

THE CENTRAL GUARDIAN

This column is reserved for news of local interest, but advertising of a new nature may be inserted at five cents a word, strictly payable in advance.

CHURCH OF SCOTLAND. Services August 26th, Birch Hill 11 a.m.; Kinross 1.30 p.m., Brook-lyn 3.30 p.m., Murray River 7.30 p.m., S. S. Birch Hill 3 p.m. Rev. I. H. Bishop.

FIREMEN CALLED - The City Fire Department received another call at ten-thirty last night to extinguish the pile of coal still burning in the basement of the ruins of Horne's garage.

OFFICERS ELECTED - At a meeting held at H.M.C.S. "Queen Charlotte" of the Chief and Petty Officers Mess, Chief Petty Officer M. Macdonald was elected President, and G.P.O. V. Pineau re-elected Secretary-Treasurer.

CORNWALL Pastoral Charge Services. New Dominion 11 a.m., S. S. at 10; Kingston 3 p.m., S. S. at 2; Cornwall 7.30 p.m., Sunday School at 11 a.m. Rev. D. K. Ross, formerly pastor of the charge will conduct all services. A. S. Weir, Interim chairman.

CAVENDISH UNITED PASTORAL CHARGE - Sunday, August 26th, North Rustico 10 A.M. St. Andrew's Church 7.30 P.M. New Glasgow 7.30 P.M. A special W. M. S. service. Guest speaker, Rev. Charles Dickenson, Soloist, Miss Lena McLure, Sunday School, Cavendish 10 A.M. in the Baptist Church, North Rustico 10 A.M. Rev. George Gough, Minister.

POWNAL UNITED CHARGE - Services, August 26th, will be conducted by the minister, Rev. S. S. Weir as follows: Moun't Herbert at 10 a.m.; Bunbury at 11.30 p.m. Pownal service will be at 7.30 p.m. at which time Rev. E. R. MacVicar, formerly pastor of the charge will be special preacher. Mrs. John Havenga of Bunbury, Dutch singer will be soloist.

REGISTERED SOWS SHIPPED - It was learned from Mr. H. W. Clay, Senior Livestock Fieldman for the Dominion Department of Agriculture, that a shipment of ten registered sows was made this week to a Swine Club in St. Quentin, Restigouche County, New Brunswick. Among those making sales were: J. D. MacPhail, Argyle Shore; Keith Dixon, Kingston; Willie Gibson, Marshfield; Ronald MacDonald, St. Peter's Bay; James Hanlon, New Zealand.

VISITING MAINE - Mr. Donald A. Macdonald, chairman of the Prince Edward Island Marketing Board, and S. G. Peppin, Technical Advisor to the Board, are visiting northern New Brunswick and Maine potato growing areas to gather all information possible regarding this season's marketing situation and to attend a meeting of the co-ordinating committee of the P. E. I.-N.B. Potato Marketing Boards. Until the Boards announce a minimum price for this year's crop, it is urged that farmers make no price commitments, an Island Board member stated.

BUSINESS IN THE MARITIMES - According to the Business Review of the Bank of Montreal in the Maritimes wholesale and retail trade were at about the same level as last year except furniture sales which were down considerably. Car dealers are heavily stocked with new and used cars for which the demand is weak. Conditions are fair to good. Manufacturing plants generally are fully employed. Cotton mills are curtailing production due to large inventories in relation to demand. The raw wool situation appears easier and prices steady. The demand continues for long lumber and pulpwood although prices for pulpwood have dropped slightly. Dried fish stocks are low with prices firm. Cod and haddock catches have been above average but mackerel catches were poor. A bumper hay crop has been harvested and a good crop of grain is expected. Potatoes are producing favourably with digging of some early varieties under way. The Annapolis Valley apple crop is expected to be well below average; apple scab is prevalent. Coal and steel production is down slightly. Employment is at a high level.

BIRTHS, MARRIAGES, DEATHS 50c per Insertion

MacFADYEN - At the Charlotte-town Hospital on Aug. 22, to Mr. and Mrs. Charles MacFadyen City, a son.

