THE LOBSTER INDUSTRY.—Great preparations are being made amongst lobster packers for a more vigorous effort in this line of business the coming season than ever before. In the eastern section of the Island, especially, many new factories and boiling places are being erected. It looks as though there is money in the business when so many wide-awake men are found investing cash in the industry.

THE MIND OF THE MASTER.—The lecture delivered in Ludlow Hall a few evenings ago by Rev. G. C. P. Palmer is highly spoken of by the press of Summerside. The subject of the lecture was Ian MacLaren's book, "The Mind of the Master," and it was handled with the skill of a master hand. At the close of his discourse the lecturer was tendered a hearty vote of thanks.

The object of the Social was the providing of funds to assist in the building of a new wing to the Institute for the Blind at Halifax. A very nice entertainment was furnished, and for the few baskets which appeared the sum of $11 was realized.

DR. WALL'S ESTATE.—The adjourned meeting of the Probate Court was opened at noon today in Charlottetown to resume the hearing of the application to obtain probate of a paper alleged to be the last will of the late Dr. Wall, of Emerald. The defence has not yet commenced. Mr. J. E. Wyatt of Summerside appears in support of the alleged will, and Stewart Q. C. and Messrs Peters & Ings for the next of kin.

QUEBEC JERSEY CATTLE.—Some two years since a young bull and heifer of this hardy breed of Jersey cattle, so well adapted for our climate, were imported by our popular Lieut.-Governor Howlan, who is taking such a practical interest in the agricultural industries of our province. This importation was made for the purpose of testing the adaptability of the Quebec Jerseys to our climate. The experiment has proved a decided success. The heifer imported by His Honor is now three years old, and is named Belle de Lisle. The bull is also now three years old—Duc de Couteau. A young bull, Duc de Lisle, the sire and dam of which are the above imported animals, is one year old to-day, and a bull calf, named Duke de Ville, three weeks old, of the same breed. These fine pure-bred Quebec Jersey cattle are to be seen at Government House stables, and are registered in the French Canadian Cattle Herd Book of the General Breeders' Association of the Province of Quebec.

THE PEST GERM TALKS.

SIR,—I am here and I am quite at home. The wild geese and the brant have come without an invitation, and they are shot; but I have been tenderly reared in these limits and I am now everywhere received very kindly. So of course I will acknowledge the compliment and stay awhile and enjoy myself in a good full plague of grippe and pneumonia and typhoid fever, generally. The feeding ground is good, and I have already multiplied until I have become legion. I number my people by the million. I have every means of access made easy too, for I come in by the open window and by the open door, and have no difficulty in making my abode with the citizens. I do not fear the Health Board at all. They do not see me, and pass me kindly by at all points in this sewerless town. They seem to think that the four or five months of constraint and repression which the frost puts upon us must last forever. Some good citizens are helping on the tired dullness of the Board, which lies like the torpor of sleep upon these officers, by promising to build a hospital to take good care of my captives when I have incapacitated them. So they and the doctors are happy, and I am quite content. For I am not to be disturbed; I am here to stay.

PEST GERM.

A SANITARY MATTER.

SIR,—I would like to know through the columns of your valuable paper, how it is that men from the country districts with their horses and carts can go through all the yards in the city, clean out all the ashes and manure and leave all the old rags and rubbish lying about the yards? When our Sanitary Officer visits these yards he will require them to be cleaned at once and when the scavenger is called upon all he can find is old rags and broken bottles. Our scavengers have to pay license to the city. All they get for carrying that is 20 cents a load and they have to cart it two miles out of town at night while the countrymen can come to town in the day time and nothing is said. Mr. Editor, I think it is high time our council should look into this. If not we will try next council election to put men in who will look after it.

Treated by the SALISBURY Method of persistent SELF-HELP in overcoming past errors and removing the causes of disease. The result justifies the means.

This is not an easy quack cure-all. Neither should it be judged by certain bad imitations already among the people, nor by the half-bad efforts of invalids to go it alone or half do it. The salvation of health necessitates sincere repentance, constant self-denial and whole-hearted faith in the good works of physician and patient.
