Broader Peace Terms Are Urged On France For Rebels In Algeria

By JOSEPH MacSWEEN
Canadian Press Staff Writer
UNITED NATIONS, N.Y. (CP)
The United Nations political committee Monday night urged France to broaden the terms of its peace offer to Algerian rebels—but the narrowness of the vote was good news for France.

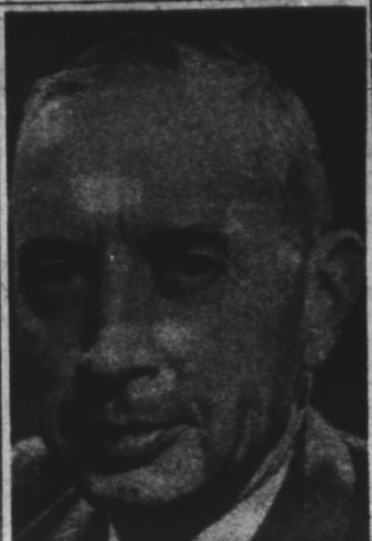

stentions in favor of an Afro-Asian resolution that was termed mild by its 22 co-sponsoring countries.
This was a comfortable margin for passage in the committee, where only a simple majority is required, but it fell short of the two-thirds edge that will be required for passage when the item reaches the assembly later this week. An Algerian resolution failed by a single vote in the assembly last year.

Frozen Pork Deal Gets OK

LONDON (Reuters)—The British government proposes immediate authorization of import—up to 25,000 tons of North American frozen pork Agriculture Minister John Hare said Monday.
He told the House of Commons that most of it would come from Canada—a traditional supplier of the meat to the United Kingdom—and would help the domestic trade in current difficulties arising from a shortage of pigs.

The United States, Britain, Canada and some other Western countries voted against the proposal Monday on the ground that the UN should do nothing now that might harm efforts by the parties involved to reach settlement of the Algerian war, now in its sixth year.

BOYCOTT DEBATE
France boycotted the debate—and will do so again in the assembly. Spokesmen repeatedly said France would not be bound by any UN resolution on the Algerian matter, which it considers a domestic affair.

NEW DEPUTY

S.C. Barry, 56, director general of the production and marketing branch of the agriculture department, was appointed deputy minister of agriculture Dec. 4. He succeeds Dr. J. G. Taggart, 67, who is retiring. (CP Photo)

Yank Rocket Is New Type

ANDREWS AIR FORCE BASE, Md. (AP)—The U.S. air force Monday announced a new type of research rocket—the 1,700-pound, 29-foot-long Jaguar.
The device is designed to be launched 500 to 600 miles into the sky from a jet bomber during a straight-up climb at high altitude.

2 Year Lag Suggested On Bridge

A two-year delay was seen probable in the construction of the new Hillsboro Bridge in a remark made last evening by Premier Walter Shaw.

Sharply criticizing the former Liberal administration for the way they handled the project he asked:

"Who is responsible for this delay of probably two years in the completion of this small project of a few hundred yards?"