ROBERTS - At the Prince County Hospital, on August 20th, 1951, to Mr. and Mrs. G. Louis Roberts (nee Kathleen Pickett), Kelvin, a daughter, Florie Kathleen, 7 lbs. 5 ozs.

CURRAN - At Saint Joseph's Hospital, Hamilton, Ontario, August 18th, 1951, nine days old infant daughter of Mr. and Mrs. John F. Curran. Survived by her parents and one brother, Henry Anthony.

N.D. MacLean UNDERTAKER EMBALMER Charlottetown and North Westville PHONE 149

RETURNED TO HALIFAX - Colonel C. W. Ball, director of Pay Services, Army Headquarters, Ottawa, Major G. E. Carpenter, M.B. E., and Lt-Col. J. M. Kinnaird, Command Paymaster, Eastern Command, Halifax, left the province yesterday after making a routine visit to confer with the commanding officers of the local Reserve units and the paymasters of the respective Regiments.

CITY POLICE COURT - At the Specially Magistrate's Court yesterday, a man charged with operating a motor vehicle while intoxicated was fined \$100 and costs or 20 days in jail. A man charged with being drunk and incapable was returned to 28 days in jail and a man charged with alcoholism was admitted to Falconwood Hospital. Two men charged with vagrancy appeared, one being sentenced to 30 days in jail and the other remanded until today.

PERSONALS Mr. and Mrs. Allison MacLean and daughter Shirley, of Ottawa, arrived last night on a brief visit to the Province. Mr. MacLean is formerly of Charlottetown and has been in the civil service at Ottawa for several years.

Statement Of Claim Filed In Mayoralty Issue

A further step in the proceedings instituted by writ of mandamus on Aug. 8 calling an election for the office of Mayor of the City of Charlottetown was taken this week, when the plaintiff, Mr. M. Alban Farmer, filed his statement of claim in the Supreme Court. The defendant's name is not yet known in the respective members of the City Council and City Clerk.

The statement of claim, which is addressed to the defendants' attorney, Kenneth M. Martin, K. C., is dated Aug. 20 and reads as follows: "1. The Plaintiff is a Barrister and a qualified elector of the City of Charlottetown and resides in Charlottetown in Queen's County. The Defendants are the members of the Legislative Assembly of the Province of Prince Edward Island by writ therefor dated March 31 A. D. 1951.

"2. That in said election, Benjamin Earle Macdonald of Charlottetown and family of the office of Mayor held by the said Benjamin Earle Macdonald became vacant upon his election as member of the Legislative Assembly of the Province of Prince Edward Island from the return made by the Returning Officer for Queen's County in accordance with the Section 170 of the Election Act. That the said return was duly published in the Royal Gazette of May 26, A.D. 1951.

"3. That in accordance with the Act to consolidate and amend the several acts incorporating the City of Charlottetown and amendments thereto, the office of Mayor held by the said Benjamin Earle Macdonald became vacant upon his election as member of the Legislative Assembly of the Province of Prince Edward Island.

"4. That in accordance with the said Act to consolidate and amend the several acts incorporating the City of Charlottetown and amendments thereto, an election to fill the vacancy in the office of Mayor of the City of Charlottetown should have been called and held within thirty days from such vacancy.

Annual Field Day Continued from page 1 shine bulls through artificial insemination methods. Test Bulls Paraded

Adjoining to the barns, Mr. Parent had the four bulls used in the tests paraded. They were Evans Sir Roderick, senior bull, which is used as the check, Fairview Sovereign, on loan from A. E. MacRae and Sons, Black Adder Sir Roderick, and Charlottetown Roderick, 28th. After commenting briefly on their ancestry and service, and of a younger bull, Fairview Sir Roderick, brought for the occasion by A. E. MacRae and Sons; the two bulls recently purchased in Scotland were shown.

