Class Dry Goods Store at the lowest possible prices. Mantle Making, Dress Making and Millinery done on  
the premises.

## LETTERS TO THE EDITOR.

### The Pumping Station.

SIR,—As the contractors for the water-  
works are now fairly under way, and the  
work under both parties progressing favor-  
ably, a few words relative to the Pumping  
Station may not be out of place, and may  
be interesting to the public generally.

The contract having been awarded to  
W. H. Fraser, Esq., he commenced the  
work of excavation about the first week in  
May last, and was progressing very favor-  
ably for about three weeks when the work-  
ing party struck a spring of such magnitude  
that it nearly caused the works to stop; in  
fact, there was such a flow of water that  
many of the knowing ones predicted that  
the well would never be sunk to the depth  
required. But the contractor, despite the  
opinions of all the would-be wise ones, at  
once saw the difficulties that surrounded  
him, and (heedless of expense) immediately  
sent L. Deegan and secured the services of  
a gentleman who had made this particular  
work a study for more than a quarter of a  
century. A few days after, Mr. Field (the  
gentleman referred to) arrived, and at  
once went to work, and in a very short  
time had the well thoroughly secured and  
the water under control.

From that time the work went on  
steadily, surprising the many who had so  
freely volunteered their opinion that the  
well could never be sunk to the depth re-  
quired. But at last the desired object was  
accomplished, and the foundation stone of  
the pumping wells was successfully laid on  
the 17th inst.

I may say it was not until then that  
work fairly commenced. Mr. Fraser lost  
no time, but at once set on bricklayers and  
mason, increased the number of laborers,  
and has at the present time no less than  
from fifty to sixty hands employed. The  
stone and brick work has progressed so  
rapidly that citizens and strangers who  
visit the wells are really astonished, and  
the false prophets actually hand their heads.  
Mr. Fraser has also reached the required  
depth of the second well, and should no  
mishap occur, it will be commenced to  
be walled in a few days. It would repay  
citizens who take an interest in the ad-  
vancement of the city (the waterworks es-  
pecially) to pay a visit to the wells, as it is  
only a short drive from the city, thereby  
giving expression of their satisfaction to  
the manner in which Mr. Fraser is carry-  
ing out his contract.

As the visitor enters the grounds, the  
scene presents quite a lively appearance.  
The men are all busily engaged, and look  
the picture of health. I am informed that  
it would be hard to find a more steady,  
sober and hard working lot of men; they all  
speak well of those who have been placed  
in authority over them, more especially the  
contractor. This speaks volumes for all  
engaged.

Since writing the above, four holes have  
been bored at the bottom of the well, and  
a very copious supply of water has been  
found at a depth of about 4 1/2 feet. It is at  
present undecided whether the well will be  
sunk to that depth or not.

By giving insertion to the above you may  
be benefitting the citizens who cannot  
spare time to visit the wells, and at the  
same time oblige

Yours, &c.,  
AQUA PURA.

### Personal.

The *Moniteur Acadien* publishes the fol-  
lowing list of the ages of the principal  
public men in Canada, which may gain a  
place in somebody's scrap book:—

### ADVICE TO MOTHERS.—Mrs. Winslow's

Soothing Syrup should always be used when  
children are cutting teeth. It relieves the  
little sufferer at once; it produces natural  
quiet sleep by relieving the child from pain,  
and the little cherub awakes as "bright as a  
button." It is very pleasant to taste. It  
soothes the child, softens the gums, allays all  
pain, relieves wind, regulates the bowels, and  
is the best known remedy for diarrhoea,  
whether arising from teething or other  
causes. Twenty-five cents a bottle. Be  
sure and ask for Mrs. Winslow's Soothing  
Syrup, and take no other kind. [April 1 '88

The ter-centenary of the destruction of the  
Spanish armada was observed at Plymouth  
yesterday with appropriate ceremonies.

The lumber cut of the Ottawa mills is ex-  
pected to reach 400,000,000 feet this season—  
an increase of 32 per cent. over last year.

## Interprovincial Coal Trade.

The Montreal correspondent of the To-  
ronto *Empire* has been interviewing the  
coal dealers there in reference to Nova  
Scotia coal and has ascertained that there  
are this year 29 steamers engaged in the  
trade, which scarcely existed, as far as the  
upper provinces are concerned, twelve years  
ago. These ships carry from 1,200 to 3,000  
tons of coal and make the round trip in ten  
or twelve days. There will certainly be no  
falling off in the total amount received the  
present year. Last year's importations ex-  
ceeded 1886 by over 100,000 tons, and a  
gentleman who has watched the traffic says  
he will not be surprised if the returns show  
that over 700,000 tons of Nova Scotia coal  
will have been brought into the Province  
of Quebec this season.

