McLEOD & McKENZIE,

Star Merchant Tailors,

Have entered upon their Semi-Annual Season of giving Rare Bargains.

—:o:—

WE PURPOSE TO CLEAN OUT, IF POSSIBLE, THE BALANCE OF OUR

SPRING AND SUMMER WEAR,

At prices we have not hitherto offered, in order to make room for our

FALL IMPORTATIONS.

This step was unavoidable, and as a consequence you may anticipate rare plums. HOURS—FROM SEVEN TO SIX.

McLEOD & McKENZIE.

Charlottetown, July 31, 1889.

SPECIAL.

—:o:—

WE take this opportunity of thanking our many Customers for their valued patronage.

We have now over 40 employes on our pay roll, and with a large plant of the latest improved Machinery we find ourselves in a position to manufacture Furniture Cheaper than ever.

We are paying special attention to Hot Water Heating this season, and have several contracts on hand.

We would be obliged to all who received Accounts in July, and have not paid us yet, if they would do so, as money is useful to us at the present time.

MARK WRIGHT & CO.

Charlottetown, August 9, 1889.

Long-Standing

Blood Diseases are cured by the persevering use of Ayer's Sarsaparilla.

This medicine is an Alterative, and causes a **radical change** in the system. The process, in some cases, may not be quite so rapid as in others; but, with persistence, **the result is certain.** Read these testimonials:—

"For two years I suffered from a severe pain in my right side, and had other troubles caused by a torpid liver and dyspepsia. After giving several medicines a fair trial without a cure, I began to take Ayer's Sarsaparilla. I was greatly benefited by the first bottle, and after taking five bottles I was completely cured."—John W. Benson, 70 Lawrence st., Lowell, Mass.

Last May a large carbuncle broke out on my arm. The usual remedies had no effect and I was confined to my bed for eight weeks. A friend induced me to try Ayer's Sarsaparilla. Less than three bottles healed the sore. In all my experience with medicine, I never saw more

Wonderful Results.

Another marked effect of the use of this medicine was the strengthening of my sight."—Mrs. Carrie Adams, Holly Springs, Texas.

"I had a dry scaly humor for years, and suffered terribly; and, as my brother and sister were similarly afflicted, I presume the malady is hereditary. Last winter, Dr. Tyron, (of Fernandina, Fla.,) recommended me to take Ayer's Sarsaparilla, and continue it for a year. For five months I took it daily. I have not had a blemish upon my body for the last three months."—T. E. Wiley, 146 Chambers st., New York City.

"Last fall and winter I was troubled with a dull, heavy pain in my side. I did not notice it much at first, but it gradually grew worse until it became almost unbearable. During the latter part of this time, disorders of the stomach and liver increased my troubles. I began taking Ayer's Sarsaparilla, and, after faithfully continuing the use of this medicine for some months, the pain disappeared and I was completely cured."—Mrs. Augusta A. Furbush, Haverhill, Mass.

Ayer's Sarsaparilla,

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Price $1; six bottles, $5. Worth $5 a bottle.

PARTNERSHIP NOTICE.

E. H. NORTON & CO.

HAVING entered into partnership and purchased the business lately conducted by Mr. A. McNEILL, we are prepared to carry on the business of

Auctioneers, Commission Merchants and Money Lenders.

Auction Sales will be carefully conducted, and all returns, whether for cash or credit sales, will be made immediately after sale.

With a very complete knowledge of the trade of the Province, and close personal attention to all business entrusted to us, we feel sure of giving our patrons every satisfaction.

E. H. NORTON,
Late of Norton Bros., Wholesale Hardware Merchants.

WM. McNEILL.

Referring to the notice of the above Firm, to whom I have transferred all my interest in the Auctioneer and Commission business, I have much pleasure in recommending them to the public, confident that all consignments and business entrusted to them will meet with prompt and careful attention.

A. McNEILL.

Charlottetown, Aug. 10, 1889.

Piano For Sale.

A Second-hand Square Piano, Mahogany Frame, a good instrument, will be sold at a bargain, for cash or approved paper. Apply at this office. aug. 3, 3w eod

Local and Other Items.

BIBLES.—A prize lot of Bibles opened today at the Diamond Bookstore. Very cheap.

IN A CELLAR.—It is said that a petroleum well has been discovered in the cellar of Rev. Mr. Muckleston's residence, Ottawa.

THE APPLE CROP.—Reports from the fruit-growing belts of Canada and the United States indicate a short crop this year.