Mr. Fred MacRae gave reasons for his selections, mentioning that the choosing of breeding stock should not be confused with show animals, although of course the two bulls were at a disadvantage owing to the long sea voyage and quarantine period. Many favourable comments were passed on Mr. MacRae's choice of Burton Duellist and Dunduff Gilt Edge, one of which will probably be kept at the Experimental Farm and the other at a location yet to be decided. Judging Contest Following the parading of cows, during which much discussion centred on the merits or disadvantages of classification, a judging contest, under the direction

First Queen's Conservatives Hold Meeting

Mr. Arthur Stewart, of Sea View, was elected president of the Progressive Conservative Association of First Queen's at a largely attended meeting last night, held at the home of the retiring president, Mr. Frank Myers, M.L.A., of Crapner. Mr. John Knox, Victoria, was also nominated for the office, Mr. Stewart winning out on a show of hands.

Other officers elected at the meeting were Messrs. John P. Carragher, Kelly's Cross, vice president; Nell MacDougall, Argyle Shore, secretary treasurer (re-elected); Wilfred McAller, Hope River, and Melville Bell, DeSable, executive members.

The meeting was opened with brief remarks by Mr. Myers, who expressed his appreciation of the strong support accorded him in the recent general election. Short addresses followed from Messrs. J. R. Foster on behalf of Mr. R. R. Bell, Conservative leader, who was unavoidably absent; W. Chester S. McLeure, M.P.; Angus MacLean, M.P.; John H. Myers, Walter G. MacKenzie, Reagh Bagnall, Provincial President, Phillip Matheson, Mrs. Ireta Sutherland, President of the Women's P.C.A.; Claude Delaney and Ernest Holmes. All the speakers expressed their regret at the passing of Mr. Cedric Simpson, of Bay View.

Upwards of 300 attended the meeting, all present being warmly welcomed by Mr. and Mrs. Myers, who provided light refreshments and entertainment.

Special Sessions Of United Church Lay Association

On Wednesday, Aug. 22, the P.E.I. Lay Association of the United Church of Canada held a special session in the Montrose United Church with morning, afternoon and evening sessions. The reason for the special meeting was to give a delegate a change to meet and to hear the special evangelist, Rev. Elmer Crockett of Worthington, Minnesota, who this week is conducting special meetings in the Montrose United Church, the following week in the Elmsdale Church, and the final week in the Bloomfield Church. Later, in September, he will conduct meetings in Montague. There was a fine attendance with people present from Montague to Montrose, including Charlottetown.

The ministers present were as follows: Rev. Dr. A. D. McKenzie, Montague; Rev. W. I. Green, Stanley Bridge; Rev. Louis Murray, Kensington; Rev. R. H. Baxter, Blideford; Rev. J. M. Sheen, Elmsdale; Capt. John Hardy of the Salvation Army, Winnipeg, Manitoba, who is visiting his brother, Lea Hardy and family of Bloomfield; Rev. Mr. Somers, Summerside; Rev. Mr. Barbour, Canning, N.S.; Rev. Russell Woodside, Bathurst, N.B.; Mr. Cecil Forbes, lay minister stationed at Musquodoboit, N.S., and Rev. W. G. Dickson, O'Leary.

The morning session opened with a devotional service conducted by Mr. Russell Leard, Casumpec, president of the Laymen's Association of the Maritime Conference of the United Church of Canada. The organist was Rev. Louis Murray, Kensington. It was a fine hour of prayer, singing and testimony. Short messages were brought by Mr. Thomas Moyses, Kensington, and Mr. Russell Leard. The delegates were entertained in the homes of the Montrose congregation for dinner.

In the afternoon the president of the P.E.I. Lay Association, Mr. Heber Hardy, Elmsdale, presided. The resolutions committee were appointed as follows: Mr. Russell Leard, Casumpec, Roscoe Walker, Kensington and Rev. J. M. Sheen, Elmsdale. A fine devotional was then conducted by the evangelist, Rev. Elmer Crockett. Two splendid addresses on the need of evangelism were given by two veteran ministers, Rev. W. I. Green, Stanley Bridge, and Rev. Mr. Somers of Summerside. Rev. Mr. Somers defined evangelism as "Making God real to men."

