

THE DAILY EXAMINER.

MARCH 10, 1896. REDUCTION OF RATES.

The people will learn with pleasure that our publishers have decided to reduce, forthwith, the cost of insuring rated dwellings in the towns and villages of this island, twenty per cent.

A FREE LIBRARY.

The discussion before the Epworth League last evening took a practical turn, and had a practical end, which must have been very gratifying to the promoters of the proposed Free Public Library.

It strikes us that one hundred of these Quilts sold on our Bargainopolis for 90c., only a trifle over half value, will be quite a Business Bell Ringing for that bargain locality.

See them in the window. They measure ninety inches long and seventy-two inches wide. They are thick and soft; no pressing or starch. The beautiful designs are in bold relief on the surface.

Until this season Quilts of this grade were sold at \$1.50, and the value and price were twins. We handled great quantities of them in the early spring, and so were able to offer them at a greatly reduced price. Now \$1.15.—James Paton & Co.

CIVIC RULERS IN SESSION.

Electric Cars and the Roadway to the Park.

Joseph Taylor Appointed Sanitary Officer—Other Business Transacted.

The largest audience that has gathered within the precincts of the Council Chamber in recent years assembled last evening. All the seats in the auditorium were occupied, the aisle and outside hall were both filled, and in the clerk's office and within the bar there were assembled many more.

It was wanted a few minutes of eight o'clock when Mayor Dawson took his place and rapped for order. Finance Minister Nicholas accepted the nomination of Joseph Taylor as Sanitary Officer.

"I desire," said His Worship, "to make a few observations at this, the first regular meeting of the Council. I ought perhaps to say first, that I highly appreciate the honor that my fellow townsmen have conferred upon me in again electing me, by such a large vote, to the honorable position of Mayor for another term of two years; and I would welcome to the Council, those members who, with myself, have been honored with a renewal of the confidence of their respective wards, and especially do I welcome the new Councilors to a seat at the Council board, and earnestly hope that their presence will not only sustain but add to the dignity and efficiency of the Council."

"In the few remarks which I had the honor to make to the outgoing council, as published in the report of last year, I was led to say, that 'should the ordinary expenditure of the past year be not exceeded in 1896, it could be met by a tax of [this] of 1 per cent.'"

"I find that the revenue during the past 3 years has met the outlay in all departments of the civic service, while providing for a liberal expenditure on street works, considerably in excess of some previous years, and shown a surplus during the same period, of \$8,917.37. Deducting from this amount the uncollected taxes, viz., \$1,343.21, there has been collected from the ratepayers during the 3 years, the sum of \$7,574.16 more than the city's requirements, to which should be added \$3,000.00 of what is termed 'maintenance of streets,' and a correspondingly larger amount in macadamizing and in asphalt sidewalks."

"Light and street work is about all the taxpayer sees as a direct return for the taxes he pays, and I would suggest that the macadamizing done upon the streets during the past two years, be not only continued, but, with a view to the tax payer and the needs of the city, should be extended, and that, at the same time, a little more attention be given to the street drain crossings."

"However good a roadway be made, it calls for constant supervision. No ruts or holes should be permitted. It is said by engineers that 'no street paving, whether asphalt or macadam, will remain in good condition unless constant repairs are made. Asphalt and macadam require more care than granite.'"

"Coming to the question of revenue and expenditure, and in support of my opinion that the 1 per cent. will yield sufficient in addition to the other sources of revenue to meet the requirements of 1896, I submit as follows:—

ever, much remains to be done before we can pride ourselves upon having a clean city, and I had with satisfaction the appointment of a Sanitary Committee, of which Councilor Dr. Johnson is chairman, and I have no doubt but that the supervision of the duties of the Sanitary Officer will result in a more efficient enforcement of the sanitary laws of the city, which in several respects call for additional provisions.

"The necessity for a re-survey and plan of the city is becoming more apparent every year; old landmarks are being constantly removed and an accurate survey made more difficult. Applications to define street lines are repeatedly made by property owners, and, in many cases, no definite or authoritative line can be given. The consequence is that, in many instances, there is a coming out beyond what is believed to be the street line, and we have here a repetition of the zigzag appearance of most of the streets."

"I am sure it goes without saying that without grades and levels being first had to compare, a street work is not the act of wise men."

"I find that during the past 4 years in addition to the city surveyor's salary, \$1,351 has been paid for preparing plans and superintending city works. Were a competent engineer appointed there would be no necessity for a repetition of this class of expenditure, and although such an official would require a salary commensurate with the position and service, still the work would be better and more scientifically done, and comparing values with the apparent increased cost, would really be but a small advance, if any more, in the expenditure of the City Board, it may be deemed worthy of notice that the amount required by the Board is gradually growing larger, as, for instance, I find the amount has increased from \$2,173.22 in 1890 to \$10,500.00 in 1895, being 324 per cent, or nearly one-third of the taxes levied for all purposes."

