BALL AND SUPPER IN HONOR OF THE DELEGATES.

WE are glad to perceive that the Government are at last awake to the propriety of doing honour to their Colonial Visitors. They propose giving a Ball and Banquet, at the public expense, on a grand scale, at the Colonial Building, on Thursday evening next. We are informed that no expense will be spared to make it creditable to the Colony; and we hope it will be the means of enabling our friends from the other Colonies to carry away with them the most pleasant recollections, and give them the desire of repeating their visit. We shall give the Government our best assistance in this manifestation of graceful, though tardy hospitality.

HON. MR. McGEE'S LECTURE.—We refer our readers to our advertising columns, where they will perceive that the Hon. T. D'Arcy McGee proposes to lecture at the Catholic Institute to-morrow evening. Mr. McGee is too well known as a Lecturer to require any flourish of trumpets to procure a crowded house to listen to him. The fame of such an orator will attract a stunning audience anywhere.

☞ AMONGST the Colonial visitors now sojourning here, is LEWIS CARVELL, Esq., late Superintendant of the E. & N. A. Railway. A better and more gentlemanly man it would be difficult to find anywhere. Travellers on the Railway line will miss his kindly presence, and the managers of the Railway will miss him more.

☞ OUR indefatigable contemporary of the St. John *Telegraph* has a representative here in the person of one of its ablest editors, MR. MAIN. He is, we believe, the only representative of the outside Colonial press who has come expressly to note the proceedings of the Intercolonial Convention.

The Steamer *Heather Belle*, with a large party on board, to attend a Tea, to be held at Bonshaw on Monday evening last, in aid of a Presbyterian Church there, left Charlottetown on Monday morning, and proceeded to within one and a half mile of the Bridge. The party then landed, and having partaken of Tea, and amused themselves for some hours in rambling about through the delightful fields in that section of the country, embarked again, and returned to town in the evening well pleased with the day's excursion.—*Isl.*

AMERICAN MATTERS.

Details of the battle of the 25th, on the Weldon Railroad, look more and more unfavorable for the Federals. A late despatch says:—

Our loss on Thursday's fight has been ascertained to be about 2000 in the aggregate, and 9 guns, 4 belonging to Brown's Rhode Island battery, and one to McKnight's battery.

A despatch of the 27th states that a steady fire on the 26th was kept up on Dutch Gap, but the work was not interfered with.

The 10th Corps has taken the place of the 18th in front of Petersburg, the 18th taking the position of the 10th corps, near Deep Bottom.

A 13-inch mortar commenced dropping shells every 15 minutes into Petersburg, on the 28th.

Richmond papers say they lost four Generals killed and wounded, in the battle of the 25th. Gen. Early has been ordered back to Richmond.

THE CONFEDERATE RAM 'TENNESSEE.'

Says the Mobile army correspondence of the New York *Tribune*:—

"The rebel ram *Tennessee*, in the extraordinary fight with nearly half our entire fleet, which took place inside the harbor, proved herself one of the most formidable crafts for harbour defence which has ever been constructed, and an inspection of her, which I have been permitted to make, shows with what justice the Rebel Admiral Buchannan claimed that she was able to sink an entire fleet.

"Her hull was originally intended for a man-of-war, and is put together in the most staunch and substantial manner in which it is possible to build a vessel. Her length is about one hundred and eighty feet. In form she varies from the old Merrimac, though evidently a modification of that unfortunate and short-lived craft.

"Her armour consists of two and a half inch iron in bars eight inches wide, crossing each other and bolted down with one and three quarter inch bolts, making 5 inches of solid iron. This again is backed by two feet of solid oak throughout the entire portion of the boat above the water line, and extending some feet even below that. From her forward casemates, including her pilot house, an additional inch of iron is given her, making six inches of plating, and an additional foot, making three feet of wooden backing at this part of the boat.

"Had this craft, with her three wooden consorts, the Selma, the Gaines, and the Morgan, been content to have lain quietly under the guns of Fort Morgan until dark, and have then come out and attacked our fleet with the impetuosity which they displayed as it was, they might, without a shadow of doubt, have succeeded in sinking or destroying half of our ships and gunboats, if not all, as the darkness would have led to our fleet's firing, and running down our own boats, and committing irreparable and fatal injury upon each other.

"The ramming she received from the staunch old Hartford, the Ossipee, the Lackawanna, and the Monongahela, who severally tried to run her down, have caused no seam to open in her unyielding hull, and she is to-day just as sea-worthy as before the fight, and when some of her scars shall have been healed she will do just as effective service for us against foreign enemies as she did against us in the hands of domestic ones. With a few Yankee improvements in non-essentials, she will, I trust, live long to be the glory of the heroic old Commodore who captured her.

FROM ATLANTA.

A despatch of the 29th says:—It is rumoured that General Sherman has moved the position of his army to the vicinity of Red Oak, (10 or 12 miles northwest of Atlanta, on the West Point Railroad) and is moving on Atlanta from the South. It is doubtless his intention to attack the city from several points at once. No official intelligence of any moment has been received as yet.