He emphasized the fact all men should be evangelists. Rev. Mr. Green said that materialism, that is the worship of this world, was the killing disease of the church and ushered in the deterioration of the Sabbath and the increase in the liquor trade. Others who spoke briefly were Rev. Dr. A. D. McKenzie, Captain Hardy, Mr. W. E. Brooks, Cecil Ford and Rev. Mr. Crockett. Rev. W. G. Dickson pronounced the benediction. The ladies of Montrose served a delicious supper.

Evening Session At the evening session the lovely and spacious Montrose Church was packed. The service was conducted by the minister, Rev. J. M. Sheen. The special song, "The Ninety and Nine" was sung by Mr. Roscoe Walker of Mr. Maurice Deacon, was carried through the service. The winner was Colonel Andrew of Charlottetown, with Mr. Robert Acorn, Dundas, second, both of whom received prizes for their successful attempts. The meeting was then adjourned until next year, and several members took advantage of Mr. Parent's offer to motor to the Upton Park Farm to see the developments and experiments taking place there, including the Pole Barn, which is attracting a great deal of attention, and the potato plots, where the latest high-resistant seedlings are being grown.

Island Born Archaeologist Leaving Shortly For Greece

Charlottetown can boast of having produced at least one archaeologist - Dr. Cedric Boulter, who lectures in the subject at the University of Cincinnati. Dr. Boulter, son of Mrs. J. W. Boulter and the late Mr. Boulter who was well known as manager of the Potato Growers' Association and secretary of the Exhibition Commission, is vacationing at his mother's home in Charlottetown, prior to departure in September for a year's work in Athens, Greece.

Upon graduation from Prince of Wales College and Acadia University, Dr. Boulter spent a year in post graduate study at Johns Hopkins, and made his first trip to Greece in 1934-35 on a fellowship offered by the American School of Classical Studies at Athens, which is supported by a number of American universities. Upon return, he took his doctoral degree at the University of Cincinnati and remained there as a lecturer in archaeology. A three year period during the war was spent serving with the R.C.N.V.R.

The American School has at intervals since 1931 been conducting excavations upon the site of the Athenian Agora, the political, religious, business and social centre of the city during the great age of Greece, the classical era from 800 B. C. down to Roman times, which produced the philosophers and thinkers whose influence has moulded world culture ever since.

Will Make Report In search of supplementary information to what has already been derived from previous study, Dr. Boulter will examine the material uncovered at the "dig", and his report will be published in conjunction with the rest of the American school's report upon its findings.

Dr. Boulter, who specializes in the field of ceramics, one of the oldest crafts known to man, quoted a favourite archaeological paradox - that "the value of pottery to archaeological study is derived from its being so perishable and yet so indestructible." Pottery, unlike wood, textiles, metals, and other remains of past civilizations, does not disintegrate and often, although broken into fragments, suffers little change over a period of two or three thousand years.

In an age when archaeological examination is often conducted upon "stratified" sites - those upon which several eras have developed, flourished, and faded into earth, to be hidden by succeeding ages - pottery, which may be classified as to age by the techniques and designs used in its manufacture is often a useful foundation on which to build further knowledge of the subject.

Particularly in preclassical Greece, an age of highly developed civilization possessing written records which it has not been possible to decipher, much valuable information has been acquired through the study of pottery, aside from its purely artistic value.

4th Expedition The coming trip will be Dr. Boulter's fourth expedition to the East. In 1937 he worked with a University of Cincinnati group upon the site of ancient Troy in Asia Minor, the first landmark of archaeological technique. Previously believed to be purely mythical, Homer's great epics, the Iliad and the Odyssey, were substantiated by a German archaeologist, Heinrich Schliemann, in 1870. Schliemann was not a professional scholar but a German business man who read Homer as a boy, accumulated a fortune, and used it to find and excavate the site of Troy.

In the years from 1932 to 1938, the University of Cincinnati made a re-examination of the strata and subdivisions of the site, using modern fine tooth comb methods of excavation.

A soul-inspiring message was then delivered by Rev. Mr. Crockett which made a deep impression on the capably congregated audience. The benediction was pronounced by Rev. Dr. McKenzie.

