PRINCE EDWARD ISLAND,

Information for Tourists and Other Time Tables, etc.

Prince Edward Island has many attractions for tourists, and it is expected that this season the influx of visitors will be very large.

HOW TO GET TO CHARLOTTETOWN

The steamer Halifax leaves Boston for Charlottetown every Saturday at noon and will be due at Charlottetown on Monday night. On the following Tuesday at one she will leave on return to Boston. Halifax and Port Hawkesbury are called at every trip. Passengers may take the steamer at any of the ports mentioned. The Halifax has been supplemented by the Grand Duchess.

The steamer City of Ghent plys between Halifax and Charlottetown each week, calling at several ports en route. She is due here every Thursday.

The steamers Coban, Bonavista, Campana, Tiber and Polino, of Montreal, also make Charlottetown a port of call.

Passengers for this Province coming by way of Picton are brought to Charlottetown by the steamer Princess. Those coming by way of Point Du Chene connect with the steamer Northumberland, and may come through to Charlottetown by the mail special which leaves Summerside each evening immediately after the steamer reaches that port.

Nickname Saved Him.
"His name is Percy Algernon," said the girl in the car to her chum. "Pretty, ain't it? But, then, it's kind o' soft like, too, don't you think?"
"Kind o'," said the other girl. "I like Bill, or Jim, or something like that myself. Never knew a Bill or Jim yet that wasn't reliable. I hope Percy Algernon'll prove to be nice, but I think his name's awfully against him, honest I do, Min."
Then the other girl looked thoughtful for a couple of blocks.
"Oh, but he told me," she said, suddenly, then, "that the men down at the store call him 'Spud.'"
"Then you needn't worry," was the consolatory reply. "He's all right," and thus it was settled that Percy Algernon would do.—Washington Post.

CHARLOTTETOWN
Business College
—AND—
Writing Academy
Will re-open for the Fall and Winter Term
ON AUGUST 29th.

"Let the Searchlight of Practical Illumination
the dark places of Theory"
A THOROUGHLY Progressive, Practical Institution, in which young men and women are not only taught Bookkeeping (in all its applications to Commerce) both by single and double entry, but are trained how to do business by actual business transactions. The students act as buyers, sellers, traders, bankers, book-keepers and accountants in actual business operations, and the currency issued by the College Bank, and the notes issued from the Emporium are used in bona-fide business transactions. Just the same as in mercantile and banking houses. Book-keeping in itself may be learned at home, but a knowledge of how to transact business cannot be thus acquired. That our course and system of training is eminently practical write for testimonials from business men and from students who are now holding lucrative and responsible positions.

SUBJECTS:
Book-keeping by single and double entry (theoretical and practical) Actual Business Practice, Business Penmanship, Business Correspondence, Commercial Arithmetic, Commercial Law, Railroad, Steamboat, Banking (actual practice in the College Bank), Typewriting, shorthand, and Navigation.

FACULTY:
L. B. Miller, Principal, Teacher of Book-keeping, Arithmetic, Business Practice, Business Correspondence, Typewriting and Navigation.
A. C. McWilliam, Vice Principal, Teacher of Railroad, Steamboat, Banking, Accounting and Actual Business Practice.
J. Harry Williams, teacher of Business Penmanship.
Wm. Moran [licensed] Teacher of Shorthand.
George S. Enman, Esq., (Law Firm McDonald & Inman) Lecturer on Commercial Law.
For circulars or full information write or apply to L. B. MILLER, Principal

All interested are cordially invited to call on the College and inspect our system of training and work in general.

Artificial Teeth on Metal Plates

A dentist who knows his business, and one that has any regard for his patients will always advise them to have a metal plate.
PROF. MELVILLE B. BUCKLEY,
Instructor Boston Dental College,
Boston Mass.

In view of the vast amount of injury done to the mouths of wearers of rubber or vulcanite plates, by the retention of undue heat, owing to the non conductivity of rubber, and as aluminum is now so cheaply produced, and making as it does a rigid, light, clean, unobjectionable plate there seems no reason why any person should wear a rubber or vulcanite plate. Not only this, but better results in fit and adhesion are obtained in difficult cases, than in the use of rubber.

L. P. E. & L. D. D. S.
Chicago Ill Dental School
The above quotations are from hundreds of eminent dentists whose close observation in many years experience in plate work has learned them the many advantages of metal over rubber.
Many persons who are compelled to wear artificial teeth on a plate find that the ordinary plate causes heating of the mouth, bad taste, shrinkage of the gums, etc., finally causing the plate to get loose, sometimes sore lips, sore mouths and sore throats, and caused directly from the wearing of an ordinary plate.

We recommend a metal plate either of Gold, Platinum, Aluminum.

It is a conductor of heat and cold, it is non-irritating, and is thinner, lighter, and stronger than any other plate.
We have testimonials from persons for whom we have made metal plates—not one would wear an ordinary plate again. You can have your impression taken, and a metal plate made same day, fully guaranteed because we make them ourselves, and know all about the material used. Call and see specimens of our work.
Every piece of work done by us must give entire satisfaction to the patient, else we will not allow it to leave our office.

See our artificial teeth without plates.
