New Minister For Park Royal

Rev. Burton Crowe of Glace Bay, Nova Scotia has accepted a call to become minister of the new Park Royal United Church outside Charlottetown. His duties will commence July first.

Rev. Mr. Crowe is not a stranger to the Island. He was minister of Bedeque United Church until five years ago and it was largely through his efforts that a United Church was built and a congregation established at Borden.

Besides being one of the most outstanding preachers in the Maritime Conference, Mr. Crowe is a writer of note and on several occasions his articles have appeared in the National church paper. As a hobby he enjoys amateur photography and has gained considerable prominence in this field.

A young man, Rev. Mr. Crowe is particularly active in the work of young people. His work in the pastoral field has gained the recognition of the church courts on more than one occasion.

Rev. Mr. Crowe is married with no family.

DON'T MISS Walter Shaw over C. F. C. Y. tonight 7:30.

IN HOSPITAL—An accidently backed car Saturday afternoon sent Joe Fields to the Charlottetown Hospital, where he was found to be suffering from a broken leg. Mr. Fields was a former employee of The Guardian and is now working with the Daily Gleaner in Fredericton. Reports stated last evening that Mr. Fields was resting comfortably.

COUNTY COURT—A local resident, charged with operating a vehicle on the highways that was not properly registered, was fined \$5 and costs when he appeared before Magistrate Gilbert E. Gaudet in County Court Monday morning. Two other cases, dealing with the theft of butter, lard and shortening from Riverside Hospital were adjourned until March 24.

Parade Of Spring Fashion Again Achieves A Triumph

Spring's ahead! Everyone fully realized this by the large attendance at the annual "Parade of Spring Fashions" presented Monday evening by the Junior Ladies Aid of the Prince Edward Island Hospital at the Queen Charlotte High School Auditorium under the distinguished patronage of His Honor, Lieutenant-Governor T. W. L. Frowse and Mrs. Frowse. Hon. Premier A. W. Matheson and Mrs. Matheson, His Worship Mayor Edwin C. Johnstone and Mrs. Johnstone.

Mrs. Ian Burnett, president of the Junior Ladies Aid cordially greeted the members of the audience and spoke of the greatly expanded services and building in connection with the hospital.

This year the theme at the show was "Portrait to Fashion," against a background similar to that of any semi-formal Canadian livingroom three full length picture frames were predominant.

Out of these frames stepped really beautiful and ultra-smart Canadian women. Yes, "Portrait to Fashion" started off with all the colors of a bright spring morning.

There were suits, coats and blouses, dresses, lingerie, sports clothes—and bathing suits. Also whether 'tis liked or not the highlight of any fashion show today is the chemise. This loose fitting fashion is definitely our forte for 1958. The chemise, Gloria Swanson told a reporter, is the first new thing in 10 years. "Something new" is the heart and soul of fashion—so the chemise (literal translation the shirt) has succeeded.

In the Sophisticated Silhouette (part 3) Mrs. Wellington McNeill with quiet assurance exemplified sheer elegance. In her brown magic crepe dress, large braided beige straw hat, and mink stole Mrs. McNeill was a "Portrait of Fashion" long to be remembered.

The Kindergarten set, Seniors, Miss Caryn Simmonds and Miss Cecyl Jenkins; Juniors, Misses Andrea Simpson and Miss Tommy Peake had their public simply captivated. Who could forget for a long time Andrea in ruffles and lace, Tommy in tweeds, Caryn in scarlet coat and hat, and Kent Jenkins an up and growing young man already with portraiture to Savile Row!

The musical background, with incidental music in keeping for the number is always a feature of the fashion show. Mr. Royston Muford, is the artist in that department.

"Spring radiance in the fashion of today for the tradition of tomorrow" was the introductory theme for the Bridal Enchantment. The Trinity Junior Boys' choir in surplice entered singing the lovely wedding hymn, "O Perfect Love, All Human Thought Transcending". These beautiful fresh young voices immediately completed the transition of mood to that of the solemnity and dignity of a church.

As the guests arrived one noticed a spring wedding outfit in navy with large white buttons and a Breton sailor hat. Another guest wore a print—bright beautiful flowers splashed on white.

The mother of the groom wore azure blue with flowered hat to match, shoulder mink cape and ice blue accessories. The mother of the bride wore a navy mink blue dress, green hat and a sapphire stole.

The bridesmaids wore waltz-length gowns in shrimp color nylon chiffon. The bride was Miss Madge Muford. Bristle and romance was here exemplified in this "Portrait of Fashion" glowing bride. The floorlength voluminous nylon chiffon was indeed regal and continues as a favorite.

