TIMELY NOTES ON TOPICS CONNECTED WITH Silver Fox and Mink Farming

The annual meeting of the Canadian National Silver Fox Breeders' Association was held in the Fort Cumberland Hotel, Amherst, on Thursday, June 8th. Directors were present from Ontario, Quebec and the Maritimes. The financial statement for all operations exclusive of those under the marketing act, showed revenue of \$1,315.71 and total expenses of \$9,615.35, leaving a surplus of \$1,700.36. Current assets of cash and investments totalled \$197,406.84, and real estate and other fixed assets \$23,268.55, making a grand total after some adjustments, of \$218,541.60. This statement and the president's statement were adopted unanimously.

Dr. W. E. Russell reported for the committee on distemper and commensal diseases, and made recommendations which were adopted. J. A. Steele of the Live Stock Records branch, pointed out some changes that should be made in the live stock pedigree act. These were approved. A discussion took place with reference to cutting down the directorate. It was pointed out, however, that this would not be a fitting time to do so as it would show a great deal of discouragement and would likely be resented by provinces whose membership had fallen off very considerably. Most of those present felt that there was a hopeful side for the industry in the not too distant future and if so we would want every province represented as before.

Grants to live fox snows are to be continued on the same basis and a grant of \$15,000 was voted for advertising and fox fur promotion. This amount while available would not all be used unless there appeared to be a real chance of its helping the promotion of the sale of silver foxes. Due to the discontinuance of the magazine Canadian Fox and Fur, an offer from the Fur Trade Journal of Canada to act as the official organ of the Association was accepted. Many expressed regret that the former magazine was unable to continue as relations between the publisher and the Association had always been very harmonious.

The question of making available to ranchers a system of scoring and inspection of foxes at a minimum fee of \$15 for 15 foxes with smaller amounts for a larger number of foxes inspected, was discussed very freely. The promoters argued that it would be helpful to ranchers to have inspectors visit them and carefully examine their herds, or as many of them as they wished to have examined, and give them a report as to the quality. Many felt that the fox farmer who is now remaining in the business is quite capable of judging his own foxes—or should be—and that the sending of inspectors to perhaps very widely scattered parts of the Dominion would involve a tremendous expense and be of very little practical value. It was finally decided to appoint a committee to look into the matter and to report at the next annual meeting.

Live fox shows had been held at Amherst Winter Fair, and by the Prince Edward Island Fur Breeders' Association in Charlottetown, both shows being open to Canadian registered foxes and each show had an exhibit of approximately 325 foxes. Four fox pelts of select quality and of standard Silver, White Marked Silver, Platinum and Pearl Platinum types were selected and forwarded as an exhibit to the Canadian Court of the Imperial Institute, London, England. Suitable acknowledgment was received and it was stated that Canada through the medium of the exhibits and fox pelts supplied by this Association to the fox section of the exhibit would make it an outstanding one.

Reference was made and regret expressed re the passing of Dr. R. H. MacDonald of Saskatoon, Sask., who was a very prominent member of the Association and an outstanding breeder of silver foxes. He represented the province of Saskatchewan on the board of directors from June, 1943, continuously until the time of his death.

Mr. George Callbeck gave a report of his attendance at the meeting of the Canadian Council of Fur Associations, an organization formed with a view of co-ordinating all branches of the fur industry. Assistance to it had been given by the Canadian National

Association and one of its activities which was being pressed at present was the removal of the 10 per cent excise tax.

General regret was expressed that President Arthur M. Doyle of Winnipeg, could not attend because of illness. It was hoped that health and able to attend future meetings would soon be restored to meetings.

The report of the marketing department which is under the direct control of George A. Callbeck, showed that its service to fur farmers was maintained during the 1948-1949 season and every effort made to provide and administer these services as efficiently as possible under the difficult conditions prevailing in the fur trade particularly in regard to fox pelts. Receipts for the season totalled 30,986 pelts received from 860 shippers. The quality of the pelts received was relatively good. Mink pelt receipts were considerably in excess of the previous season and because of the facilities the marketing department now has it is in a position to give efficient service to all mink farmers in the marketing of their pelts.