Gen Gillet, in a fight with the rebel forces at Greenville, East Tennessee, on the 23d, killed forty rebels and drove the force from the town. He lost twenty-five men, among them Col. Carney, mortally wounded.

THE PAKEHA.—We are glad to learn by papers from New Zealand that the brig "Pakeha" with passengers, from this port, arrived at Auckland on the 26th May. A letter received by Mr. J. Bell of this city from his brother, one of the passengers, states that all on board were well and not a spar damaged. We copy the following from the *Southern Cross*:—

THE PAKEHA FROM PRINCE EDWARD ISLAND.—The brig Pakeha, which has been expected for several weeks past, dropped anchor in the harbour on Thursday, May 26. She took her final start from Prince Edward Island on the 22nd December, and made a capital run to Cape de Verde Islands, sighting St. Antonia on the 9th January, being about 40 miles from the land. The equator was crossed on the 24th January, in latitude 0. 25, longitude 22. 23. The S E trades were caught soon after crossing the line, and proved steady but very light until passing the island of Tristan D'Acunha. She arrived at the Cape of Good Hope on the 6th March, and after taking in cargo and passengers, sailed again on the 24th of the same month, with a light breeze and fine clear weather. The easting was run down in about 43 degrees south. Sighted Cape Otway on the 12th, and passed through Bass' Straits on the 14th. The Kings (the first land on the New Zealand coast) were passed on Saturday last, the 21st instant, after a smart run of six days from the Straits. Light baffling winds prevailed down the coast.

The Pakeha is a fine brig of 174 tons, in command of Captain Alexander Campbell, and is owned by Mr. Thomas Williams, sail-maker, Queen Street. She was launched at Prince Edward Island in October last, and is now on her first voyage. Her dimensions are as follows:—Length of keel, 91 feet; width, 22 feet; and depth of hold, 11 feet.

The subjoined is a list of her passengers:—

PASSENGERS—Cabin: Mrs. Campbell, Charles Bell, John Mountain, John Haywood. Second class; George Bagnal, Martha, Lemuel J., Sarah M., William H., Albert E., George E., Richard W., Elizabeth F., Horatio N., Margaret A., and Charles Bagnal; John Darrah: Elizabeth, Malcolm, James S., William, Duncan, Elizabeth, and Janet Ann Darrah; Catherine Robinson; Thomas, Mary D., and Emily Slater; David, Hannah, Annie, William, John D., and Charles Ross; Philip R. Blatch, Thomas Maschon, from Prince Edward Island. She also brings the following passengers from the Cape of Good Hope:—Cabin: James Maxwell. Second class: Mrs. Farrel and child, Robert Thomson; Susan, Mary Ann, and Susan Thomson, George R. Adlow, William Wilson, John Ward.

Money is very scarce at Turin, and the joke of the day is that a man, having planned successfully a robbery of the Italian Treasury, only found a balance of 153 francs.

Sir Robert Peel says that the farmers of Ireland have £14,000 000 sterling in the banks, and despite all that has lately been said and written, there are abundant evidences of the growing prosperity of the country.

A shocking occurrence took place recently in Liverpool. Fifty children were poisoned by eating beans supposed to be of the sort called Calabar, and though in most of the cases the result of the posion was compartively mild, in one instance death resulted.

"Jennie June" is down upon female doctors. She says: "Lady doctors! from such the Lord deliver us; the increase of deaths among women would be frightful. There is a natural viciousness among women toward each other, which is totally incompatible with strict justice and more especially mercy. They would purge, and drug, and blister without feeling the first softening influences from the milk of human kindness within their breasts. Hard and stoney, they would have no sympathy with nervous headaches, general debility, incapacity for exertion, and complete prostration. Women are nearly all treacherous and cruel to each other."

A woman in Brookly prison for beating a child to death, recently died of remorse.

George Francis Train has become one of the Fenian brotherhood. George is a young man of progress.

THE MIGHTY HEALER.

Let not disease, with its fangs, pray upon you, until the cold hand of death hurls you to an untimely grave. Shake of the feeling of despair and hopelessness, so liable to come upon the invalid. The plant born of the Sun, we place within the reach of all. We care not what may be the specific form of the disease. The cause, the fountain of the disease *itself*, is impure blood, and through the different channels of the lungs, the stomach and the vital organs, JUDSON'S MOUNTAIN HERB PILLS will pass, mingling with the blood, search out and grasp and then expel, all hurtful poison that there is in it. Thus cleanse the blood by a few doses of these Pills, and disease, in any form, will dissipate and vanish. As the Sun, with its glorious beams, first causes the morning dew to rise as mist, then growing stronger, casts his burning rays upon it—and behold 'tis gone—so cleanse the blood, and disease, like morning dew, retreats and vanishes. There is no blood purifier equal to JUDSON'S MOUNTAIN HERB PILLS.

Sold by all Dealers in Medicine.

