

Caring for the Hair.

A lively old lady who died far advanced in her eighties, and was proud in extreme old age of her beautiful dark hair, was accustomed, when a girl, to hang up her night-cap every morning filled with salt. This was shaken up into a japanned dressing box every night on retiring, but enough salt remained clinging to the cambric to secure, as she thought, the remarkable preservation of her hair. Dr. Holmes has sung or gossiped about the "widen- ing part," which is one of the tell-tale tracks of passing years; but until lately the prevailing fashions of dressing the hair did not make any parting to show. Those who wear the hair in true classic style, with the pure white line from brow to crown, may find some use in the following recommendation of the New York Evening Post for strengthening the hair and renewing thin spots: "To a quart of warm water allow one table-spoonful of salt, and just before retiring for the night wet the head thoroughly with this, not along the widening seam alone, but the entire head. Repeat this operation for one or two nights each week until good effects are apparent." It is likely that the vigorous rubbing which this treatment makes necessary afterward is of as much use to the hair as the saline treatment.

Household Hints.

How to tell good eggs.—A good egg will sink in water. A boiled egg which is done will dry quickly on the shell when taken from the kettle. After an egg has been laid a day or more the shell comes off easily when boiled. The boiled eggs which adhere to the shell are fresh laid. A fresh egg has a time-like surface to its shell. Stale eggs are glassy and smooth of shell. Eggs which have been packed in lime look stained, and show the action of the lime on the surface. Eggs packed in bran for a long time smell and taste musty. With the aid of the hands, a piece of paper rolled in funnel shape and held towards the light, the human eye can look through an egg, shell and all.

The Great French Remedy, Dr LeDuc's Periodical Pills.

For the cure of Leucorrhoea or White's Excessive or painful Menstruation, Green Sickness, Falling of the Womb, Catarrh of the Uterus or Vagina, Hysteria, pain in the Back, or Piles, or for the purpose of invigorating and giving tone to the Generative Organs, two pills should be taken twice daily, or in very enfeebled conditions, one pill three times a day. To effect cures in chronic cases it will be necessary to continue the use of the remedy for some months. A reasonable trial will create sufficient confidence in the remedy to insure its being taken until a permanent cure is effected.

Dr. Bennet, Halifax.

DEAR DOCTOR,—Just a few lines as promised by me. I am more than pleased with the "Liver Pad" I got from you when in Charlottetown, and can conscientiously say that it is the best thing I ever saw or heard of. It has done for me what all kinds of medicine and different physicians could not do for me—i. e., removed a very nasty body eruption, which had given me a great deal of annoyance for more than two years; and, more than that, I have not been troubled with a single headache since I have used it. Before wearing the Pad I was troubled with severe headaches continually, and that very objectionable feeling of sluggishness and dullness, has entirely left me—in fact I am a new man, to what I was before wearing it. I am truly thankful to you for what you have done for me, and I hope that you may be long spared to the benefit of the public. Believe me, Yours sincerely, FRANK ELLIOTT. DR. BENNET'S PADS can be had at FRASER & REDDIN'S DRUG STORE. June 12.]
