

How the "Best" Butter is Made.

A Berkshire County, Mass., farmer writes: "My object has always been to make the best butter—not the most profitable necessarily, but the best. Having this object in view, I have been compelled to discard oil meal, and thus reduce the quantity of my butter and the value of the manure. I have been obliged to take the cows out of the basement cellars, and have consequently received less butter for a given amount of food. I have been forced instead of dropping the manure into a convenient cellar below the cows, to give up this cellar and wheel the manure into a shed. I have been obliged to discard deep setting, and to content myself with the open, shallow method, which is more expensive, and requires more attention, and returns less butter. I have been obliged to reject all feeds except corn, wheat, hay, beets carrots. I have been obliged to give up using the milk of cows that have calved too recently or too remotely. I have for a dozen years, carefully and faithfully tried to make butter as good as it can be made. This has been the first consideration, profitableness has always been secondary. The result has been that for many years this butter has brought a higher price than any butter in the county of Berkshire, where much good butter is made, and it has taken the first prize over the county. It has been in such constant demand at 65 cents, the year through, that when making 100 pounds a week there have been unfilled orders for 25 or 50 pounds more.

A Simple Remedy.

There is no remedy of such general application, and none so easily attainable, as water; and yet nine persons in ten will pass by it in an emergency to seek for something of far less efficiency.

There are but few cases where water should not occupy the highest place as a remedial agent.

A strip of flannel or napkin folded lengthwise, and dipped in hot water and wrung out, and then applied around the neck of a child that has croup, will usually bring relief in ten minutes.

A towel folded several times, and dipped in hot water and quickly wrung and applied over the seat of the pain in toothache or neuralgia, will generally afford prompt relief. This treatment in colic works almost like magic, I have seen cases that have resisted other treatment for hours yield to this in ten minutes. There is nothing that will so promptly cut short a congestion of the lungs, sore throat or rheumatism, as hot water, when applied promptly and thoroughly.

Pieces of cotton batting dipped in hot water, and kept applied to old sores or new cuts, bruises or sprains, is the treatment now generally adopted in hospitals. I have seen a sprained ankle cured in an hour by showering it with hot water poured from a height of three feet.

Tepid water acts promptly as an emetic, and hot water taken freely half an hour before bed time is the best of cathartics in cases of constipation, while it has a most soothing effect on the stomach and bowels. This treatment continued for a few months, with proper attention to the diet, will cure any curable case of dyspepsia.

Headache almost always yields to the simultaneous application of hot water to the feet and back of the neck.

It is an excellent plan to record facts like these in a note book, which should always be at hand when wanted. In the anxiety caused by accidents or sudden illness in the family, one becomes confused and is not apt to remember quickly what should be done; hence there may be prolonged and unnecessary suffering before proper remedies are applied.—Hall's Journal of Health.

A MARVELOUS STORY

TOLD IN TWO LETTERS.

FROM THE SON: "33 Cedar St., New York, Oct. 29, 1882. Gentlemen: My father resides at Glover, Vt. He has been a great sufferer from Scrofula, and the enclosed letter will tell you what a marvelous effect

Ayer's Sarsaparilla

has had in his case. I think his blood must have contained the humor for at least ten years; but it did not show, except in the form of a scrofulous sore on the wrist, until about five years ago. From a few spots which appeared at that time, it gradually spread so as to cover his entire body. I assure you he was terribly afflicted, and an object of pity, when he began using your medicine. Now, there are few men of his age who enjoy as good health as he has. I could easily name fifty persons who would testify to the facts in his case. Yours truly, W. M. PHILLIPS."

FROM THE FATHER: "It is both a pleasure and a duty for me to state to you the benefit I have derived from the use of

Ayer's Sarsaparilla.

Six months ago I was completely covered with a terrible humor and scrofulous sores. The humor caused an incessant and intolerable itching, and the skin cracked so as to cause the blood to flow in many places wherever I moved. My mind was very restless, and my life a burden. I commenced the use of the Sarsaparilla in April last, and have used it regularly since that time. My condition began to improve at once. The sores have all healed, and I feel perfectly well in every respect—being now able to do a good day's work, although 73 years of age. Many inquire what has wrought such a cure in my case, and I tell them, as I have here tried to tell you, AYER'S SARSAPARILLA. Glover, Vt., Oct. 21, 1882. Yours gratefully, HIRSH PHILLIPS."

AYER'S SARSAPARILLA CURES Scrofula and all Scrofulous Complaints, Erysipelas, Eczema, Ringworm, Blisters, Sores, Bolls, Tumors, and Eruptions of the Skin. It clears the blood of all impurities, aids digestion, stimulates the action of the bowels, and thus restores vitality and strengthens the whole system.

MRS. SOPHIA POTTER'S

Bone Rheumatic Liniment

IT is a fact worth knowing that Mrs. Sophia Potter's Bone Rheumatic Liniment cannot be excelled for removing pain and soreness. It is no worthless trash, as some may suppose, simply because they have been imposed upon by others but is positively the "King of Pain." Sore throat cannot stand before its power.

All we ask is a trial that you may be convinced of the truth of our statement. Our experience is that one bottle tried also sells many more.

See circular for particulars and testimonials, and try a bottle—it will not fail to do all that is promised.