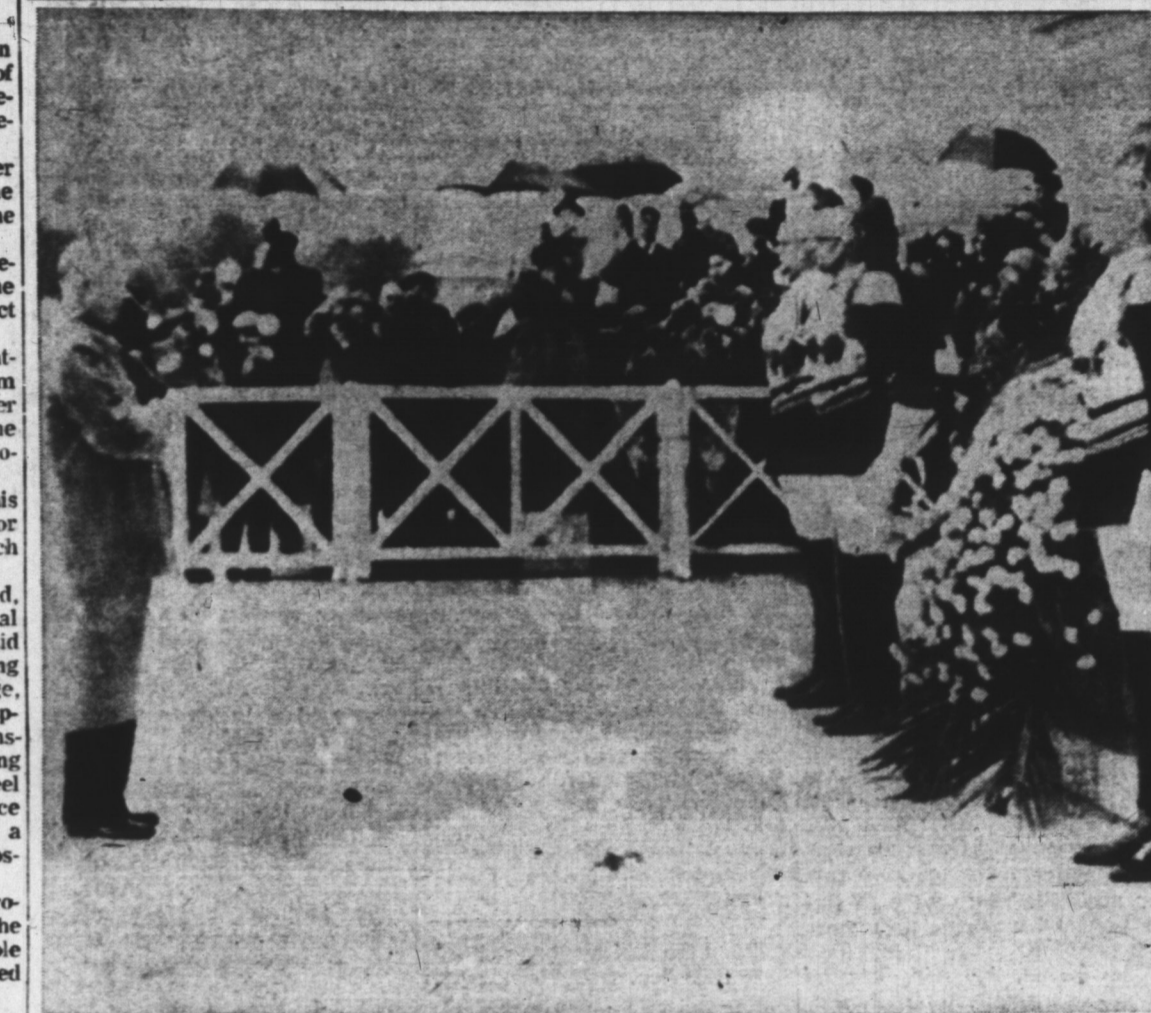

Mr. Shaw was speaking resentfully at the time of the criticism which had been made by former Premier A.W. Matheson on the Conservative handling of the proposed causeway project.

The Premier also indicated his belief that Ottawa will pay for repairs to the old bridge which are now underway.

"I may state," he observed, "that assisted by our federal members who gave us splendid support while at Ottawa along with ministers McNeill, Wedge, Stewart and Rossiter, we approached public works and transportation departments regarding repairs to the old bridge and feel sure we shall receive assistance in placing this structure in a safe condition at the earliest possible moment."

"If this situation had been properly handled at first under the former government, this whole project should now have reached a satisfactory conclusion."

Trade Deficit Is Boosted To \$523 Million In 10 Mos.

IKE PLACES WREATH

Increase In Deficit Totals \$283 Million

OTTAWA (CP)—A continuing demand for goods required for economic expansion helped boost Canada's trade deficit to \$523,300,000 in the first 10 months of 1959.

The bureau of statistics said Monday the deficit for the period represented an increase of \$283,300,000 over 1958's corresponding figure of \$239,300,000.

Imports rose by 9.4 per cent in the January-October period to \$4,717,100,000 from \$4,311,100,000 a year ago. However, exports rose by only three per cent to \$4,193,800,000 from \$4,071,600,000.

On the import side gains were recorded in purchases from all main trading areas. All of the gain in exports was caused by higher shipments to the United States.

Trade Minister Churchill said in Winnipeg Nov. 26 that the 1959 trade deficit—excess of imports over exports—will be higher than the 1958 figure of \$284,000,000 but lower than the 1956 record of \$42,000,000.

OCTOBER DECLINES
The trade deficit for October declined to \$23,300,000 from \$42,700,000 last year. Imports fell to \$495,700,000 from \$498,000,000 in 1958 while exports advanced to \$471,500,000 from \$455,300,000.

Imports from the U.S. rose in the 10 months to \$3,221,600,000 from \$2,936,000,000 a year ago. Exports increased somewhat less to \$2,618,100,000 from \$2,401,900,000, with the deficit rising to \$603,500,000 from \$584,100,000.