The elections of officers for 1950-1951 resulted as follows: President, Gordon MacMillan; Cornwall, Vice President, Dr. W. E. Russell; Kitchener, Ont., Secretary, Thomas D. Carruthers; Summerside, Treasurer, Vernon Matthews; Summerside, Chief Inspector and Mgr. Fur Marketing Department, George A. Callbeck; Summerside, Directors elected at the annual meeting, A. M. Doyle, Winnipeg, H. Zimmerman, Tavistock, Ont., C. B. Sherwood, Norston, N. B., R. S. Humphrey, Kensington, and L. W. Hancock, Summerside, Auditors, H. R. Doane and Co. Executive Committee, Robert Humphrey, Kensington, D. O. Stewart, Summerside, George MacLeod, Fredericton, N. B. Directors who have one or two year terms to go are H. S. Doraty, Old Chelsea, Que., Allen Hooker, Ormstown, Que., F. G. MacLeod, Black River, N. B., Lt.-Col. D. A. MacKinnon, Charlottetown, D. O. Stewart, Summerside, E. S. Bureleigh Ellerslie, L. Johnston, Fortin. Among those attending in addition to those mentioned were P. G. Clarke, who has attended every meeting since the organization of the Association some thirty years ago, L. Roger Clark, Brenton Clark, Parvin Cass, all of Summerside, H. L. Milligan, L. K. Lockerby, Kensington, Frank Mayne, Westchester, N. S., R. Anderson, Frank Copp, M.P.P. and S. Taylor, Port Elgin. The latter is a grandson of Robert Oulton, co-founder with Charles Dallon of the silver fox industry.

International Plant Quarantine Regulations Conference

OTTAWA, June 15 — A nighty important and progressive step in controlling or eradicating devastating plant pests and diseases was taken by representatives of 31 countries by attending the International Plant Quarantine Regulations Conference held recently at The Hague, when action was taken to establish a standard certificate of health form for use in international trade, and acceptable to all countries participating.

"Not only would this step have a beneficial effect in the control of disease," said W. N. Keenan, Chief, Division of Plant Protection, Canada Department of Agriculture, Ottawa, just returned from the Conference. "It would also greatly facilitate international trade in plant propagating material, and the movement of plant products for food purposes."

Mr. Keenan, who headed the Canadian delegation of scientists to The Hague Conference, said that the forms in use in Canada and the United States had been used as a guide in preparing the proposed new form and that the final draft would be quite similar to the present Canadian certificate of health form.

The Conference recommended certain changes in the proposed regulations for the Food and Agriculture Organization which has taken an active part in the proceedings. A meeting is to be held in Washington on June 7 to prepare a final draft of regulations and Mr. Keenan will represent the Canada Department of Agriculture at this time.

The European Committee for Colorado Beetle Control which has been set up in Britain, France, Holland and Belgium, was cited by Mr. Keenan as being a fine example of international cooperation in this important field.

Besides Mr. Keenan, the Canadian representatives included Dr. A. D. Baker and Mr. H. L. Seaman from the Division of Entomology, Ottawa, and Dr. L. W. Koch, Officer-in-charge, Laboratory of Plant Pathology, Harrow, Ont., all from Science Service, Canada Department of Agriculture. Preston MacLure and George Graham, nephews, Internment took place in the new cemetery at Murray Harbor North.

THE DICKCISSEL

This bird does not appear in our local lists, if we except the Bulletin of 1916, which terms it rare. It is properly a prairie bird, but in the early days of American ornithology it was often seen in the Atlantic States, but later abandoned them entirely. However, in 1928 the Dickcissels re-entered their old territory, though not in great numbers, and have been reported each year since. John MacSwaine says it is "very rare" on the island, and during the last 40 years there is no record of it, to my knowledge. Here is its description, drawn principally from the "Birds of North Carolina". Dickcissel. AOU. 604. Very rare. (MacSwaine, 1916.) Male brownish gray above, a yellow line over the eye; shoulders brown; back and scapulars streaked black; chin white; breast yellow; a black patch of variable size on the lower throat; with a resemblance to a Meadow Lark but for the bill. Tail notched. Female duller, but little or no black on the throat. (In fall the black on the throat of the male is obscure.) Length — 6 or 7 inches.

