

Local and Other Items.

LECTURE.—Don't fail to hear Rev. R. Brocken at the Brick Church, to-night.

NOTICE.—Mr. Hawley requests the indulgence of his patrons as he has taken a short vacation to recruit his health.

We are often deceived in the age of people having beautiful and luxuriant hair; not knowing that they use Hall's Hair Renewer to keep gray hairs away.

SCOTT ACT REPEAL.—The St. John Sun says: Petitions, asking for an election on the question of repealing the Scott Act in old Portland are to be circulated at once.

CRICKET.—A match will be played at the Park to-morrow afternoon, between teams drawn from the Charlottetown Lawn Tennis Club and the Park Cricket Club. Stumps pitched at 2.30 o'clock, sharp.

THE M. A. STARR.—The str. M. A. Starr arrived at this port at six o'clock last evening and left again at midnight. She had a general cargo and the following passengers on board: Mrs. Kennedy, Miss Kennedy, Wm. Kennedy.

FRESHING THE DRAINS.—Our Sanitary Officer has been doing good service in the freshing of the dirty covered drains of the city. It is better to let the overflow of water run through these drains than directly into the river.

A PERFECT complexion, free from pimple or blemish, is very rarely seen, because few people have perfectly pure blood. And yet all disgusting eruptions are easily removed by the use of Ayer's Sarsaparilla. Try it and surprise your friends with the result.

A LONG-LETT WANT.—An exchange says that an Illinois woman has invented a dish-washing machine. As it never insists upon having its Sunday out, with Thursday afternoon for shopping and cousinly visits, it is likely to have a general demand among house-keepers.

THE BOUNDARY QUESTION.—A Toronto despatch says that Hon. O. Mowatt has returned from England, and states in an interview that he succeeded in getting the imperial government and parliament to pass legislation necessary to fix beyond all question the northern boundary of Ontario according to the award of the arbitrators of 1878.

SOMETHING NEW IN SUICIDES.—Littleton, N. H. produces the newest style of suicide. On Saturday, George A. Parker, aged 74, was missed, and was found in the Connecticut River. He had loaded his clothes with rocks, waded into the river, stuck up a pole, and laid down by it, where he was found. Ill health was the cause.

QUEEN SQUARE.—An adjourned meeting of citizens to consider the proposition of presenting Mr. Arthur Newbery with a suitable testimonial, is to be held in the Legislative Library, on Monday afternoon, at 4 o'clock. The citizens who desire to express their appreciation of Mr. Newbery's exertions in their behalf will please make a note and attend without fail.

FILLED THEM WITH SHOT.—Two of Richard Brooks' children, while near Michael Higgins' premises at Windsor, Ont., on Sunday last, entered his garden and got some peaches. Higgins saw them, and going to his house grabbed his shotgun, which was heavily loaded, and fired at the children, striking both of them. Higgins was arrested, but subsequently released on \$1,000 bail. The doctor who attended the wounded children extracted 45 shot from one child and 19 from the other. They will both recover.

APOTHECARY ILL.—We are sorry to learn that the valuable standard bred stallion Apothecary, formerly owned by Mr. Geo. E. Hughes, of the Apothecaries Hall, this city, but now by Rev. Father DeFiance, of Kingston, is seriously ill. He was seized a short time ago with strangles, which changed into influenza and bronchitis. He was attended by Drs. McMillan and Leckie, but the disease was too far advanced for recovery. This will be a serious loss to Father DeFiance, who, we understand, paid the sum of \$1,000 for him.

HE WON'T DO IT AGAIN.—The New Glasgow Chronicle says: "The editor of the Prince Edward Island Agriculturist is crowding over the telegraphic despatch, which he carried home in his pocket, giving an account of the races lately held on Union Driving Park. The Eastern Chronicle gave an account of the races at the earliest possible moment. It repeated the Agriculturist's account of the stallion race, not because we thought it better than our own, but out of compliment to Mr. Brennan, who seemed a nice fellow, but we need not plead guilty again."

CATHEDRAL BURNED.—The Catholic Cathedral at Harbor Grace, Nfld., was destroyed by fire at 2 o'clock, on Monday morning last. Every effort was made to save the structure, but in vain. The loss is placed at \$150,000. There was no insurance. The Cathedral was one of the handsomest edifices on the continent, and was the pride of Newfoundlanders, and the delight of every visitor. To be discovered on fire at 2 o'clock in the morning, this warm weather, looks like the work of an incendiary. Bishop McDonald will have the heartfelt sympathy of the people of Canada in his great loss.

FOR BOSTON.—The str. Worcester, Capt. Nickerson, left here for Boston last evening at six o'clock. She carried the usual general cargo and the following passengers: Miss R. Rice, Mr. Powers, F. Powers, Miss Carew, Sarah Morrissey, G. Morrissey, Mary Callaghan, H. Woodridge, W. A. Hatty, Chas. Gordon, H. Hator, Mrs. Anderson, Isabel Matheson, Mrs. McLeod, Clara Coily, Miss M. S. Herbert, Leo Caddy, Mrs. Hunter, Miss F. Carey, A. Thomson, A. Anderson, K. McCormack, Mrs. Davett E. Dalton, Chas. Dalton, M. Dalton, Miss A. Sewell, M. A. Graham, Mrs. Senacabaugh, Mrs. McDonald, Mr. Newson, Mrs. C. Conway, Geo. S. Conway, K. McGuirk, Alice Burns, A. Matheson, S. A. Murchison, Miss McKean, Mrs. Gunn, Willie Gunn.—45

MORE BIG TREES.—A few days ago THE EXAMINER stated, on the authority of an exchange, that on the farm of an Mr. Harris at Wolfville, N. S., there was an old willow tree growing which measured twenty-one feet around. This paragraph met the eye of Mr. Francis McKenna, of Rosebank farm, upon whose property some fine old willows are growing. He thought he could beat the Nova Scotia tree by several feet, and measured five of the largest of his trees. The circumference of the largest he found to be 25 1/2 feet, and the second 22, the third 17, the fourth 16, and the fifth 15 feet. These trees were purchased by Mr. Stewart, who formerly owned the farm, and were planted about a century ago.