"Portrait of Fashion" is a wonderful show. The clothes to one, who had seen "Parade of Spring Fashions" a number of times, seemed smarter and more beautiful than ever. The people who select these for customers are indeed clever.

Yea, spring arrived at the fashion show. It arrived with flowers on the hats, slighter shorter dresses, easier lines for your suit, and colors to dazzle the eye—and not forgetting the smart matrons, the darling children and the date-baiting Canadian misses!

All in all it was a grand show. By the way, have you ordered your chemise?

Problems In Education Are Discussed At Rotary Meeting

A review but highly interesting one of the educational situation throughout Canada, with special emphasis on conditions in this Province, was presented in a discussion before the Rotary Club at the weekly luncheon meeting held at the Charlottetown Hotel yesterday.

Rotarian K. A. Parker, Supt., of City Schools, who was a delegate to the recent Canadian Conference on Education at Ottawa, was chairman for the day and introduced the other delegates, each of whom voiced their impressions.

Miss Mabel Matheson, Principal of Prince Street School and President of the Teachers' Federation said she liked to think of the Conference as a "continuing project".

"Speakers emphasized that its educational structure will determine the future of this country. Indeed we were warned that on the quality of our education, depends not only our economic, social, moral, cultural and spiritual development, but our very preservation as a free nation," Miss Matheson said.

"Two facts came up again and again at the conference and stood out above all others—namely (1) Canada must have many more teachers of high quality, and (2) to attract and retain such teachers necessitates the establishment of salary levels that will enable teachers to secure financial rewards equal to those paid to people with similar qualifications in other professions.

"The conference was successful as a beginning," Miss Matheson said. "However, in the final analysis, the degree of success achieved will depend (1) on what each province does with the recommendations, and (2) on the influence we delegates can bring to bear on our own communities.

BIGGEST PROBLEM
"P. E. Island has many educational problems to face, but the most urgent one is the shortage of qualified teachers," Miss Matheson said and she pointed to the announcement in the Speech from the Throne that hereafter it will be necessary for students to complete Grade 12 before being accepted in our Normal School.

"Prestige must be earned, it cannot be legislated," Miss Matheson continued. "We have among our 1968 active members a considerable number of truly superior teachers—not only academically and professionally well trained—but men and women of fine intellect and sterling character. I believe only a deep sense of vocation and a strong loyalty to the children of this province have held them here this long.

"Our greatest problem is how to continue to hold these able and dedicated men and women, and how to add greater to their number. I am convinced that this can be done only by revolutionary changes in our present salary schedules—no \$100 here and there, but really drastic changes.

Touching on the teacher shortage Miss Matheson said no significant progress had been made. Of approximately 840 permit teachers, 109 are employed from 125 to 200 teachers each year. Only between 40 and 50 are trained in our Provincial Normal School each year.

Miss Matheson suggested that "a conference on education along lines somewhat similar to the National plan would afford an opportunity for all interested provincial organizations, trustees, supervisors, departmental officials, administrators and teachers, to discuss serious educational problems, to become thoroughly informed on existing conditions,

Dewar Not NO HANDOUT

Dr. Dewar said he objected to the use of the term, "handout" when reference was made to the Federal grant. "It is no handout. It is only a small share of what this province is entitled to," he said.

He said there was no reason why the November agreement should be taken as the final word from the Federal Government. He recalled that the Prime Minister had agreed to meet again with the Provinces and predicted that when a new conference is called the Island will be given additional consideration.

PER CAPITA GRANTS
Dr. Dewar said he was "thoroughly against" per capita grants but he noted that Mr. Pearson in his address in Charlottetown stated that he would bring the per capita grants up to the point where all provinces would be enjoying the same economic advantages as the richest province, which is Ontario.

To illustrate what he meant, Dr. Dewar showed that under the latest agreement with the Federal Government Ontario per capita basis received \$47 compared to Prince Edward Island's \$66.

Speaking of the brief submitted by the Province at the Federal-Provincial conference, Dr. Dewar noted that the Island's request for a basic guaranteed amount across the board and noted that they had gone a long way in getting what they asked for.

"A special grant was what we asked for and that is what we got. Even if we didn't get as much as we asked for, I think the Premier should have had the courtesy to include it in the speech from the Throne."

"It is poor policy to criticize that which we needed so badly," observed Dr. Dewar.

HEALTH
Commendation for the assistance given by the Provincial and Federal Government which made the erection of the community hospital in O'Leary possible was voiced by Dr. Dewar.

