LATER FROM CALIFORNIA.

Revolution at Great Salt Lake!—Mormon Declaration of Independence!!

The steamship *Prometheus* arrived at New York on Saturday last, from San Juan, bringing California dates to February 2d. She brings $432,000 in gold and has 334 passengers.

A rumour had reached San Francisco, Feb. 1st., that a revolution had occurred among the Mormons who were arming and fortifying themselves, and had published a declaration of Independence, in which they had asserted their full determination to set up a Republic for themselves.

A gentleman just returned to Portland, Oregon, for Salt Lake, says, affairs there were of a threatening aspect. The people freely declare their hatred of the general Government, and their willingness to oppose it.

RESIGNATION OF MINISTERS.

It will be seen, by a reference to the proceedings in the House of Commons, last night, that the Ministry sustained a defeat in a division on their Militia Bill. Lord Palmerston, on the first introduction of the measure, intimated his intention of making a sweeping change in the working of the scheme. Instead of the force being local,—that is to say, confined to the district where it was raised, as the Government measure intended,—he wished to make it perambulatory, not confining it to England, but extending it to Scotland or Ireland, or indeed to any part of the three kingdoms that necessity might warrant. This proposition formed the substance of his amendment last night, and although stoutly resisted by the Government, Lord Palmerston carried his proposition by a majority of 136 to 125.

This unexpected defeat induced Sir Benjamin Hall to ask the Premier what course he intended to pursue. The answer of Lord John Russell was, that, having lost the confidence of the House, he felt it his duty to resign, and to-day, no doubt, in pursuance of this determination, he will place his resignation in the hands of Her Majesty.

It is needless to speculate here on the important events to which last night's division must, of necessity, give rise. But it is not a little singular, that the fall of the Russell Ministry is mainly, if not solely, attributable to the man whom Lord John Russell ejected so recently from his Cabinet. At the same time, it is clear that other causes must have been at work to produce so unexpected a result. The growing unpopularity of the Premier's new Reform Bill has shown, for several days past, that on that shoal the Ministry would inevitably have been shipwrecked ; but they have anticipated events by a resignation on an unimportant and not at all humiliating point.

Who will succeed them? is a question easily asked, but difficult, in the present position of parties, to answer. Of course, Lord Palmerston assuming the lead in the present Cabinet, *vice* Lord John Russell, is out of the question. The sarcastic allusion which the retiring Minister made last night to Lord Palmerston, amidst the cheers and laughter of the House, indicates pretty unmistakably his feelings on this point. The choice then lies between Lord Derby and Sir James Graham. If the rumored coalition between that nobleman and the member for Tiverton be correct, the opportunity now presents itself for making the experiment. But Lord John is "cunning of fence," and there is just a possibility that, calculating on the weakness of his antagonists, he is again playing the ministerial interregnum "dodge" which so successfully strengthened his position in the early part of last year. The few days of excitement and anxiety which must follow will test the nature of his tactics.

UNITED STATES.

Arrival of the Georgia, New York.—Feb, 19. The U.S. mail steamship Georgia arrived at this port this morning at 11 o'clock, from Chagres on the evening of the 7th, and Havana on the 14th.

The Georgia brings 86 passengers, having transported 160 to the steamer Philadelphia at Havana. The latter ship arrived at Havana on the 14th, and was to sail immediately on the arrival of the Ohio from New York.

The propeller Pioneer sailed from Chagres on the 6th for New York, with 40 passengers.

Sixteen hundred men are at work on the Panama Railroad, including 160 mechanics, who were taken out by the Georgia on her last trip. The road will be open as high up as Miller's station, by the return of the next steatmer to Chagres. This willcut off thirty miles of river navigation, and avoid the bar at the mouth of the Chagres river.

The Isthmus is still crowded with passengers, waiting to get passage to California. The Tennessee, Golden Gate, and Republic, would, it was supposed, be enabled to carry off all who had through-tickets.

The weather at Havana has been very cold for the last month, in consequence of which much sickness had been experienced.

Her Majesty's ships Cumberland and two British steamers of war, were to leave for Bermuda two or three days.