And the Halifax *Herald* says: In 1873,  
the year the Mackenzie government came  
into power, the sales of Nova Scotia coal  
in the Upper Provinces amounted to 187-  
067 tons. In 1878, the year that govern-  
ment went out of power, the sales of Nova  
Scotia coal to the Upper Provinces only  
amounted to 83,710 tons. Last year there  
were no less than 659,858 tons. And this  
year it is estimated they will exceed 700,000  
tons.

It is no wonder that coal counties like  
Cumberland, Pictou and Cape Breton evince  
a strong aversion to Brit candidates.  
They have good reason to stand by the men  
that stand by the National Policy.

## Complex Family Relations.

The way people can mix up themselves and  
their relations in the matter of marriage was  
perhaps never better illustrated than in the  
case of a backwoods Maine family, of which a  
correspondent writes:

A father, son and grandson married three  
sisters.

That looks simple enough, doesn't it?

It hasn't dawned on you yet.

Well, see here:

1. Amos, the father, married Abigail.
2. Benjamin, son of Amos, married Betsey.
3. Charles, son of Benjamin, married Car-  
oline.

What then?

Amos is a brother to his son.

Amos is grandfather to his daughter.

Amos is grandfather to his sister.

Amos is father to his grandson.

Amos is his own grandfather, his own son,  
and brother-in-law to himself.

Benjamin is brother to his father.

Benjamin is brother to his son.

Benjamin is brother to his mother.

Benjamin is brother to his daughter.

Benjamin is the son of his sister.

Benjamin is the husband of his sister.

Charles is brother to his father.

Charles is brother to his grandfather.

Charles is brother to his mother.

Charles is brother to his grandmother.

Charles is grandnephew to his wife.

Charles is grandchild to his aunt.

Charles is married to another aunt.

Charles is the son of his aunt.

Charles is the husband of his sister.

## Canned Goods.

The fact that canned goods are cooked  
goods cannot be too widely known or  
carefully remembered by users. They are  
not put up in vessels from which they are  
to be eaten when convenient to consumers,  
but are only packed in tins in order to  
preserve them. No canned goods are  
warranted to keep fresh and remain sound  
for any number of days after being opened.  
When opened, the contents of the tin  
should be immediately turned out and  
eaten as soon as possible. If the food must  
be kept at all, cover it up and keep it in a  
cool place. Turn it out of the original tin  
into a dish. The liquor around lobsters,  
salmon, and all vegetables excepting  
tomatoes, it is desirable to strain off and  
throw away. Lobsters and prawns are im-  
proved by being turned out into a sieve  
and rinsed with clean, cold water. Never  
on any account add vinegar sauce or any  
kind of condiment to tinned goods while  
they are in the tins, and never leave such  
mixtures to remain more than an hour or  
two, if from forgetfulness it is done. All  
tinned goods are put up as fresh as it is  
possible to be, but unless corned or salted  
will not keep after opening as freshly  
cooked goods will, and certainly not longer  
as many thoughtlessly suppose or expect  
they will. If the nose and eyes are  
properly used it is impossible to partake  
of an unsound tin of canned food of  
any kind as to partake of bad meat, fish or  
vegetables from a shop.

## Sunny Husbands.

Very much has been said about the obli-  
gation of wives in regard to wearing per-  
petual smiles, but it seems as if our literary  
talents have never once thought it worth  
while for the "man of the house" occasion-  
ally to don a smile when at home in his own  
family circle.

It is certainly just as essential to domestic  
happiness for a man to be sunny and good-  
tempered as it is for the woman.

We often doubt whether the male head  
of a family really appreciates the opportu-  
nity he has for diffusing sunshine at home,  
or comprehends how much of gloom he can  
bring into the family circle by entering its  
sacred precincts with a frown on his coun-  
tenance. The wife and mother is within  
four walls from morning until night, with  
but few exceptions, and must bear the  
worment of fretful children, inefficient  
servants, weak nerves and many other per-  
plexities; and she must do this, day after  
day, while the husband goes out from these  
petty details of home care, has the benefit  
of the pure, fresh air, meets with friends,  
has a social, good time, which altogether  
act as a charm on the physical man, and, if  
he does as he should, he will come home  
cheerful and buoyant, and thereby lighten  
the household life for his wife, and drive  
dull care and gloom from her care-worn  
brow. Some men can be all smiles away  
from home, but at home they are cross as  
beats; and yet we hear it said, on every  
side: "Wives, meet your husbands with a  
smile."