He said O'Leary has a modern 27 bed hospital and noted that before he left home yesterday he found there were 30 patients registered at the hospital. He reported that a successful financial year had been experienced in the hospital's first year of operation.

Asked by Dr. Bonnell what he thought of the Federal Government's new hospital grants, Dr. Dewar said they were a "very commendable thing".

Dr. Bonnell: "Without increasing the over all grant?"
Dr. Dewar: "The Government will get around to that at a later date."

HOSPITAL INSURANCE
The member from O'Leary said he was pleased to see that progress was being made on the national hospital insurance plan.

He said hospital insurance was a very necessary thing and went on to tell of a woman who had to be taken to the Massachusetts General Hospital and whose bill amounted to over \$3,000.

He said \$600 of this amount was for blood transfusions and noted that this taken place in Canada she would not have been required to pay a penny—thanks to the Red Cross Blood Donor service.

Greater efforts on behalf of

Cancer control was advocated by Dr. Dewar.

Hon. Mr. MacDonald: "Is there any need for expansion; have you ever heard tell of anyone being felled down?"
Dr. Dewar: "No but there are many bothersome rules and regulations to contend with."
Hon. Mr. MacDonald: "Then you would throw the program wide open to everyone."
Dr. Dewar: "Diagnostic care while it is most important is only a small part of the overall cancer program. There are long periods of treatment and convalescence."
Dr. Bonnell: "Would you have cancer treatment included in the Government program as you would have T.B. and mental care?"
Dr. Dewar: "I would think so."
Dr. Bonnell: "What co-operation do you think you would receive from the Medical Society in this?"
Dr. Dewar: "I believe the Medical Society would be happy to co-operate as they are now doing in the case of T.B., Polio, etc."

EDUCATION
The member from Second Prince commended the Government for increasing teachers' salaries but noted that they are "still woefully low". He felt the high school grades should be taken out of the one roomed school. "I am all for regional high schools," he said.

Dr. Dewar had some strong criticism of the Minister of Education for refusing to establish a Grade XII high school at O'Leary.

He said it was difficult to assess the number of students that would be available for attendance at the beginning of any school year but stated that the first thing was to make the facilities available and let the school develop over the years.

He recalled that Summerside during its first year of operation had only eight students and reminded the Minister that the attendance in his own home town of Montague was very small at the beginning of his high school. He asserted that nothing of this nature could be started "by throwing obstacles in the way".

Dr. Dewar expressed appreciation to the Minister of Highways for paving the road to Tyne Valley but on the whole, he felt Prince County was not getting its just share of road work. He intimated that the concentration of cabinet ministers in Kings County was resulting in a much higher percentage of paved and improved roads.

The O'Leary member had no sooner made mention of the \$200,000 grant for survey work on the causeway, than Fisheries Minister MacKinnon called it a

WEATHER
TORONTO (CP)—Temperatures issued by the weather office: Dawson 150, Vancouver 57, Saint John 27, Moncton 27, Halifax 21, Charlottetown 29, Sydney 29, Yarmouth 30, St. John's 28.

HALIFAX (CP)—The weather office says that except for a little cloud over Nova Scotia, sunny and mild weather can be expected over much of the forecast district today.

Forecast:
Northern Nova Scotia, Prince Edward Island: Cloudy with a few sunny intervals and mild northerly winds 15. Low-mid New Glasgow 25 and 38, Charlottetown 25 and 40.

High tide today at Charlottetown at 9:58 a.m. and 9:55 p.m. At Rustico at 5:52 a.m. and 5:48 p.m. Summerside tide eight minutes later than Charlottetown. Sun rises today at 6:21 a.m. and sets at 6:22 p.m.

Mr. MacKinnon said the Prime Minister had nothing but ridicule to say about the causeway. He laughed me down when I brought the matter before the House in 1947.

Dr. Dewar: "I agree that there has been too much stalling on the part of both Governments. He said the Dutch had built a causeway across the Zuider Zee made of clay, sand and brushwood."

MUNICIPAL GRANTS
Turning to municipal grants, Dr. Dewar felt the Island municipalities had a good case but noted that only eight towns were represented in the presentation. He said there were a number of industrious villages on the Island that should be given consideration also. "O'Leary is not an incorporated town."

He felt a step had been taken in the right direction when the Government last year agreed to back municipal bonds to the extent of 15 per cent of the assessed value of the municipality.

In conclusion Dr. Dewar said there was no reason for anyone to preach "gloom and doom," as quoted from two articles—his written by Robert H. Winters and which by Brooke Claxton in which a bright economic future was depicted for Canada.
