

Cause of Summer Complaints.

The direct cause of pain and looseness of the bowels is an irritation of the mucous membrane of the same, sufficient to produce excessive peristaltic or worm-like motion in the interior of the bowels, by which means the matter in the bowels is naturally carried through them. This excessive irritation causes more than a natural peristaltic action, and the partially digested food matter is kept constantly passing along and evacuated freely. This is called a diarrhoea; where the irritation is enough to cause bleeding, we have dysentery. Indirect causes of diarrhoea, by which an irritation is started, are intestinal dyspepsia, overeating, unripe or overripe fruit, tainted meats or oysters, etc.; torpor of liver, by which not enough bile is secreted; excessive flow of bile, etc. Treatment:—Thoroughly evacuate the bowels with (say) Parsons' Pills, they are among the best to get rid of all irritating matter. Then take Johnson's Anodyne Liniment in teaspoonful doses diluted with water every four hours, and often if the case is severe. In cases of Asiatic cholera, one teaspoonful should be given every half hour. Thousands of people remember the year 1849, when that worst known epidemic disease spread over this country. Johnson's Anodyne Liniment at that time was but little known outside of the State of Maine. In Bangor, Me., the home of old Dr. Johnson, the cholera got a firm hold—people dying at that small city at the rate of "thirty-six in one day."

Many old citizens of that place look back upon that wholesale death scene even to this late day, and shudder at the pang it cost. Johnson's Anodyne Liniment is now in its full vigour, and they feel that with it at hand cholera cannot again devastate their fair city as in 1849. But for its use at that time by its friends, many would not now live to spread the joyful news that any case of diarrhoea, dysentery, cholera morbus, cholera, or kindred diseases, if taken in season, can be cured by Johnson's Anodyne Liniment. It never yet failed. No matter how well you know this medicine, it will pay you to send to L. S. Johnson & Co., Boston, Mass., for a pamphlet free just to learn how to use the liniment economically. A teaspoonful properly used will often do more good than a half bottle as some people use it.

300 Dots, Cups and Saucers, 2,500 plates, 600 Butter, Cream & Preserve covers, 400 Water jars, 500 bowls, 30 Dinner sets, 80 Tea sets (assorted patterns) 600 Tumblers and goblets now in stock and to arrive will be sold at the cheapest Crockery store—W. P. Colwell.

All Right, 5817.

THIS SPLENDID HORSE is too well known to the breeders of Prince Edward Island to need any puffing. They all know what he is, and what a grand family of trotters and roadsters he has built up in the Maritime Provinces, where his stock have taken high rank, and are every year coming to the front. He is one of the very few horses in the provinces that contributed a representative to the 230 list in 1889, his son Charlie Mitchell having made a record, in a contested race, of 2:28 1/4.
