MISCELLANEOUS.

WHAT SAND IS.—Sand is rock, and other hard substances, reduced into powder of various degrees of coarsness. And there was therefore, no sand in chaos. While the earth was still without form and void, the materials of which sand is composed had not asumed their present peculiar character, for sand is a highly-manufactured article, and requires time for its production. A bran-new planet can no more have sands (unless ready-made) spread over it, than a new park can be adorned with symmetrical avenues of old stagheaded oak trees. Allowing, then, for the small proportion of sand which the winds, the rains and the rivers have ground out for us, what an old established concern the ocean wavemill must be, to have pounded thus finely for us the immense quantity of sand which we have in the world !—*Dickens*.

THE nearest stars are from our earth more then 206,000 times the distance of our earth from the sun,—that is more then 206,000 multiplied by 95 millions. Such distances immensely transcend conception. The action of light is commonly used as an intermediate fact, to give help in those cases to imagination. Yet how can that help imagination, which imagination itself cannot approach? It is but a change from the inconceivable in one way, to the inconceivable in another; from the inconceivable in space to the inconceivable in time; from the inconceivable in magnitude to the inconceivable in motion. Alpha, in the constellation of Centaur, is the nearest star to the earth; and the light of that star takes three years to reach us. Light moves at the rate of 192,000 miles a second: there are 86,400 seconds in a day—there are 365 days in a year; and three times this period has the ray been moving since it flashed from its native star, until it pierced the retina of the human eye. Already our most vigorous minds at comprehending such facts are lost in the unfathomable; and, yet, we are but on the margin of the universe.

THE AMERICAN MERCHANT.—The American merchant is a type of the restless, adventurous, onward-going race of people. He sends his merchandise all over the earth; stocks every market; makes wants, that he may supply them; covers the New Zealander with Southern cotton woven in Northern looms; builds blocks of stores in the Sandwich Islands; swaps with the Fejee cannibals; sends the whaleships among the icebergs of the poles, or to wander in solitary seas, till the log-book tells the tedious sameness of years, and boys become men; gives the ice of a Northern winter to the Torrid Zone, piles up Fresh Pond on the banks of the Hoogly, gladdens the sunny savannahs of the dreamy South and makes life tolerable in the bungalow of the Indian jungle. The lakes of New England awake to life the rivers of the sultry East and the antipodes of the earth come in contact at this "meeting of the waters." The white canvass of the American ship glances in every nook of every ocean. Scarcely has the slightest intimation come of some obscure, unknown corner of a remote sea, when the captain is consulting his charts, in full career for the "terra incognita."—*Hunt's Merchant's Magazine*.

RAILROADS IN THE UNION.—The following statements we gather from the January copy of the American Railway Guide:

On the first of January 1853 (this day), there are in the United States, 13,227 miles of completed railroad, 12,928 miles of railroad in various stages of progress, and about 7,000 miles in the hands of the engineers, which will be built within the next three or four years—making a total of 33,155 miles of railroad, which will soon traverse the country, and which at an average cost of $30,000 (a well ascertained average) for each mile of road, including equipments, etc., will have consumed a capital amounting to $994,650,000.

13,227	miles completed,	$306,810,000
12,928	miles in progress,	387,840,000
7,000	miles under survey,	210,000,000
33,155	Total,	$9940,650,00

Or in round numbers, $1,000,000,000—one billion of dollars—a sum which, at 6 per cent., would yield $60,000,000 annually, or more than sufficient to cover all the expenses of the United States Government and of the Government of every State composing the United States!—if administered with republican economy.

The people of the United States smoke up in Spanish cigars, the whole export of wheat, and drink down, in French Cognac, the entire export of Iudian corn. For the rest of our breadstuffs, the flour sent abroad suffices for something like two thirds of the interest on the foreign debt. It requires all the hog-meat—$3,765,470—to support our watch fobs; and we annually guzzle more Champagne and Port, and such like mixtures of grape and alcohol, than all our beef and butter export will pay for. There is a "*model* Republic" for you.—*American paper*.

A mechanic in Russia is said to have succeeded in making a steam man. It is probably one of the most interesting inventions ever offered to the public. It is a large colossal statue, the feet of which are placed upon wheels on a railroad, as he goes thundering over the course, the smoke puffing out of his nostrils in a manner to give the appearance of Satan, as pictured out in Revelation.

England is too apt to regard Scotland and Ireland as mere petty provinces, and is a hundred times spoken and written, instead of "Great Britain." Nelson said "England expects every man to do his duty!" "D'ye hear that, Jock?" said a Scotch sailor' "Nelson has nae word for puir Scotland." "Hoot man," replied his comrade, "Nelson kent brawly, that Scotlan' 'll do her duty without ha'en to be telt that he expec's her!"

BELLS! BELLS! BELLS!

THE Subscribers manufacture and keep constantly on hand, all sizes of Church, Factory, Steamboat, Ferry, Locomotive, School House and Plantation Bells, with the *best* description of Haugings.