TELEGRAPHIC NEWS.

AT RIDEAU RANGE GOOD SHOOTING.

Islanders Doing Well.

OTTAWA, Sept. 5. The weather was rather too hot to-day for shooting, but the light was good and some fine scores were made. In the standing match—200 yards standing—the first prize went to Sergt. Beville, of Ottawa, who made 33 points; Sergt. Hall, of the 79th made second, and Bandsman Defreytas of the Halifax G. A., fourth. In the grand Snider aggregate for special prizes the scores made in the five principal matches were added together. Sergt. Hall, of the 79th, won first prize, a valuable clock. The prizes won up to-day ties for places in the grand aggregate. They will be fired off to-morrow, when the first sixty will compete for the Governor-General's prizes.

ANOTHER DESPATCH.

OTTAWA, Sept. 6. The Island marksmen had great success yesterday, several of the contingent winning good prizes. In the standing match Capt. J. A. Longworth is well up on the list. Lieut. D. L. Hooper stood second on the list in the Rideau match, winning \$25, with Sapper H. Anderson fourth, capturing \$15. Sergt. J. M. Davison, Captain Longworth, Captain Crockett, Lieut. Ewen Stewart and Surgeon Gillis also had good places in this match. In the Quimet match Lieut. Hooper won second money, and Sergt. Davison, Sapper Longworth, and Sapper Anderson were well up with the other prize-winners. The team also captured good prizes in the extra series. Lieut. Hooper, Lieut. E. Stewart, and Capt. J. A. Longworth secured good places among the sixty from whom the Wimbledon team will be drawn.

News of the Strike.

LONDON, Sept. 5. The officials of the dock companies have again called upon the men who are at work, and the shipowners have made another appeal to unload the ships themselves, but they met with a curt refusal. It is said that 2000 men are now at work on the wharves. Burns, in a speech to the dockmen to-day, predicting the success of the strike, announced that the demands now made were by no means final; and that when the dock companies were beaten it would not be a question of six pence an hour for an ordinary day's work and eight pence an hour for overtime, but of seven pence and nine pence respectively. The attempt to organize a general strike of builders, engineers and other mechanics in South London has collapsed. Five thousand steel workers in Wales threaten to strike. They demand an advance of 10 per cent. in their wages.

Another Customs Circular.

OTTAWA, Sept. 5. The Minister of Customs has issued a circular to collectors warning them that Old Tom Gin of unusual strength is being imported into Canada and that such liquor must pay duty at the rate of \$1.90 per gallon as non-enumerated spirits.

Against the Scheme.

LONDON, Sept. 5. Mr. Badenerk, D. G. C. of the Orangemen of England, has issued a manifesto inviting Orangemen throughout the kingdom to unite in opposition to Balfour's scheme for the establishment of a Catholic University in Ireland.

The Cronin Case.

CHICAGO, Sept. 5. No jurors were secured in the Cronin case to-day. The defence exhausted twenty of their peremptory challenges.

Short of Ammunition.

BERLIN, Sept. 5. A Zanzibar despatch to the Kreuz Zeitung says that Capt. Wisman's force is short of ammunition.

Weather Bulletin.

TORONTO, Sept. 6.—10 a. m. Moderate to fresh southerly winds; partly cloudy or cloudy; warm, with showers.

Personal.

Hon. Samuel Prowse was at the Hotel Davies yesterday. John A. Green, one of the best known writers in the State of New York, is dead. Mr. John A. McPhail is writing a series of letters to the New York Times. The last on "The tourists in Canada" is an interesting and valuable contribution. Prof. Johnson, of McGill College, being in France on a visit, has been authorized by the Minister of Agriculture to call on Dr. Pasteur with the view of making an examination into his methods in relation to inoculation of animals in cases of contagious diseases. Dr. Talmage, of Brooklyn, says: "Every newspaper reporter in New York is my personal friend. I have been betrayed by about every class of men in the world, but never by a newspaper man, and I believe there is a spirit of fairness abroad in the newspapers that is hardly to be found anywhere else." Wiggins, the Canadian weather prophet, has a clever wife. It is hinted that she writes his prophecies and he reads them out. A bust of Mrs. Wiggins was found one morning among the statues of celebrities in the Ottawa parliamentary library, and no one knows how it got there—except Wiggins. It stayed there, however, and is there now. Talking to a newspaper interviewer in Paris a few days ago, Edison, the inventor, was asked: "What is electricity after all?" And the practical scientist replied, "It is a mode of motion, a system of vibrations, a certain speed of vibration produces heat, a lower speed light, still lower something else." This answer from a man who has done more wonderful things with electricity than any other typical of the uncertainty of even the most practical workers in mysterious forces.

HOTEL ARRIVALS.