THE MIRAMICHI.—The steamer Miramichi, with a general cargo and about eighty passengers, made her regular call at this port last night. She sailed again this morning.

BAPTIST CONVENTION.—The Baptist Convention of the Maritime Provinces opens at Fredericton to-day. There will be about 300 delegates.

THE BEST YET.—Halifax city loans for small amounts at 4 per cent. have just been floated. This is said to be the best City of Halifax loan yet effected.

THE ARCHBISHOP AND LAGER BEER.—A Montreal paper says: It is stated that Archbishop Fabre is about to issue a circular prohibiting places of amusement where lager beer is sold.

HARVESTED.—Winnipeg grain dealers say that 75 per cent. of the wheat crop has been harvested. There is a larger crop than last year, and the province will export 10,000,000 bushels.

IN GOOD CONDITION.—A late despatch says: Collingwood Schrieber reports that the government railways in the maritime provinces are in excellent condition, and that the Intercolonial business, except pleasure travel, has been good.

MUCH injury is done by the use of irritating griping compounds taken as purgatives. In Ayer's Pills, the patient has a mild but effective cathartic, that can be confidently recommended alike for the most delicate patients as well as the most robust.

I. O. O. F.—Says the Chatham, N. B., *World*: The visiting members of the Grand Lodge were overwhelmned with courtesies from Charlottetown Oddfellows, and will long look back upon their visit to the Prince Edward Island capital with pleasure.

NO MEDICINE in the world is in better repute or more widely known than Ayer's Sarsaparilla. As a safe and certain remedy for all manner of blood disorders, leading physicians and druggists everywhere recommend it in preference to any other.

AFTER NINE YEARS' WORK.—A Pictou county paper says: The Ford pit shaft is at last freed of water, after nine years' work. The sheets have been reached, rails have been laid in the direction of the square pit to facilitate the removal of debris. The remains of a horse were taken out the other day. The bottom of the pit is no worse than anticipated.

PARCEL POST.—An Ottawa despatch says the imperial postal authorities have consented to arrange so that Canada may forward parcels to any country with which Britain has existing arrangements. After Sept. 1 the rates on parcel post matter to Great Britain and Newfoundland will be reduced to 25 cents per pound, excepting from British Columbia, which will be five cents per lb. additional.

THE CONDUCTORS' RITUAL.—A meeting of delegates from the Order of Railway Conductors of America was held at St. George's Hall, Hamilton, Ont., a few days ago. Grand Chief Conductor C. S. Wheaton, of Cedar Rapids, Iowa, was present for the purpose of instructing the members in the new ritual, which goes into effect on October 1. After leaving Hamilton he will proceed through the Eastern States and Maritime Provinces on the same mission. The Order is now in a flourishing condition.

A SHARK CAPTURED.—The Halifax *Mail* says: Large numbers flocked to Wilson's fish market, at the foot of Victoria Lane, this forenoon to see the shark that was captured by Henry Brown of Herring Cove last evening near the mouth of the cove. Mr. Brown was out codfishing at the time, and caught the shark on his line. He brought it to the surface and killed it with a boathook. It was a ground shark, the dimensions of which are as follows: Length 4 feet, width 2 feet, and weight about 40 pounds.

RESCUED.—On Thursday, after dark, one of the excursionists from Tatamagouche walked over the side of Pownal Wharf while making his way to the steamer. His cries for assistance reached the ears of several customs officials in the neighborhood, and they soon rescued him from his perilous position. One of the rescuers distinguished himself in a similar manner on several other occasions, and it is nothing but right that his bravery should be recognized. The Royal Humane Society, or some other society, should look into his case at once.

OFFENDERS PUNISHED.—The prosecution of offenders against the fishery laws occupied Mr. Heard's time yesterday. The following convictions were made: For seining trout at Glenfinnan River, James Harper, $20 and costs; Joseph Kent, $20 and costs; Philip Curley, $20 and costs. James Murnian, fishing with a bag with holes in the bottom, known as a flit bag, $5 and costs. Warrants are to be issued against other offenders who did not appear. We congratulate Mr. Fitzgerald upon the result of his first prosecution.

THE CANNING INDUSTRY AT CAPE TORMENTINE.—The Moncton *Times* says: The factory of the Portland Packing Co. at Cape Tormentine has packed 2150 cases of lobsters this season, or over 400 cases more than the pack of last year. Each case contains four dozen of the ordinary 1 lb. cans, but quite a number of 10 oz. or lunch cans have been put up this season for the Massachusetts market. A German order for 75 cases, each containing six dozen quarter lb. cans, has also been filled this season. This is a new size of can.