These Bells are made from the *best* stock, and the small sizes undergo the same process in manufacturing as Church Bells An experience of thirty years, with a great many *recent* improvements, and an entirely new method of casting, enables us to obtain the most melodious tone, combining also, in extraordinary vibration.

Nearly 9,000 Bells have been cast and sold from this Foundry, which is the best evidence of their superiority. We have fifteen Gold and Silver medals at our office, which were awarded for the "best Bells for sonorousness and purity of tone." We pay particular attention to the getting up Peals or Chimes, and can refer to those furnished by us. Our establishment is contiguous to the Erie and Champlain Canals, and Railroads running in every direction, which brings us within four hours of New York. Cash paid for old Copper. Old Clocks, Levels, Compasses, Transits, Theodolites, &c., for sale, of superior workmanship. All communications, either by mail or otherwise will have immediate attention.

Health for a Shilling!

HOLLOWAY'S PILLS.

EXTRAORDINARY CURE OF LOSS OF HEALTH, DISORDERED STOMACH, INDIGESTION AND DETERMINATION OF BLOOD TO THE HEAD.

Copy of a Letter from Mr. John Lloyd, of Erw wen, near Harlech, Merionethshire.

To Professor HOLLOWAY,

SIR,—I avail myself of the first opportunity of informing you, that, for a very long period, I was afflicted with a dangerous giddiness and frequent swimmings in the head, attended by loss of appetite, disordered stomach, and generally impaired health. Every means had failed to give me any permanent relief, and at length it became so alarming, that I was really afraid of going about without an attendant. In this melancholy condition, I waited personally upon Mr. Hughes, Chemist, Harlech, for the purpose of consulting him as to what I had better do; he kindly recommended your Pills, I tried them without delay, and after taking them for a short time I am happy to bear testimony to their wonderful efficacy. I am now restored to perfect health, and enabled to resume my usual duties. You are at liberty to publish this letter in any way you may think proper.

I am, Sir, your obedient Servant'

MIRACULOUS CURE OF DROPSY.

Extract of a Letter from Edward Rowley, Esq., of India Walk, Tobago, dated April 8th, 1852.

To Professor HOLLOWAY.

DEAR SIR—I deem it a duty I owe to you and the public at large to inform you of a most miraculous recovery from that dreadful disease, DROPSY, and which, under God, was effected by your invaluable Pills. I was tapped five times within eight months, and skilfully treated by two medical practitioners, but could not get cured, until I had recourse to your remedy, and notwithstanding all I had undergone, this miraculous medicine cured me in the course of six weeks. (Signed) EDWARD ROWLEY.

A DANGEROUS LIVER COMPLAINT AND SPASM IN THE STOMACH EFFECTUALLY CURED.

Copy of a Letter from Mr. Bostock, Druggist, of Ashton under Lyne, dated July 31, 1852.

To Professor HOLLOWAY,

DEAR SIR—I have much pleasure in handing to you a testimonial of the efficacy of your Medicines. A person in this neighbourhood, with whom I am well acquainted, was affected for a long time with violent spasmodic pains in the stomach and liver, arising from frequent colds, smells of paint, and the effects of a stooping position, which he was obliged to assume in his business. The spasms were of an alarming character, and frequently left him in a weak and debilitated condition. At length he heard of the salutary effects of your invaluable Pills, and was induced to give them a trial. The first dose gave him considerable relief, and by following them up in accordance with your directions, they have acted so wonderfully in cleansing the liver and stomach, and strengthening the digestive organs, that he has been restored to the enjoyment of good health.

I remain, dear Sir, yours faithfully,
(Signed) WILLIAM BOSTOCK.

INFALLIBLE CURE OF A STOMACH COMPLAINT, WITH INDIGESTION AND VIOLENT HEAD-ACHES.

Extract of a Letter from S, Gowen, Chemist, of Clifton, Near Bristol, dated July 14th, 1852.

To Professor HOLLOWAY,

DEAR SIR—I am requested by a Lady named Thomas, just arrived from the West Indies, to acquaint you, that, for a period of eight years herself and family suffered from continual bad health, arising from disorders of the Liver and Stomach, Indigestion, loss of Appetite, violent Head-aches, pains in the side weakness and general debility, for which she consulted the most eminent men in the colony, but without any beneficial result; at last, she had recourse to your invaluable Pills, which in a very short time effected so great a change for the better, that she continued them, and the whole family were restored to health and strength. Further she desires me to say, that she has witnessed their extraordinary virtues in those complaints incidental to children, particularly in cases of Measles and Scarlatina, having effected positive cures of these diseases with no other remedy.

(Signed) S. GOWEN.

These celebrated Pills are wonderfully efficacious in the following complaints.

Ague	Dropsy	Inflammation
Asthma	Dysentery	Jaundice
Bilious Complaints	Erysipelas	Liver Complaints
