

## Vanier Will Meet Queen At Summerside, P.E.I.

### Deferred Action Seen On Co-op Stud Report

### Governor-General Has Term Extended

### Diabetics Increasing

TORONTO (CP) — Everybody nowadays is a potential diabetic and possibly one in 10 in the Western world has active symptoms of the disease which one in 100 is being treated, a British doctor told the International Diabetes Federation Tuesday.

Dr. W. J. H. Butterfield, professor of medicine at Guy's Hospital, London, called on the 3,000 delegates from 44 countries at the fifth IDF congress to seek out and treat undetected diabetics in time to stave off the complications which can destroy eyesight, disrupt blood circulation and cause kidney degeneration.

### Troop Movement Freedom Is Sought

NICOSIA (AP) — U. Thant, United Nations secretary-general, has been asked to take immediate action to give UN peace-keeping forces complete freedom of movement on Cyprus, a top-level UN source disclosed Tuesday.

The source said the request was made because UN patrols are being presented from observing the arms buildup on Cyprus by Greek-Cypriot forces.

### MV ICELAND II JOINS FISHING FLEET

Latest addition to the Souris fleet of fishing trawlers is the MV Iceland II, built by Bathurst Marine Industries in their plant at Chatham, N.B., with the finishing touches added at Georgetown. The new trawler is under command of Captain James Bjornsson, one of the better known Souris skippers.

### Attorney-General Bribed, Former Contractor Tells

By GERARD ALARIE, QUEBEC (CP) — A one-time contractor testified Tuesday he paid Attorney-General Rene Hamel \$5,000 to get a sub-contract two months after the Liberal government took office in 1960.

Amedee Bellemare, who said he had been a long-time political supporter of Mr. Hamel's, was the first witness as the Legislative Assembly's committee on privileges and elections opened hearings into a charge of influence-peddling against Mr. Hamel.

It was believed the first time since 1883 that the committee had been called.

It met as a result of accusations leveled by Yves Gahies (UN - Trois-Rivieres) who tabled sworn statements from Mr. Bellemare in the house June 30.

Questioned by Mr. Gahies, Mr. Bellemare said he paid \$1,500 to Mr. Hamel in August, 1960, to get a \$4,200 sub-contract to supply gravel for a road in the minister's riding of St. Maurice.

WENT BANKRUPT Mr. Bellemare said he went bankrupt in 1962 because had to pay high kickbacks to obtain sub-contracts on government jobs.

The witness said he met Mr. Hamel three times after the Liberals took office in June, 1960. The first was in Mr. Hamel's legislative office. At the time, Mr. Hamel held the portfolios of labor and municipal affairs.

A former candidate for leadership of the Quebec Liberal party, he was appointed attorney-general a year ago.

Mr. Bellemare said that during the first meeting they discussed Mr. Hamel's "debt" to him because he had supported the minister from the Second World War days when he was in the army.

### O'Leary Man Is Unchanged

HALIFAX (CP) — The condition of Charles Baglole, 17, of O'Leary, P.E.I., injured in a highway accident last week near Charlottetown, has remained unchanged, a hospital spokesman said here Tuesday night.

Baglole was transferred to hospital here Saturday from RCMP Station Summerside by an RCMP aircraft.

He had suffered head injuries in the accident.

The witness said he met Mr. Hamel three times after the Liberals took office in June, 1960. The first was in Mr. Hamel's legislative office. At the time, Mr. Hamel held the portfolios of labor and municipal affairs.

A former candidate for leadership of the Quebec Liberal party, he was appointed attorney-general a year ago.

Mr. Bellemare said that during the first meeting they discussed Mr. Hamel's "debt" to him because he had supported the minister from the Second World War days when he was in the army.

Mr. Maclean estimated in seven years or more there will be a large body of university graduates settling into the early years of their family life with an aggregate indebtedness of \$400,000,000 to \$600,000,000.

If the federal government then introduced a scholarship plan, the graduates would be angered that university students that day would go into debt to secure.

HAVE TO FORGIVE He is going to be fair in introducing a scholarship plan the federal government would then have to forgive all part of the outstanding debt of the graduates.

### Cubans, Police Clash In Washington Streets

By MORRIS W. ROSENBERG, WASHINGTON (AP) — Cuban exiles clashed with police in a wide melee outside the 20th International American conference convened Tuesday amid growing sentiment for total diplomatic and trade isolation of Fidel Castro's Cuba.

As the foreign ministers began their four-day meeting to consider sanctions against the Communist Caribbean nation, several hundred Cubans among some 5,000 who set out to stage a peaceful demonstration — fought and struggled with scores of police.

They threw stones, they jeered and cheered. They chanted "Cuba si, Russia no." They carried banners saying in both English and Spanish, "We save Cuba or we lose America."

For half an hour the exiles, gathered here from Miami, St. Paul, Baltimore and other U.S. East Coast cities as well as elsewhere, held a draft protest.

JEAN-CHARLES GANTIN (L) — federal government was acting Quebec South-denied the bill within its credit field in the interests of all Canadians.

### Student Loans Approved With Future Reservations

OTTAWA — Student loan legislation is fine for the present but there may come a time when the present effort will backfire, a Prince Edward Island spokesman told the House of Commons Tuesday.

J. Angus Maclean (PC - Queens) said while the university loan legislation will be welcomed in the Maritime provinces he could see it acting as a deterrent to the introduction of a university scholarship program by the federal government later.

Mr. Maclean estimated in seven years or more there will be a large body of university graduates settling into the early years of their family life with an aggregate indebtedness of \$400,000,000 to \$600,000,000.

If the federal government then introduced a scholarship plan, the graduates would be angered that university students that day would go into debt to secure.

### Gov't. Error Is Admitted

OTTAWA (CP) — A comprehensive system of medical and health care on a national basis appears to be several years away.

Health Minister Judy LaMarsh said at the end of a two-day federal-provincial health ministers conference Tuesday she hopes to have a draft program ready for preliminary talks with the provinces early next year.

At the request of the provinces, the draft would aim at stage-by-stage implementation of some of the recommendations of the Hall report on health services.

"We hope to be able by early 1965 to have a fairly good idea of how much of the plan we would be in a financial position to offer the provinces," Miss LaMarsh told a press conference.

She said the federal and provincial governments accept the health care program as a condition of federal insurance. But she made it clear that the federal government will be the resources available to the governments involved.

The provinces had suggested a plan to help finance a plan was mentioned. "There was a lunch and that was that," she said.

The conference had shown "we will have to move rather more slowly than some would wish."

Meanwhile, she said a technical committee will work on defining what kind of mental patient care would be covered in the current hospital insurance program.

Mr. Picketts had urged that mental and tubercular patient care be covered but "we gave them the time to see whether that now or in the immediate future."

OTTAWA (CP) — The ocean freighter Canuck Trader received a government contract for Arctic supply work, even though transport department officials said it was not registered in Canada and carried a foreign crew.

Transport Minister Picketts said Tuesday he was commenting in the Commons on the picket line established in Montreal by members of the Seafarers' International Union of Canada (IUC) in protest against the replacement of the vessel's Canadian crew by Chinese sailors from Hong Kong.

Picketts, replying to a question by a member of the opposition, said that in the case of the Canuck Trader, the vessel's jurisdiction has not been shown. He said the ship is "owned by Canadians and is complying with Canadian law. It tendered for the Arctic work was \$1,000 under the bid submitted by the Canadian-registered Eskimo, an ice-reinforced vessel manned by a Canadian crew."
