BASE BALL.—A. J. Spaulding & Bros. have offered pennants to Canadian champion base ball teams for the season of 1893. Each League must consist of four or more clubs and each club must play not less than 12 championship games. The pennants are valued at \$20 each.

CLERGYMAN REMEMBERED.—Before leaving Moncton for Montreal, Rev. Mr. Hinson was presented with two addresses, one on behalf of the church, and the other on behalf of the Sunday school. The young people of the church presented Mr. Hinson with a bible.

A SENSIBLE YOUNG MAN.—A Nova Scotia who was in the city yesterday, and who has spent some time in Boston, said he had come back to take up a farm and settle down to work it. He has become convinced that there is more in the farm than in knocking about among the "sixty millions."—St. John Sun.

COAL MINE FIRE.—A despatch from Sydney, C. B., says: "An extensive fire has occurred at the International mine, Bridgeport. The large expander shop, machine shop and bank of coal are destroyed. A later telegram says the pit head, forge and some other small buildings at International mines were burnt to the ground. The coal bank is on fire, and there are hopes of saving most of the bank. No lives have been lost. This mine is one of those controlled by the Whitney coal syndicate.

WAIT FOR IT.—The music for Mr. Vinnicombe has arrived, and the company are now down to hard work at their studies. It is their intention to make their most popular concert ever given in this city by local talent. One great advantage as regards the music, the public will be able to understand it, as it nearly all contains beautiful, flowing, melodious, perfect gems. The Orchestra will be further improved by adding on more instrumentation. Do not forget the night, 24th of this month at the Lyceum. Further particulars will be given in due season.

THE Mendelssohn Quintette Club, of Boston, which is approaching Oddfellows' Hall to celebrate, has been before the public for many years. During that long period Mr. Ryan, its veteran manager, has assiduously maintained such a standard of excellence, that wherever the company appears newspapers vie with each other in bestowing lavish praise and compliments. Such a uniform and unbroken series of successes is a guarantee from one community to another, the continent over, of thoroughly enjoyable entertainments. Charlottetown is not often favored so highly.

MOC. PARLIAMENT.—The Finance Minister proposed to "save his budget" last evening. He proposed the revenue and expenditure be adjusted by the simple method of paying out of the public treasury only one third of the cost of education and the remaining two thirds upon the school districts respectively. The argument advanced for and against this scheme were in brief: That it is the cheapest that can be put in operation, for the money will be collected by the secretaries of the various school districts; that the money will be expended under the eye of the school trustees and the people will know exactly where it will go and what results it will produce; that being compelled to pay considerable sums for the education of their children the people will appreciate education more highly than they do now, attend to it more carefully and require more satisfactory results than those which are at present obtained; that by this scheme expenditures will be met by expenditures and education will be improved. On the other hand it was argued: That the Government should first cut down the cost of administration and legislation and collect our claims upon Ottawa, and that under the operation of the Government's scheme public education will be impaired or destroyed. The debate was adjourned.

Nineteen Boxes.

BRANTFORD, March 20.—The Expositor last week published an article on the case of Archie Eymont, of this city, which has caused considerable excitement in Brantford and district. It appears Mr. Eymont has had more than his share of suffering during the past few years, so far as he has run down from kidney disease that he had lost the power of his limbs and back. He could only get around with the aid of two crutches, or when assisted by kind hands. His death was daily expected. On the advice of his wife he tried Dodd's Kidney Pills, and took in all nineteen boxes. His improvement was marked from the second box. He is now completely cured, and a living testimony of the curative powers of that wonderful remedy.