Purchases from the United Kingdom in the January-October period rose to \$491,800,000 from \$437,200,000 in 1958. However, exports declined to \$639,400,000 from \$664,100,000. As a result, Canada's customary surplus in U.K. trade was cut to \$147,600,000 from \$226,900,000.

Imports from other Commonwealth countries in the 10 months rose to \$199,600,000 from \$175,600,000. Exports fell to \$236,900,000 from \$236,900,000.

Purchases from all other countries advanced substantially to \$804,100,000 from \$712,300,000 and exports declined sharply to \$709,400,000 from \$792,700,000.

Stamp Issue Brings Fine

WINNIPEG (CP)—County Court Judge A.R. MacDonell Monday found Loblaw Groceria Limited guilty of issuing trading stamps in violation of the Criminal Code. He dismissed the firm's appeal against conviction and fine of \$25.

The county court decision was immediately appealed, with notice filed by company counsel E.B. Pitelado before Manitoba Court of Appeal.

Loblaw was convicted in city magistrate's court Oct. 14 and fined \$25 after a city detective testified he received six trading stamps following the purchase in a company store.

The detective had requested that the stamps be redeemed immediately and was told by the store manager that they could not be redeemed at that time.

A charge was then laid under section 369 of the Criminal Code.

Pope Renews Old Tradition

ROME (Reuters)—Pope John prayed in an ancient basilica in the centre of Rome Monday, renewing a nearly 500-year-old tradition that was broken 90 years ago.

The Pope, who had told his general audience earlier Monday that he had a cold but was "well," was renewing a tradition started by Pope Sixtus IV about 1480. Pius IX was the last Pope to visit the basilica for this rite, in 1869.

Liberals Plan Major Rally To Chart Election Platform

By JOHN LeBLANC
Canadian Press Staff Writer
OTTAWA (CP)—The Liberal Party, in a move to get closer to the grass-roots voter, Monday night decided to stage a mammoth 1960 rally to overhaul policies it will carry to the electorate in the next federal general election campaign.

The day also saw proposals to reorganize the party's national body and inject new blood into its organizing setup.
The rally would be a departure from long Liberal custom of holding full-dress conventions only in conjunction with leadership elections. The last time the Liberals had a national convention not connected with the party's leadership was in 1893.

It appeared the rally would effect be a program-setting party convention to bring policies up to date with the approach of a general election, expected about 1962.
Mr. Pearson proposed that it be held immediately after next year's advisory council meeting. While the party leadership stands by the program drafted at the 1958 convention that chose him as leader, Mr. Pearson, said it would be a good idea to re-examine these policies in the light of time's passage, to hammer out the basis for the election appeal.

False Reports Are Admitted

NEW YORK (AP)—The F. L. Jacobs Company Monday pleaded guilty to conspiring to defraud the government by filing false and misleading financial reports.

The firm, a holding company and Detroit auto-parts concern, entered its plea at the start of a federal trial, in which it was a co-defendant with its former chairman and president, international financier Alexander L. Guterman.

Mr. Pearson said it would be a good idea to re-examine these policies in the light of time's passage, to hammer out the basis for the election appeal.

FERRY TENDERS ARE REVEALED

OTTAWA—Halifax Shipyards with a bid of \$2,370,000 had the lowest tender for building the new Borden-Tormentine ferry when the tenders were opened here Saturday.

Delaying Tactics Planned To Stop Railway Evidence

OTTAWA (CP)—A new squabble between the Prairies and the railways sharpened Monday over a key issue in the grain dispute before Canada's royal commission on transportation.

Potato Industry Improvements Are Promised For Near Future

As a result of these meetings he said a more complete program of agricultural extension in this province is planned. Discussions were concerned with cattle, hogs, potato merchandizing and markets, and general farm and livestock management.

OTTAWA SESSIONS REVIEWED

Further changes were planned to carry out to effect further changes and reorganization not only in the personnel of the department of agriculture but more particularly in the approach to farm problems and the carrying out of farm services," he stated.

Russian Peace Drive Is Seen Power Tactic

WASHINGTON (AP)—A panel of foreign policy experts warned Monday night of the danger of new aggression by Red China and said Russia's current peace drive is a tactic aimed at expanding Soviet power.

REORGANIZING PLAN

It was a highlight of the opening day of the two-day annual meeting of the advisory council as the Liberal Party launched its campaign to recapture power.