PROSPECTS BRIGHTER

Continued from page 1

and small one concentrated mainly in the areas of the United States where foreign-born people reside. It is a steady market, especially for smoked and pickled eels, but the long term trend is expected to be downward as present buyers become absorbed in their adopted country and turn more to American dishes.

The market for mussels is even narrower, but it was suggested that the committee might possibly explore the European market for new outlets. Dr. Neidler stated that at present the price to fishermen in Northern Europe is approximately \$1.50 per pound for eels.

Lobster Season

The elimination of the second season for lobster fishing would practically stop poaching, it was believed by speakers: It would also have the effect of putting an estimated 10 per cent of the present canneries out of business.

During the morning session Mr. Walter J. McInnis, naval architect of Boston, said with reference to the previous day's report of the meeting that his remarks relative to the economy of gasoline engines were intended to apply to boats which were not in continuous use. For fishing vessels engaged for long seasons oil was the most economical though engines using it cost more to install. He added that there were no moulded glass draggers in use, though they might come in the future. There are several small boats now used by yachtmen as well as at least one experimental vessel of the United States Coast Guard constructed by this process.

The question of the widespread use of wholesalers here was introduced, and it was felt that mainly they acted as assemblymen for individual packers who perhaps do not have the financial ability to market direct. The wholesalers, it was pointed out, take the financial risk involved in a lobster market which is variable from day to day.

Members of the Committee discussed the feasibility of doing all marketing through a central agency, but did not elaborate on rather than the pick and shovel technique of Schliemann, to uncover a wealth of new information which is in process of publication. Dr. Boulter is looking forward to his year in Greece. He says that the Greeks have an unusually happy disposition and that despite the hardships of the war torn country - such as the water shortage at Athens which necessitates that the water be turned on only for a few hours every other day - life there is pleasant.

The Agora covers an area equal to about eight or ten blocks of Charlottetown, on which a few buildings have been left standing for use as storerooms and workshops by the archaeologists. Added to the thrills, the curiosity and the excitement experienced by the archaeologist is the delight of working within sight of such architectural wonders of ancient Athens as the Parthenon, the Acropolis, and the Areopagus.

New Method of Shipping Lobsters

A relatively recent method of shipping fresh lobster meat to United States and Upper Canadian markets was mentioned yesterday at the meeting of the P. E. I. Fisheries Development Committee.

Mr. R. E. S. Homans, of the Fisheries Department Inspection Service, Halifax, told how such shipments had mushroomed in volume in New Brunswick factories recently. The fresh meat is simply extracted from the lobsters and dumped into large cans for shipment. It is less trouble than processing as the latter requires very careful washing.

New Processing Methods

There was a brief mention made of the process of boiling and then quick-freezing whole lobsters for immediate shipment, but Mr. R. E. S. Homans, of the Inspection Service, Fisheries Department, Halifax, said that there was danger involved of the separation of the legs and claws from the body as the process made the lobsters extremely brittle.

The general subject of possible loss of markets through some future depression was explored. The feeling was that in such times staple items of food suffered the least. Luxury items with a good margin of profit could possibly hold markets through price reductions, but other foods which are in the between zone would be heavy losers. People would eliminate them from their diets first as being neither staple nor luxury foods.

Mackerel Fishery

The possibility of increasing the varieties of marketable fish was looked into with particular emphasis being placed on mackerel. It was said that this type of fish presented great difficulty due to its non-keeping qualities. The mackerel are kept best when they are dressed immediately after being taken from the nets. The irregular appearance of them make for too great a financial risk to make it profitable to go into mackerel fishing on a large scale.

The grading of lobsters in cars was mentioned and it was stated that there is no compulsory grading by packers here. Some of the speakers felt that voluntary grading was better as pride of the packers in their own product would lead to make them keep their pack up to the standard required. The public, it was said, bought canned lobster largely on the appearance and that flavor was only one factor.

Speakers taking part in the discussions yesterday included the Committee chairman, Hon. T. A. Campbell, Mr. Homans, Mr. Eugene Gorman, secretary, Mr. Forrest Watson, secretary, Mr. Torrey Officer for the Maritimes, Dr. Neidler and Mr. H. Scott Gordon.

