WATCHES

THE watch trade has been rather fluctuating of late, first the price went up, after a long period of low prices, now the prices have dropped again, whether because of war or greater variety of production we cannot say, but the fact remains that you can buy from us a reliable timekeeper cheaper than ever before, in fact that there is no need to buy shoddy goods at all.

If you want a good and also the cheapest watch for the money, we recommend a good movement in a nickel case instead of a poor one in a fine looking colored case that will only wear a very short time.

Soliciting a share of you patronage, we remain, Yours respectfully,

EDICT AGAINST PIE.

Because it Cause Dyspepsia and Misery to Thousands.

BUT DODD'S DYSPEPSIA TABLETS DIGEST ALL FOODS—PIE INCLUDED—AND THUS PREVENT OR CURE DYSPEPSIA.— THEY NEVER FAIL.

"There'd be less Dyspepsia in Toronto, if people would eat less pie." A Toronto baker advertised this way in the papers last week, and he advised people to quit eating pie, and to eat his bread only.

People won't quit eating pie. They like pie. They will eat it. And they are right. They have discovered that they can eat pies of any kind, and every kind, without the slightest shadow of danger of Dyspepsia, if they simply take one or two of Dodd's Dyspepsia Tablets after each meal. Dodd's Dyspepsia Tablets digest the food—all kinds of food. There can then be no indigestion.

Dodd's Dyspepsia Tablets tone and strengthen the stomach. In this way they fit it to digest the food itself, without their aid.

Many medicines must be used continually—all the time. A few weeks' treatment with Dodd's Dyspepsia Tablets does away with all need to use them any longer.

The small brown tablets that go with every box of Dodd's Dyspepsia Tablets, regulate the bowels and carry off waste matter.

Dodd's Dyspepsia Tablets positively cure Indigestion, Dyspepsia, Biliousness, Headache, and all other diseases of stomach and digestive organs.

If you don't believe it, test them. They'll convince you by curing you.

Dodd's Dyspepsia Tablets are sold by all druggists at fifty cents a box, six boxes \$2.50, or sent, on receipt of price, by The Dodd's Medicine Co., Limited, Toronto.

To Cure a Cold in one Day. Take Laxative Bromo Quinine Tablets. All Druggists refund the money if it fails to cure. -5c

CROWN'S BLOCK, CHARLOTTETOWN.

A RAILROAD'S ROMANCE.

How the Lake Shore Was Built Up From an Unpromising Beginning.

The consolidation of the Lake Shore and Michigan Southern railroad with the New York Central will close the separate existence of one of the three most interesting roads in the country.

The first railroads in England and the United States were opened in the same year, 1825. It is creditable to the courage and enterprise of the west that the earliest links of the Lake Shore were projected in 1835, and that one of them, the Erie and Kalamazoo, was begun in that year and finished and operated in 1837.

The rails used were long joists of wood, with iron straps spiked to them. Once in awhile one of these straps would work loose at one end and thrust itself up through the floor of the car in an inquiring sort of way. These phenomena were known as "snake heads," also by other endearing names. Of course when a snake head came through the floor the train stopped, as the motive power was slight.

There is in the Lake Shore office in Cleveland a picture of the first train ever run over the Erie and Kalamazoo. It had a tiny locomotive without a cab, a combined baggage, freight and fuel car as big as a coal flat of today, and one passenger coach seating apparently about 20 people. This car had Gothic windows and doors like a church and a pitched roof of considerable height, sloping to front and back.

Stockholders in those days had the right to use the tracks with their wagons, getting wheels that would fit the rails, just as wagons now run upon street railway tracks. The wagons weren't in the way, for trains were slow and infrequent. Once Fred Avery made 33 miles in three hours on the Erie and Kalamazoo. Although this was in 1849, when the system was not exactly new, Superintendent Bradbury called Avery into his office and told him that if he were ever again guilty of such recklessness he would be discharged.

Of course a train crew was not very large in the early days in the west. The engineer collected the fares and the fireman handled the baggage and freight—all trains carrying both—loaded wood for the engineer and dipped water for the boiler from some convenient ditch with a pail.

The Michigan Southern was the farthest west of the little neighborhood lines forming the Lake Shore. For years it had its western terminus at New Buffalo, on Lake Michigan, no one having much faith in Chicago except its residents. Not until 1849 was the change to Chicago made.

In the course of time a dozen of the little roads were consolidated, though this was not until after the civil war, and thus became the Lake Shore system. It fell under Vanderbilt's control in 1873, and has practically been run in harmony with the Central ever since.—New York World.

Tame Fish.

It is not unusual for fish in captivity, when kindly treated, to become so tame that they will take food from the hand. At the aquarium in this city there are many such fish, and there are some that will even submit to being touched. For example, the big codfish in one of the double tanks on the ground floor tier on the salt water side of the aquarium will all take food from the hand, fish cut into little strips and held for them at the top of the water. They come up and take this without any undue hurry or skurry, and there is one among them that will for a moment permit its head to be scratched. In a tank further along on the same side, among the Bermuda fishes, the trigger fish will permit a friendly touch.—New York Sun.