General Concha has resigned his office of Captain general of Cuba.

LATEST FROM EUROPE.

The U. S. Steamship *Atlantic*, with dates from Liverpool to the 11th ult., arrived at New York on the 26th.

The most flattering accounts have been received from the "Gold Diggins" in Australia, and large supplies were shortly expected to arrive in England from that quarter.

The Bank of England has reduced the rate of Gold to the standard.

Lord John Russell introduced the new Reform Bill, in the House of Commons, on 9th ult. The main points in this Bill are the reduction in the Borough Franchise from £10 to £5, and in the County, from £20 to £10. In Ireland, the County Franchise is to be reduced from £8 to £5.

The Lords Commissioners of Her Majesty's Treasury have authorised the admission of Colt's fire arms, intended for the instruction of workmen in England, and for sale to officers in Her Majesty's service.

It is stated that the Senate is asked to vote £240,000 per annum, as the Civil List for the President.

CAPE OF GOOD HOPE.

The Barque Ocean Wave arrived at Boston on the 25th inst., bringing dates from Cape Town to the 1st January. The latest accounts from the interior bring but little news—but it is discouraging. The British Forces at the Kei, about four thousand men, had suffered much. The enemy were acting with increased audacity near the border. The country was flooded with heavy rains, and much property was destroyed. The troops were without tents, waggons, or any shelter whatever.

The Steamer Vulcan had arrived from England with the 45th regiment, 600 strong.

Breadstuffs at the Cape reported, as having a downward tendency.

HASZARD'S GAZETTE.

TUESDAY, MARCH 9, 1852.

By the arrival of the Courier last night, we have an English and California Mail, adding to our stock of European news, received via New York.

We have a quantity of the Reports of the Debates of the House of Assembly and Council in type, but the arrival of the English Mail has crowded them out. For the same reason we have been obliged to omit several Communications.

SHEDIAC AND BEDEQUE PACKET.

To J. D. Haszard, Esq.

Sir;

I observe that in your paper, you do not publish all that is spoken by the Members in the House of Assembly. One evening I was in the House, and heard a debate on the Shediac and Bedeque Packet Grant. Mr. Yeo said a great deal on the question, which I considered very proper. He said the amount ought to be granted by the House, but the Government should advertise for tenders for running a Packet from Bedeque to Shediac. The Packet to be a vessel of not less than 60 tons old measurement; and, that in the advertisement should be stated what accommodation would be required; then every person would have a chance; Mr. Yeo's suggestions, however, were not acted upon, and the sum voted for the running of the Packet was £80. Mr. Pope said, his son had a vessel that was just suitable, and that she would answer the purpose. Mr. Yeo said, if that was the case the Bill was a one-sided one. Mr. Fraser then moved, that the sum be made £30, but that was not carried. Mr. Yeo still urged his motion, and Mr. Pope and Mr. Yeo had some warm words, Mr. Pope had the majority and carried £80; so Mr. Pope is a member of the Assembly, an Executive Councillor, and Packet Master.

I am, Sir,
A SUBSCRIBER.

Bedeque, March 7, 1852.

PUBLICATION OF LEGISLATIVE DEBATES.

We beg leave to inform our correspondent "A Subscriber," whose letter we have given above, that we make a point of publishing every Legislative Debate, just as it is given in to us, by the Reporters; but, owing to the division of "*copy*" which takes place amongst the different Printing Offices, mistakes and omissions sometimes unavoidably occur. The only way to prevent such errors, would be to give in all the Reports, in their regular order, to one Office, and to allow them to remain there, till published in the Paper of that Office. As it is, debates or portions of debates get astray, or are, perhaps, altogether lost; and no one can be fairly held responsible for their omission in the papers.

To the Editor of Haszard's Gazette.

Mr. Editor;

Being aware that a meeting of Anglican Churchmen was held in Charlottetown during last Summer to collect subscriptions in aid of the Nova Scotian Episcopal Endowment Fund, and not knowing the result, except that a Committee was formed to collect subscriptions for the same, I herewith through the medium of your paper, beg to know the proceedings of the said Committee.

I am yours, &c.,
A CHURCHMAN.
