

# She makes offer for Canadian Oil

TORONTO (CP)—A \$14,000,000 bid is being made by the "only major international Shell group to be Canadian Oil Companies Ltd. within its field."

The offer to Canadian Oil for its assets and business is being made by Hepler Oil Co. Ltd., a wholly-owned subsidiary of Shell Oil Company of Canada Ltd.

Mr. Harold Bra, president of Canadian Oil Companies, said he received the offer Saturday and there had been no previous indication it was being made. He added that pending a meeting of the board of directors to consider the offer, there would be no further statement.

The purchase, if it goes through, would add to the \$30,000,000 the Shell group has invested in Canada in the last 10 years, mainly through Shell of Canada, not including \$30,000,000 now being spent on a new refinery at Oakville, Ont.

**TO LIST SHARES**

The announcement, made from the Toronto head office of Shell of Canada, said it is proposed to list Shell of Canada's shares on Canadian stock exchange.

Canadian Oil Companies, which markets under the brand name of White Rose, and one of whose advertising slogans is

# India tackles refugee problem

By RUKMINI DEVI  
Canadian Press Correspondent

BOMBAY (CP)—Official and private organizations in India are trying to help refugees from Communist-occupied Tibet adjust themselves to their new lives.

So far about 34,000 Tibetans have fled to India. The influx is continuing, though it now is only a trickle. While the massive, snow-bound Himalayas Mountains act as a natural prison walls, the Chinese have set up observation posts along the 2,500-mile-long border to prevent refugee flights.

The Indian government has set up a high-level organization to speed up the rehabilitation of Tibetans. It includes representatives of the Dalai Lama, the exiled spiritual and temporal ruler, and voluntary bodies. Resettling the mountain-loving, illiterate and deeply-religious Tibetans under conditions so vastly different from some knotty problems for the Indian authorities.

**MOVED TO FARMS**

After a month-long survey the Indian government has begun settling the refugees in agricultural colonies. More than 2,000 have been moved to Mysore state in South India. Mysore has a moderate climate.

# Arctic char industry booming for Eskimos

By STUART LAKE  
OTTAWA (CP)—Four years ago most male Eskimos in the Arctic were at fishing as "women's work."

Today hundreds of them are engaged in catching and shipping Arctic char—a pink-colored fish much like salmon—which has grown into a \$150,000-a-year industry, the biggest in the Arctic for Eskimos.

# BC bonds not sold?

VANCOUVER (CP)—The Province says that as far as the investment world is concerned, most of the \$25,000,000 worth of British Columbia Hydro and Power Authority bonds issued in April have not been sold.

Premier Bennett, who said in May that the issue had been over-subscribed, could not be reached for comment on the Province's story.

In the second in a series of articles on B.C. finances by reporter John de Wolf, the paper says a deal proposed by a group of Philippine financiers to buy the bonds was rejected by banks as being ridiculous.

The story says after talks with the American Finance Commission and British investment and financial people it still could not be determined where the bonds were sold. Canadian investment interests who conducted their own investigation got a similar negative result.

The bonds were put on sale by Bennett April 21 on behalf of the authority. They were government-guaranteed, 5 1/2 per cent, 30-year bonds dated May 1 and were to refund outstanding Hydro notes. Mr. Bennett said they were to be sold through investment houses, trust companies and banks.

Investment dealers reported the bonds were selling slowly. Premier Bennett's announcement in Queen's, B.C., April 30 and in Victoria May 2 that the issue had been over-subscribed. He would not say then nor has he said since who purchased the issue although investment houses here have reported they sold little more than about \$5,000,000

### BEAN CROCKS