More effective packaging, delivery and merchandising of potatoes in the near future is seen by Premier Walter R. Shaw

who said last night investigations into these phases are going on at both national and provincial levels.

FURTHER CHANGES

Mr. Shaw said a farm economist would be sent to Ottawa this winter for a closer study of surveys of farms of this province as he stated it was necessary to work out a system of production

HE WAS ENTHUSIASTIC AS WELL OVER THE CONSERVATIVE MEETINGS HELD IN OTTAWA WITH OVER 1,800 DELEGATES REGISTERED.

He was enthusiastic as well over the Conservative meetings held in Ottawa with over 1,800 delegates registered.

TREMENDOUS OVATION

"May I be pardoned," the premier asked, "if I say that I received a tremendous ovation on two or three occasions and particularly on the second dinner meeting when I was one of 25 speakers. Certainly it was a huge program but it was conducted without a dull moment. I was very proud of the reception the island delegates received and of the fine impression these delegates made on the meeting."

PROVINCIAL INTERESTS

"As far as attendance at the meetings of the Conservative party was concerned, all our cabinet ministers and I were very rarely in attendance with the exception of the night sessions. We were in Ottawa specifically to confer with federal ministers on matters involving provincial interests. In this respect I can assure that our representations will bear profitable returns."

Russian Peace Drive Is Seen Power Tactic

WASHINGTON (AP)—A panel of foreign policy experts warned Monday night of the danger of new aggression by Red China and said Russia's current peace drive is a tactic aimed at expanding Soviet power.

It also called on U.S. leaders to stop "jolting along from crisis to crisis" and develop daring and creative foreign policies to help shape a new and peaceful order in world affairs.

greater economic welfare for itself and for its neighbors," the report said, "it might be a cause for rejoicing. In fact, however, supported by propaganda, infiltration and subversion, aided by the implied threat of its military power, the Soviet regime gives every evidence that it hopes to expand until it has gained a clear preponderance of power in the world."

Another move, for a major reorganization of the top body, was proposed in a report from a committee set up by the council last year to study the structure of the federation.

In effect, as proposed, the federation would become the national Liberal Party rather than maintain its present role of a confederation of provincial and other affiliated bodies such as young Liberals and university students.

The massive cost study is a basis of the railways' bid for a government subsidy to offset losses in hauling Prairie grain to export points at freight rates of pre-1900 vintage. With it, the railways calculate their annual losses in export grain shipments at \$65,300,000.

The main topic is expected to be Indian-Pakistani relations. Field Marshal Mohammed Ayub Khan, Pakistani president, said Sunday he would not ask Eisenhower to mediate between India and Pakistan but would emphasize the need to settle differences between the two countries.

President Welcomed By Million Pakistanis

KARACHI, Pakistan (Tuesday) (CP)—President Eisenhower, cheered by 1,000,000 Pakistanis in a welcome he called "tremendous," turns today to talks with the nation's leaders on his mission of peace.

The crowd estimate was made by the secretary of Pakistan's information ministry, and other officials said never before had Pakistanis given such a thunderous reception to a visitor from abroad.

Eisenhower travelled down packed streets Monday to an outpouring of enthusiasm that dwarfed even the reception by 500,000 Turks Sunday at Ankara, second stop on Eisenhower's 22,000-mile journey to 11 lands.

RAIN OF PETALS

Flower petals rained down on the U.S. president as he rode in brilliant sunshine from the air base in an open white convertible. He stood with outstretched arms to acknowledge the cheers and flag-waving.

Thousands of excited children in the crowd cried in shrill voices "Eisenhower Zindabad"—long life Eisenhower. The same slogan was on hundreds of posters.

Eisenhower dined tonight in an exotic starlit setting as Ayub Khan's guest.

Mobile Police Used At Malta

VALLETTA, Malta (Reuters) Special police mobile riot squads Monday were ordered on round-the-clock duty on this island for the visit beginning today of British Colonial Secretary Iain Macleod.

Police commissioner Vivian Degray said extra reinforcements also were standing ready to be flown by helicopter from the nearby island of Gozo should riots break out among Maltese.

SWOLLEN CARGO THROWN OVERBOARD

Much of the cargo of soybeans and soy mash which became soaked and swollen when the Norwegian freighter Vilja ran aground in the St. Lawrence River at Brockville Ont., is dumped overboard as attempts are made to refloat the ship. The vessel, which ripped a hole in its hull when it ran onto a rock, will have to spend the winter in an inland port.
