## S'SIDE HONORS ALFRED GROOM

Summerside Mayor J. Ernest Morrison presents Canadian vaulting champion Alf Groom with a handsome trophy on behalf of the citizens of the town for his outstanding achievement this year in breaking the Canadian record.

## Underselling Is Deplored

There is no legal action that can be taken against shippers who sell potatoes below the market price. It was suggested yesterday by Attorney General Melvin McQuaid.

One report complained that one dealer shipped potatoes to Newfoundland for 90 cents per bushel and that others were selling as low as \$1.60 to \$1.65, though the St. John's board of trade urged that no potatoes be sold for less than \$2.00 to \$2.35 per bag.

Both the minister of agriculture and the potato marketing board have urged growers not to undersell the industry which has been having a difficult time with the fight against blight and the threat of poor harvesting weather. If the present wet weather persists.

Regional forecasts: Nova Scotia, Prince Edward Island and New Brunswick: Cloudy with a few sunny periods and widely scattered showers; not much change in temperature; westerly winds 15 with gusts to 25 in afternoon. Low-high at Halifax, Kentville and New Glasgow 53 and 61, Charlottetown and Goshen 53 and 61, Moncton 50 and 60, Fredericton and Saint John 50 and 61, Edmundton 45 and 58, Campbellton 48 and 58, Yarmouth 50 and 58, Sydney 55 and 65.

High tide today at Charlottetown at 2:03 a.m. and 2:55 p.m. At Toronto at 10:08 a.m. and 9:45 p.m. Summerside tide eighteen minutes later than Charlottetown. Sun rises today at 5:44 and sets at 6:04.

## MacNeills Mills Family Suffers Second Blow

MT. PLEASANT—Two disasters within a month and a half have brought grief and hardship to the family of Mr. and Mrs. Leslie Noye of MacNeills Mills whose home and all their possessions was destroyed by fire about midnight yesterday.

The earlier disaster in this family resulted in the death of their six-year-old son who was killed by a car on the highway in front of their home on Aug. 6.

The fire which destroyed their home, located on the western highway opposite the garage of Arnold Rayner, was first observed by a passing motorist who notified Mr. Rayner working in his garage, and he in turn roused the Noye family and enabled Mr. and Mrs. Noye and three children to escape from the small bungalow-type dwelling.

It was consumed by fire before clothing or furniture could be removed.

The fire is believed to have originated as the result of a defective chimney, and there was no insurance on the property.

Mr. Rayner is a self-employed truck driver, and the family are reportedly receiving shelter at the home of his brother, Bernard Noye of MacNeills Mills.

## New Regulations But No Rate Hike

SUMMERSIDE BUREAU OF THE GUARDIAN  
Several new regulations were included in the list of general regulations governing the distribution and sale of electric energy in Summerside, which formed part of a resolution presented by the electric light committee chairman, Councillor George Key, Jr. at the regular council meeting Monday.

Coun. Key explained that the existing regulations require considerable revision to align them with fair and accepted utility practices.

Regarding multiple occupancy premises the regulations now state that "in all new construction of apartments or multi-unit premises and or where premises are remodelled for multiple occupancy, each household shall be provided with a separate meter and be billed under the domestic rate."

Coun. Key added that this does not mean an increase in rates.

"Where more than one household unit, separate establishment and/or multiple apartment dwelling is to be serviced through one meter, the connected load general service rate shall be applied to the meter. Each household unit shall be counted as 1000 watts. The town may, at its option, place the meter in the name of the owner in which case he shall be billed for the service to the premises."

Where premises are used jointly for residential and commercial purposes and service is provided through one meter, the domestic rate shall be applied to the entire premises, provided the connected load in the commercial portion is not greater than 200 watts. If greater than 200 watts, and the service is through a single meter, then the general service rate will be applied to the entire premises.

The regulations also state that since electric meters must

be tested by a federal meter inspector, customers who wish to have their meters tested should write to the department of trade and commerce, electricity and gas inspection service, P. O. Box 811 Charlottetown. If the test proves the meter is measuring correctly the town shall collect \$2.00 from the customer to cover the cost of removing and re-installing the meter. If the test proves the meter is slow the town shall collect \$2.00 to cover removing and re-installation costs and may collect the estimated amount of past underpayment.

If the test proves the meter is fast, there will be no \$2.00 charge and the town shall rebate the estimated amount of past overpayment.

Several other revisions were also provided in the regulations.

| Vancouver | 46   | 68   |
| Calgary   | 41   | 65   |

## Science Now Shrinks Piles Without Pain Or Discomfort

Finds Healing Substance That Relieves Pains And Itching As It Shrinks Hemorrhoids

Toronto, Ont. (Special)—For the first time science has found a new healing substance with the ability to shrink hemorrhoids and to relieve pain and itching. Thousands have been relieved with this inexpensive substance right in the privacy of their own homes without any discomfort or inconvenience.

If one hemorrhoid sore after another is very striking improvement was reported and verified by doctor's observations.

Pain was promptly relieved. And while gently relieving pain, actual reduction or retraction (shrink) took place.

And most amazing of all—this improvement was maintained in cases where doctor's observations were continued over a period of many months!

In fact, results were so thorough
