

Ask your doctor how many preparations of cod-liver oil there are.

He will answer, "Hundreds of them." Ask him which is the best. He will reply, "Scott's Emulsion."

Then see that this is the one you obtain. It contains the purest cod-liver oil, free from unpleasant odor and taste. You also get the hypophosphites and glycerine. All three are blended into one grand healing and nourishing remedy.

50c. and \$1.00, all druggists. SCOTT & BOWNE, Chemists, Toronto.

**Of Special Interest to our Farmers**

**The Boy and the Farm.**

If you are a farmer and you want your son to be a farmer after you, teach him from his earliest boyhood to respect his father's calling. Instill into his mind the fact that the great men of all ages were sons of farmers. Teach him never to feel shame at the senseless and threadbare jokes of would be humorists over old Haysseed and his lumbering old market wagon and his quaintness of speech when he visits the city and stares around at the sights and does not make half such a fool of himself as the average city man when he comes to the country.

Do not fill his life entirely with work. Recreation is as necessary to happiness and to the healthful development of the spiritual and physical faculties as is pure air, and there is untold wisdom in the old saw, "All work and no play makes Jack a dull boy."

Encourage him when he tries to do, even if he fails. Failures which teach us how to avoid future disasters are successes. Make him feel that you rest upon his faithfulness and truth in what ever you intrust to him. Do not blame him when he is not at fault even if things do not turn out as you have expected. Never disparage his efforts. Continual disparagement breaks a boy's spirit, and there is nothing more inspiring, nothing more refreshing in the world than the broad, courageous, undismayed hopefulness of a manly boy.

Take him into your confidence early. Let him know what you are going to plant in the ten-acre field, and how you propose to make the upland fields pay.

Don't snub him. The man who snubs a boy is unworthy to be the father of a son. Let him have the money he earns. You would have to pay the hired man for taking care of the calves and colts; why not remunerate your boy?

Do not disgust him with farming in the beginning by telling him that he does not need anything but his board and clothing now, because he will have "it all" when you are gone. Give him something now. Five dollars when a boy is ten years old is more to him than five thousand will be when you are dead and gone and he has the farm.

Do not devote all the land to corn and potatoes and "things that pay." The garden and the orchard are important factors in the life on the farm and the flower bed ought to receive just as much attention as the onion bed where you expect to raise the strongly-flavored candidates for the first premium at your country fair next fall.

Do not starve your family for the sake of taking the best of everything to market. A broad and generous soul cannot develop in a starved body. Live in just as good a house as you can own, free of mortgage. Have a pleasant, sunny living-room with the books and papers and music. Encourage your boy to invite his friends there, and yourself greet them cordially when they come. The lack of social privileges at home is one fertile cause of the temptation exerted by city life on the country young man.

**Tuberculosis in Cattle.**

Dr. Adam's paper on bovine tuberculosis, is a notable contribution to a very important subject. In the Old Country this question is the despair of statesmen and agricultural experts, for the disease has attained such proportions that any proposal to stamp it out is impracticable; to destroy the cattle

affected would ruin the farmers, and cost the taxpayers an enormous sum in compensation. The utmost that can be done is to guard against the communication of the disease from animals to man by the consumption of infected meat or milk.

Canada is in a much more favorable position. It is difficult to state precisely the percentage of cattle affected, but it is obvious that it is exceedingly small. It would not be a very difficult or a very costly matter to go through the herds of the Dominion, and free them entirely from the disease. The farmers would naturally co-operate in an enterprise so much to their advantage, and the amount of compensation granted should be on a moderate scale. It seems a very sensible suggestion that operations should be begun in Prince Edward Island or Cape Breton. The islands afford limited areas, which could readily be covered by inspectors, and when immunity was once established, it would only be necessary to keep track of the importations. The work of eradication could then be gradually extended westward throughout the Dominion. There can be no question that if we stamped out the disease, the reputation not only of our cattle but of our agricultural products generally on the continent of Europe, would be greatly enhanced. The fact of the immunity of our herds from so dreadful a scourge to animals and man would be sure to attract a great deal of attention, and its value as an advertisement would be immense. Its practical importance would inevitably be recognized by European cattle breeders, who would naturally seek to replenish their stock from an untainted source, and the benefit to the community of having meat and milk which were above suspicion would be considerable.