"I will not occupy your attention for a longer time than these remarks have been to bring before you matters which I think should be deemed worthy of consideration and a desire to assist your deliberations in perfecting measures which in my opinion have an important bearing in the improvement of our city, and the civic government."

Applications were then read for the position of sanitary officer from Thos. Desmond, George Beairto, Henry Edmonds and David Byers in the order named.

On motion of Councilor Nicholson, seconded by Councilor Douse, A. N. Large was appointed chief of the fire department, and Councilor Hooper and Charles Hermans first and second assistants respectively.

Councilor Taylor moved that Chief Engineer Large receive \$150 a year and Mr. Hermans \$50. Councilor Hooper seconded the motion, which carried.

Councilor McCarron was excused from voting on this motion.

Councilor Nicholson then moved the following resolution, which was seconded by Councilor Johnson:

A GRAND Musical and Dramatic ENTERTAINMENT

WILL BE HELD IN THE Convent De Notre Dame, ON THE EVENING OF TUESDAY, MARCH 10, 1896.

The proceeds to be devoted to the Building Fund of the New St. Danstan's Cathedral.

Charlottetown, March 7, 1896.—ly

WANTED—A girl for general housework in a family of three, references required. Apply at this office. mch10

TELEGRAPHIC.

SPECIAL DESPATCHES TO THE EXAMINER THE MANITOBA QUESTION.

Greenway to Come to Ottawa. Satisfactory Terms Anticipated

OTTAWA, March 11. In the House of Commons Sir Charles Tupper said that since answering the question asked a few days ago by the member for North Simcoe, Mr. McCarthy, the following telegram had been received by Sir Donald Smith:

WINDSFOOT, March 2. "Your telegram has received the most careful consideration of myself and colleagues. While fully appreciating all you say, it is quite clear to us that we can only proceed to Ottawa for the purpose of holding a conference upon the official invitation of the Dominion Government. I fully appreciate your very kind office in this matter."

(Signed) "GREENWAY." In view of the assurance that the Government of Manitoba are willing to have a conference, the Government proposes, so soon as the second reading is carried, to have a conference with Mr. Greenway's Government with a view to arriving at a settlement of this question on terms that will be satisfactory to his Government and the minority of Manitoba. But in the meantime it is desirable, in the interests of the Government, to proceed with the question before the House as previously arranged.

NOTES FROM THE CAPITAL. Some Hope of Settlement Debate Will Be Shortened.

OTTAWA, March 11. Yesterday was a day of surprises. The announcement that Mr. Greenway is to be invited to Ottawa lets in a ray of hope that the school question will be settled. Indeed in the minds of the general impression is that at last solid ground has been reached and that this troublesome question may soon be a thing of the past. Sir Charles Tupper's announcement is calculated to shorten the present debate. With reference to the Chignecto Marine Railway, it is said that an effort will be made to restore the Bill to the order paper.

Riot at St. Kitts. BOSTON, March 10. A riot has been received here that the general strike of boatmen, porters and laborers on the island of St. Kitts culminated in a riot. The rioters set fire and destroyed the sugar cane fields and looted the stores and buildings. The rioters are entirely in possession. The North American squadron has been sent for.

The Pacific Cable Scheme. OTTAWA, March 11. The Government has been officially advised that the Colonial Office conference on the Pacific cable scheme will meet in London shortly after Easter, or about the 14th of April.

A Hypocrite Punished. OTTAWA, March 10. R. B. Bell, ex Inspector of the Society for the Prevention of Cruelty, has been sentenced to two years and two months imprisonment in Kingston penitentiary for doing his duty and abetting his wife in acts of cruelty perpetrated on their grandson.

Liberal Remedialists. MONTREAL, March 10. The four Liberal bolters from Quebec are now said to be Beausoleil, Devlin, Vaillancourt and Tremont.

Moncton's Mayo r. MONCTON, March 10. Alderman Chapman was yesterday elected Mayor.

QUILTS at but a little more than half value. Bargainopolis will blossom out tomorrow (Wednesday) with One Hundred Beautiful Toilet Quilts, the same as you will see filling our east window.—James Paton & Co.

THE TALK THAT TALKS. The kind of talk one wants when they part with their money is not mere newspaper talk. It is this. Here are the goods and here is the price. If you can match our Corset at 50c. for the price return any time and get your money back. That's the talk that talks. Only 50 pairs left. Every pair is worth 95c.

Hats, Carpets, Oilcloths, Clothing, Dress Goods, Print Cottons, Bed Quilts.

It strikes us that one hundred of these Quilts sold on our Bargainopolis for 90c., only a trifle over half value, will be quite a Business Bell Ringing for that bargain locality.

See them in the window. They measure ninety inches long and seventy-two inches wide. They are thick and soft; no pressing or starch. The beautiful designs are in bold relief on the surface.—James Paton & Co.