Hints About Health.

One of the best ways to keep in good health is not to think or worry too much about it. If you feel strong and well, don't imagine that some insidious disease may be secretly attacking your constitution. Many people are like the inexperienced traveller, who anxiously inquired about the symptoms of seasickness, and how he should know when he had it. One generally knows when he is sick, and frequently many supposably alarming symptoms prove, upon investigation, to be either perfectly natural occurrences or of very slight importance.

Eat and drink what you desire as long as it agrees with you. Your stomach knows pretty well what it can digest. Plain, simple food is desirable, as a general thing, but the luxuries of the table, in moderation will do no harm

Alcoholic beverages are not fit for habitual use. They are true medicines, and should only be used like any other medicine—under the advice of a physician. As a regular beverage they can do no good, but will almost certainly do harm.

Take all the sleep you can get, but remember that the necessary amount varies greatly for different persons. Some must sleep at least nine hours, while others thrive under six. Only don't rob yourself of what you really need. The "midnight oil" is a terribly expensive illuminant to burn, either for purposes of labor or study.

Avoid sudden changes of temperature. You can guard against them by always wearing flannel underclothing. The lightest grade of flannel, sold especially for summer wear, is a great life-preserver, and not oppressively warm, even in the hottest weather.

Always treat a common cold with great respect. Ninety-nine times out of a hundred it will get well anyway, but the hundredth cold, if neglected, may lead to bronchitis, pneumonia, or consumption. It is best to take no such chances.

Don't read medical works, unless you are prepared to have all the different diseases therein described. It takes a strong mind to read a minute description of any disease without discovering some of the symptoms in himself. The quacks know this well, and their so-called "medical" books consist principally of descriptions of every imaginable symptom, appended to the most painful and fatal diseases. Remember that if you think you have undoubted symptoms of Bright's disease, consumption, cancer, insanity or paralysis, that you probably haven't a trace of any such disease about you.

By all means take as much exercise as you can, and be in the open air as much as possible. Out-door life is the natural condition of mankind, and the more one can have of it the better.

News Notes.

In an interview with which His Highness some weeks ago privileged the Vienna correspondent of the London *Times*, the Prince of Montenegro, in referring to the present youthful ruler of Servia exclaimed, "Pauvre enfant! pauvre enfant!" From the Prince's conversation, the correspondent evidently thought him not indisposed to accept the responsibilities, the burden of which on such young shoulders aroused his compassion. Nor is the correspondent surprised that such should be the case. "As a Servian," he writes, "the Prince, of course, takes a deep interest in Servian affairs, and it would not be human nature if, considering the present weakness of the Obrenovitch dynasty, he did not look to the possibility of becoming himself king of a united Servia, including Montenegro." He gives Prince Nicholas credit for great charms of manner, charms which help to account for the extraordinary fascination which he is known to exercise over persons of all ranks from emperors to beggars.

What is known as the Flack divorce case in New York is a striking example of the evils of the divorce system, as carried out in that State. Sheriff Flack procured a divorce from his wife without her knowing it. Or rather the wife was supposed to apply for a divorce, was represented by counsel, the case was heard and the court granted the decree, although the whole thing was a fraud, got up by friends of the sheriff, and only accidentally discovered by the wronged woman. The scandal became public, the court annulled the decree, the parties implicated in procuring it are liable to penalty, and Flack at once lost his political standing, being forced to resign from Tammany, and may be forced by the strength of public opinion to vacate the shrievalty as well. New York is credited with having the most stringent divorce laws of any of the States, and although the court was deceived in this instance, there must be something wofully loose in the administration of the law when such a monstrous piece of injustice could be perpetrated.

British Columbia has certainly not lagged behind the march of progress since it entered the Dominion. Its population is still small, something like 100,000, but it is a population of extraordinary vigor, enterprise and public spirit. Only the adventurous and courageous, and generally only those gifted with a good constitution, were likely to seek that distant Province in the early years of its administration. It is still, indeed, in the pioneer stage, but the proportion of successful and wealthy persons will probably in the coming census be shown to be larger than that of any of the older Provinces. The coasting trade a dozen years ago was represented by a tonnage of 125,000, which must be multiplied by twelve to give the tonnage of the present. Its situation offers it a large share of the control of the Pacific in the near future, while the railway at its back makes it an entrepot between the New World and the Old. British Columbia is especially interested in the result of the Hon. Mr. Abbott's mission to Australia, which, it is to be hoped, will prove of advantage both to that Province and to the Dominion as a whole.
