is finished and fully equipped for work her cost will not be less than \$18,000.

A regrettable feature of the excursion was the accident which happened to Capt. Mutch, of the Marine office. While descending from the top of the cabin to the deck the captain lost his balance and fell heavily to the floor striking against the end of the hatchway and breaking his arm near the shoulder. He is under treatment at the Charlottetown Hospital.

PICKLING VINEGAR

The pickling season having come around again, we are prepared as usual to supply our customers with everything that they may require in this line. We have a stock of—