ISLAND HISTORY

For some years I have noted down the names of historical articles as they appeared in the columns of the Charlottetown Guardian. They are:

West River 150 years ago.
The Cemetery in Elm Avenue.
Old Charlottetown. (These three were originally published in the P. E. I. Magazine.)
Brackley Point in Earlier Days, by the late Hubert MacCallum.
Old Times South of the Hillsboro, by the late Ludlow Jenkins.
Sketch of the Parish of Milton and Rustico, by the late Chas. E. MacKenzie.
Rustico Parish, by Prof. J. H. Blanchard.
Murray Harbour, Quaint Little Village. (no name).
The Rodds of P. E. Island, by E. S. D.
History of Tryon United Church, by E. S. D.
The Presbyterian Church in Summerside, (by S.)
History of New Perth Dairying Co., by J. A. Dewar.
The voyage of the Barbara Macdonald by Geo. V. Fraser.
Local History at Cross Keys Tavern, by Major T. E. McNutt.
David Stewart's Journal, (1831) of his travels in P. E. I.
Historic P. E. I. Cemetery, (Elm Avenue), a survey of its monuments.

Gardiner Approves Dairymen's Fund

OTTAWA, June 13—The far-sighted action by the Dairy Farmers of Canada in establishing a fund for the purpose of keeping before the Canadian public the relative values and high quality of Canada's dairy products, is in my opinion one of the most commendable steps which has been taken by any farmers organization in this country," Rt. Hon. James G. Gardiner, Minister of Agriculture stated today.

Inauguration of a policy in which a cent-a-pound butterfat or the milk equivalent would be set aside during the month of June for an active campaign to keep the public more fully informed on the merits of dairy products, was announced recently by the producers organization, Dairy Farmers of Canada.

"This determined move to meet some of the difficulties facing the dairy industry deserves the full support of every producer and will, I feel sure, have a far-reaching and beneficial effect on producers and consumers alike," Mr. Gardiner declared.

"To the consumer, it will help in pointing up the fact that a prosperous national economy is impossible without a prosperous agriculture in which the dairy industry plays such an important role.

"To the producer it brings the realization of his share in the responsibility of merchandizing his product as well as producing it."

"A modest lead in the direction of merchandizing dairy products was given recently by the federal department of agriculture and I feel highly gratified that the producers themselves have shown a determination to accept their share of this responsibility," Mr. Gardiner emphasized.

PITTSBURGH, June 15—(AP)—Mrs. Anastasia Krepp, 65, couldn't miss attending graduation, mass for her granddaughter today, although she had been ailing. So she walked three blocks to St. Joseph's Church, collapsed and died of a heart attack.

he becomes mentally disordered, he is a schizophrenic, or else falls into a stupor.

(2) The Cycloid is a talkative busybody, an extrovert. Because he swings from grave to gay in cycles, he has been dubbed a cycloid. Under alcohol (hard stuff) he is a silly practical joker and the gabby performer of absurd antics. He is the man who goes on binges till he become chronic. He is generally unpredictable. He may turn into a depressive manic.

(3) The Paranoid is quiet, shy, touchy and easily affronted. Alcohol intensifies his distrust and suspicion of others and at any gathering may dispose him to quarrel. When mentally unwell his doubts become realities to him: he is now a "paranoid" and believes that he is plotted against, persecuted, and even poisoned.

Such is the latest "synopsis" of Mankind. Not a pretty picture in itself, but over against it we have the knowledge that the majority of our fellow men are very decent people.

REBEL LEADER CAPTURED
RANGOON, Burma, June 15 — (AP)—The Burmese Government announced today the surrender of Boekyar, notorious leader of people's volunteer organization rebels. He was taken with his "army" at Promie, 160 miles north of here, after a career of iron rule in mid-west Burma.
