

PSYCH CLUB NEWS

The UPEI Psychology Club has been underway for quite some time now. I have been trying to get an article in the paper for a couple of weeks but each time something seems to have happened either at my end or at the paper's end, so hopefully this time it will happen. That was a bit of information for the Psychology students who wondered what was going on. Anyway, on to more important stuff, our upcoming events:

Oct. 16 was meet your prof. afternoon in the psych lounge, a good time was held by all.

Oct. 29 Hallowe'en Party!! In the Psych lounge, basement of Memorial at the 8:30 p.m. All Psych students are invited! You MUST dress up!

Oct. 30 The Department will have a meeting discussing the numbers getting into the Psych major program. So anyone who hasn't gotten in yet don't despair!

Nov. 5 PUB! Our pub will be held at the Barn with either Phase II or The Strings playing. We haven't as of yet decided which one.

Nov. 13 Graduate Info. Day. In the Psych lounge for anyone who does not know what to do with a B.A. in Psychology after graduating.

That ends the list of events so far. Our volleyball challenge has been accepted by the Modern Languages Club and the Biology Club. Rumour has it the Biology Club doesn't think they need to practice. I don't know, guys, maybe you should rethink that! If anyone else want to accept our challenge just call Darlene 368-7292. We want to set up a tournament but we need more teams.

Our next meeting will be held on Oct. 28 in the Psych lounge located in the basement of Memorial.

To end my bleep here, I would like to congratulate the Engineering Society on taking a stand in the alleged sexual assault case. The Psychology Club would like to extend to the victim of this heinous crime our support as well. We would also like to say that our attention should be focused on the victim, toward helping her deal with the situation, toward catching the perpetrator (s) and towards making the campus a safe place.