—Montreal Gazette.

**WEAK AND... PUNY CHILDREN**  
Become Strong and Healthy by using Dr. A. W. Chase's Nerve Food.

Children are frequently left weak and sickly as an after result of measles, scarlet fever, etc., and in this state are easy prey to nervous disorders, rickets, spinal disease, or consumption, diseases which do not affect robust, healthy children.

The blood is weak and watery and the nerves improperly nourished. Feed the blood and nerves with Dr. A. W. Chase's Nerve Food, and the pale, pinched faces will soon become rosy and plump, and tiredness and weakness will give way to strength and animation.

Mr. E. W. Day, 62 Close Avenue, Toronto, writes: "My eldest daughter, aged eight, became very much run down. Her fretful, nervous, sleepless condition greatly alarmed her parents. She was taken from school, and in spite of the best nursing, she thin, weakened, bloodless face grew painfully worse. Fortunately we used Dr. Chase's Nerve Food. An improvement became apparent in a few days, it continued, and in a few weeks she returned to school built up anew, and greatly to our joy fully restored to health."

Dr. A. W. Chase's Nerve Food, 50c. a box, at all dealers, or Edmanson, Bates & Co., Toronto.

**PAID HIS CLAIM.**

Robert Bond Cured by Dodd's Kidney Pills After Being Given up by

Mt. Brydges, Sept 11.—Robert Bond, of this place, is famous as the man who was allowed Total Disability by the Provincial Provident, of St. Thomas, and who subsequently recovered owing to his use of Dodd's Kidney Pills. He suffered from Bright's Disease and was given up by the doctors. The Insurance Company paid him the full amount of his claim, \$600. Mr. Bond then learned of the only and infallible cure for Bright's Disease, Dodd's Kidney Pills, used them to the extent of twenty boxes and is well today.

A recent letter to an inquirer reads: Mt. Brydges, June 12th, 1899.

Dear Sir—In answer to yours of the 22nd ult., I would say that my cure by Dodd's Kidney Pills was entirely satisfactory and I recommend them most heartily.

Yours truly, ROBERT BOND.

**Weary of Experimenting**

With salves, suppositories and ointments and treading a surgical operation, scores and hundreds have turned to Dr. A. W. Chase's ointment and found it an absolute cure for piles. The first application brings relief from the terrible itching, and it is very seldom that more than one box is required to effect a permanent cure.

She—I will marry you on one condition you must give up your pipe. He—I will on better than that, I will buy a brand new one.

**Minard's Liniment for sale everywhere.**

Do not clip a horse and put an overcoat on yourself. Take your own medicine.

**Too hot To sleep?**

The oppressive heat of summer keeps many a one tossing all night on a sleepless couch, and so drowsy and listless in the day time that work is impossible.

This kind of thing will run down the strongest constitution. A teaspoonful of

**Abbey's Effervescent Salt**

in a tumbler of water, taken night and morning, will keep the blood cool, invigorate the system and bring restful sleep at night.

Drink it at any time, 'twill satisfy your thirst and refresh the system.

The Canadian Pharmaceutical Journal says:

"We have tried Abbey's Effervescent Salt, and find it an excellent compound. It was most favorably commented upon by the medical profession at the meeting in Montreal of the British Medical Association. The Company was not afraid of submitting it to the criticism of medical men. All were invited to sample and pass judgment on it. This was invariably favorable, some expressing the opinion that it was superior in points to any other on the market. A morning draught of this stimulating preparation will send a man to his daily occupation invigorated and ready for any task."