VANCOUVER, Aug. 23 - (CP) - At the Pacific National Exhibition visitors can satisfy their appetites with horseburgers. A midway stand is offering them with trimmings at 20 cents, compared with 35 cents for hamburgers.

Toronto Mining Financier Dies

NEW YORK, Aug. 23 - (CP) - John P. Bickell, Toronto mining financier and member of a four-man team that whipped Britain's wartime aircraft production into shape, died in New York Hospital yesterday. He was 67 years old.

Bickell died of a heart attack at 4:25 P.M. E. D. T. Associates said he was taken ill when he reached New York on a trip Monday and entered hospital immediately. He had already a successful business career in Canadian mining behind him when in 1940 Canadian-born Lord Beaverbrook called him overseas to help with British aircraft production.

With Beaverbrook, the late Rt. Hon. R. B. Bennett, former Conservative Canadian Prime Minister, and Beverly Baxter, Canadian-born member of Britain's House of Commons, he served for two years on the British Airplane Supply Board. They became known as "The Busy B's."

At the end of his tour of duty in Britain, Bickell returned to Canada to head Victory Aircraft Ltd., Toronto, Ont., then putting Canada into the world aircraft-manufacturing picture. Bickell's career in Canadian business and finance spanned four decades that saw the Dominion grow from a predominantly agricultural country to an industrial nation.

He started his brokerage business in Toronto when he was only 23 and retired after 12 years to devote himself to his growing mining interests. At one time he was president of three mining enterprises, the largest of which was McIntyre Porcupine Mines Ltd. He was chairman of the McIntyre Board at the time of his death. He was also director of a string of other Canadian corporations and was chairman of Maple Leaf Gardens Ltd. of Toronto.

Hockey was one of his interests and the grey-haired financier was seen at many games in Maple Leaf Gardens.

Fishing was another interest. He owned a private fishing preserve at Shelburne, in Ontario's Dufferin County, where he loved to retire in times of stress to test his angling skill. He had his own plane and during Nova Scotia's Moose River mining disaster in 1936 sent an airplane Ontario mining-rescue crew in efforts to save three entombed men.

He had friends in high positions in Canada and Britain. Among them were Lord Beaverbrook, the late Premier Mitchell Hepburn of Ontario and George McCullagh, publisher of the Toronto Telegram and of the Toronto Globe and Mail. He often went on trips with them, especially with Beaverbrook.

Canadian Dollar

MONTREAL, Aug. 23 - (CP) - The American dollar today closed at 57 1/2 cent premium to the Canadian dollar, up 3/32 from Wednesday's close. That is, it took \$1.05 1/2 Canadian to buy \$1 American. The pound sterling was \$2.96 7/16, up 1/4 from Wednesday.

in the south of France and the British West Indies. Born in Molesworth, Ont., the son of Rev. David Bickell, he was educated at St. Andrew's College, Aurora, Ont. He never married. He was a philanthropist as well as an industrialist. Among the institutions in which he took an interest was the Wellesley Hospital in Toronto where he was a member of the board.

Waterman's WATERMAN'S INK CONTEST IT'S EASY... IT'S FUN! And you may win one of the 103 Cash Prizes. Here's How! Buy a bottle of WATERMAN'S INK (any size, any color) in the China Department of the Summerside Store, with the Ink get an Entry Form and write on it any Six Different Waterman's Ink Colors, enclose a Box Top or facsimile from any Waterman's Ink Container, mail to the address on the Entry Form. The Contest Closes October 15, 1951. The Prizes are: First-\$500, Second-\$200, Third-\$100, and 100 prizes of \$20 each. These Prizes are all DOUBLED if the Winner attaches Box Tops (or facsimiles) from two or two Different Waterman's Inks. ENTER THE WATERMAN'S INK CONTEST! BUY YOUR WATERMAN'S INK AND GET YOUR ENTRY FORM IN THE CHINA DEPARTMENT OF THE SUMMERSIDE STORE!
