Canadians Out In Cold On Business Ownership

OTTAWA (CP)—The Toronto and Montreal Stock Exchanges can see only dim prospects for Canadians getting more and bigger slices of ownership in foreign-owned subsidiaries operating in this country.

And they expressed the fear that any legislative actions to force foreign corporations to sell a part of their assets to Canadians would create more problems than the one solved. They asked the law-makers to use extreme care in this situation.

"All we can do is to keep on pushing the American company to consider it," said Eric Kierans, president of the Montreal Stock Exchange. Both exchanges indicated they had been "pushing" in this way, but with few results.

Mr. Kierans and Gen. Howard D. Graham, president of the Toronto Stock Exchange, and their associates appeared before the royal commission on banking and finance, now studying the entire Canadian capital market.

The subsidiaries issue is not new. A key recommendation of the 1957 report of the royal commission on Canada's economic prospects was that foreign-owned concerns in Canada "should sell an appreciable interest in their equity stock to Canadians."

Monday, the Montreal and Canadian Stock Exchanges said in a joint brief that "we do not anticipate any marked increase in the sale of equity participation in Canadian subsidiary operations by foreign corporations."

Plaque Unveiled To Dag's Memory

By JOSEPH MacSWEEN
UNITED NATIONS (CP)—Acting Secretary - General U Thant of the United Nations said here Dag Hammarskjold died while striving to bring unity to The Congo. He expressed confidence that the sacrifice will not go in vain.

Thant spoke before unveiling a bronze plaque to the memory of Hammarskjold and the 15 others, including Alice Lalande of Joliette, Que., killed in a Northern Rhodesian plane crash a year ago.

Tunisia's Mongi Slim, president of the 16th General Assembly, also spoke at the ceremony, television coverage of which was relayed to Europe by the communications satellite Telstar.

"May we all pray that the remarkable genius that has explored outer space may be brought to bear on the problems which threaten our planet," said Thant.

Mrs. Alva Myrdal of Sweden, chairman of the Dag Hammarskjold Foundation, said the best way to honor Hammarskjold was to support projects close to his heart.

PLANNED SEE TSHOMBE

Thant said the main, thought unpublicized," objectives sought by Hammarskjold in his trip to Africa on the eve of the 16th assembly last year was to try to induce secessionist President Moise Tshombe of Katanga province to go to the central capital of Leopoldville for talks with Congolese Premier Cyrille Adoula.

The aim was to end the secession of Katanga and Thant said he had no doubt Hammarskjold would have persuaded Tshombe to make the trip had he lived.

Indeed, Tshombe did later visit Leopoldville not once but twice, Thant noted, "although with disappointing results to date."

"The United Nations effort in The Congo persists, however, and will in time, I am confident, fully succeed."

Several hundred diplomats, UN staff members and friends of the victims attended the memorial service which had counterparts in several places in Europe, Africa and North America. It was held outside the meditation room in UN headquarters and Thant noted Hammarskjold had taken a deep interest in that room.

Thant repeated Hammarskjold's plea that UN representatives use the meditation place often to seek counsel with their thoughts and consciences during the hurly-burly of assembly sessions.

Quebec Power Nationalization Is Predicted

MONTREAL (CP) — Le Devoir says that premier Jean Lesage will announce Wednesday the nationalization of all privately-owned electricity companies, including the Shawinigan Water and Power Company.

The newspapers says a caucus of Liberal legislature members will be held in Quebec City Wednesday morning before the announcement is made.

The government will also announce, says Le Devoir, that it will consult public opinion "'. . . in the form of a provincial general election."

"In this way, Mr. Lesage on one hand would have the public approve the decision to take over the power companies and on the other hand would obtain a new mandate for four years."

The newspaper says the general election would take place early in November.

U.S. Reports On Fallout

WASHINGTON (AP) — U.S. Welfare Secretary Anthony J. Celebrezze says a federal board has found that radioactive fallout is not at dangerous levels in the United States now.

And the group said it would not recommend the preventive and counter-measures taken recently when radioactivity counts shot to high levels in some areas.

The federal radiation council, top-ranking government body dealing with the problems of radiation fallout, issued a report Sunday on its meeting of a week ago.

Celebrezze said in a television interview Sunday that the council had concluded there is no great danger to the U.S. from fallout at this time. He heads the group.

The council's report did not mention the areas involved or the counter - measures taken. But it said increased radioactivity reports "led to actions and proposed actions involving counter-measures and preventive health measures. The federal radiation council does not recommend such actions under present circumstances."

In Ottawa, the health department's radiation division said it has reported on many occasions that the level of radioactive fallout in Canada is not even close to danger levels. Testing of air and milk showed no cause for concern.

The bidding:

East	South	West	North
1 ♣	2 ♥	3 ♣	4 ♥

Opening lead — queen of spades.

Much of the skill in bridge depends upon drawing proper inferences from events that have taken place. It is a matter of assembling clues, putting them in proper perspective, and then reaching the right conclusions.

This hand was played in a team match. At the first table, South got to four hearts on the bidding shown and made eleven tricks. West led a spade, taken with the ace, and declarer played a heart to the ace and discarded two spades on the A-K of diamonds. He lost a club and a heart.

At the second table, both the bidding and play were different. The bidding went:

North decided there would be a good play for a slam. He had only 10 high -card points, but what he had he prized highly. He thought South might have a singleton spade, since East had bid spades and West had raised them, and that even if South had two spades, there were many hands he might have that would allow twelve tricks to be made.

It was a reasonable gamble on North's part. His values included first-round control of the three side suits and he was resting, besides, on a partner who had made a vulnerable overcall in the two level. It seemed unlikely that six hearts would be defeated.

His judgment was vindicated when South proceeded to make six hearts. West led the queen of spades at this table also. Declarer took it with the ace and played a trump. East following low.

It was now only a question of guessing whether to fineese the queen or play for the drop of the king. While the mathematical probability is that a suit will break 3-1 rather than 2-0, South decided in this case to finesse the queen. When the finesse worked, he made the slam, losing only a club trick.

Declarer's reasoning was very simple. He saw that East would not have had the values for an opening bid unless he had the king of hearts.

DAILY CRYPTOQUOTE — Here's how to work it:

A X Y D L B A A X E
is L O N G F E L L O W

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.