HOLLOWAY'S PILLS AND OINTMENT.—Indigestion, Acidity on the Stomach.—These corrective and purifying Pills, assisted by the external application of the Ointment, will subdue those troublesome disorders, though assuming an infinity of forms, and under each disguise mocking the skill of the wisest physicians. Their first action is to clear away all obstructions, purify the blood, regulate the secretions, and give tone to the stomach, and energy to the system generally. The cure they effect is not temporary or imperfect, but they work a most marvellous and beneficial change throughout the entire body, and enable it, with renovated powers, to resist the approach of future attacks on stomach or liver. They act, likewise, most wholesomely on the kidneys, spleen, bowels, circulation, and nerves.

"A SLIGHT COLD," COUGHS.—Few are aware of the importance of checking a cough or "SLIGHT COLD" in its first stage; that which in the beginning would yield to a mild remedy, if neglected, soon attack the lungs. "Brown's Bronchial Troches" give sure and almost immediate relief. "The Troches" have proved their efficacy by a test of many years, and have received testimonials from eminent men who have used them.

They cure LiverComplaint and Nervous Headache.
They are the best Bitters in the world. They make the weak man strong, and are exhausted nature's great restorer.

The following startling and emphatic statements can be seen at our office.

Letter of Rev. E F. Crane, Chaplain of the 107th New-York Regiment:

NEAR ACQUIA CREEK, March 4th, 1863.

Owing to the great exposure and terrible decomposition after the battle of Antietam, I was utterly prostrated and very sick. My stomach would not retain medicine. An article called Plantation Bitters, prepared by Dr. Drake, of New York, was prescribed to give me strength and an appetite. To my great surprise they gave me immediate relief. Two bottles almost allowed me to join my regiment. * * * * I have since seen them used in many cases, and am free to say, for hospital or private purposes, I know of nothing like them.

REV. E. F. CRANE, Chaplain.

Letter from the Rev. N. E GILDS, St. Clairsville, Pa.:

GENTLEMEN:—You were kind enough, on a former occasion, to send me a half dozen bottles of Plantation Bitters for $3 50. My wife having derived much benefit from the use of these Bitters, I desire her to continue them, and you will please send us six bottles more for the money inclosed.

I am, very truly, yours,
N. E. GILDS, Pastor Ger. Ref. Church.

SOLDIERS' HOME, Superintendent's Office, CINCINNATI, Ohio, Jan. 15th, 1863.

* * * * * * I have given your Plantation Bitters to hundreds of our noble soldiers who stop here, more or less disabled from various causes, and the effect is marvellous and gratifying.

Such a preparation as this is I heartily wish in every family, in every hospital, and at hand on every battle field.

G. W. D. ANDREWS, Superintendent.

Dr. W. A. CHILDS, Surgeon of the Tenth Vermont Regiment, writes:—"I wish every soldier had a bottle of Plantation Bitters. They are the most effective, perfect, and harmless tonic I ever used."

WILLARD'S HOTEL, WASHINGTON, D. C., May 22d, 1863.

GENTLEMEN:—We require another supply of your Plantation Bitters, the popularity of which daily increases with the guests of our house.

Respectfully,
SYKES, CHADWICK & Co.
&c. &c. &c. &c. &c.

Be sure that every bottle bears the fac-simile of our signature on a steel plate label, with our private stamp over the cork.

Advice to the Farmers of P. E. Island.

AS the season for Harvest operations is approaching, and as the crops promise to be unusually abundant, the undersigned begs to remind FARMERS throughout the Island that he has just received an Invoice of his Stock of

Manny's Celebrated and Wonderful Mowing and Reaping Machines,

which save immense time, labor and money to those who use them, as is proved by the well established fact that they will enable a Farmer to save his crops four or five weeks sooner, and at less than half the cost, than he could do the work by the old fashioned Hook and Scythe, now rapidly going out of use, with the older and still more useless Flail. No enterprising or temperance Farmer should be without one of those wonderful Machines; the cost is comparatively trifling, and no man who is able to bear the cost should think of hiring one, as before it came to his turn to hire one of the Machines that might be in his neighbourhood, he would, perhaps, lose the chance of securing or selling his crop to advantage.

The MOWING and REAPING MACHINES were never in greater demand in the United States than at present. The scarcity of manual labor in that country, caused by the number of Farmers killed and wounded in the present War, renders such LABOUR-SAVING MACHINES more desirable than ever, and it will be almost impossible to secure a sufficient supply hereafter for the use of the agriculturists of this Island. NOW IS THE TIME TO SECURE THEM. The undersigned, knowing that they would be in great demand, ordered a considerable number of them for the use of the Farmers of this Island, but could not get more than half he required, which he is prepared to sell for Cash or approved credit, for one or two years, if they are ordered before the 25th inst.

The following Agents will act for the Subscriber in selling those extraordinary and beautiful MACHINES which are so well adapted for saving labour and money; and the Subscriber hopes that they will send their orders immediately and use their best exertions to promote their sale, and thereby advance the best interests of the Colony. The Machines have JUST ARRIVED in the Steamer "COMMERCE," and one of them, together with some patent ploughs, will be on exhibition at the NORTH AMERICAN HOTEL, where an office will be opened for the sale of all such goods, during the season.
