IF THE ABOVE LINES, when looked at from a distance of about twelve feet,  
appear irregular or of unequal distinctness, your eyes need glasses for astigmatism.  
Such lenses we have made to order from optical measurement of each eye  
with finely adjusted instruments.  
Persons who cannot read easily by artificial light ought to correct their sight by a  
properly fitting Spectacle. It is just as much of a mistake to go too long without  
glasses as it is to use them too strong. To avoid either error, call and have your  
eyes tested. We keep the largest assortment of Spectacles and Eyeglasses in the  
Province.

### To the Electors of Char- lottetown, Common and Royalty.

GENTLEMEN,—Thanking you for the  
liberal support you have given me in  
the last three General Elections, and having  
again been nominated a candidate for the  
representation of your interests in the House  
of Assembly, I now seek your suffrages.  
After the promotion of the Hon. W. W.  
Sullivan to a seat on the Supreme Court  
Bench of this Province, His Honor the  
Lieutenant-Governor entrusted me with the  
formation of a Government.

Having accomplished the formation of a  
Government, it was deemed proper, in view of  
the number of partial elections required to be  
held in consequence of the vacancies created  
and the nearness of the completion of the term  
of the present Parliament, to consult the  
electors by means of a General Election before  
entering on new legislation.

Agriculture being the main industry of the  
Province, measures will be adopted which  
will best render the labor of the husbandman  
remunerative, by increasing the aid given to  
the Annual Exhibitions, by the importation of  
improved stock, and by providing instruction  
on Agricultural Chemistry and a course of  
popular lectures on agricultural subjects.

In order to give greater shipping facilities,  
and until the Dominion Government shall  
have taken over all the wharves that became  
the property of the Dominion Government at  
the time of Confederation, it is our policy to  
keep in repair such of them as are essential to  
the trade of the locality where they are  
respectively built.

As in the past, our policy is to vigorously  
press to a settlement our claims against the  
Federal Government.

Rigorous economy will be practiced in the  
expenditure of public money, while at the  
same time liberal provision will be made for  
the public service.

Pending the adjustment of our claims against  
the Federal Government, our annual resources  
may not be sufficient to carry out the proposals  
indicated, and at the same time provide for  
the large expenditure required for our educa-  
tional system. In that case, such measures to  
supplement our revenue will be adopted as  
will bear the least heavily on the people, and  
will at the same time be just and equitable.

Changes will be made in the public service  
in order to secure efficiency and greater  
security to the public interests.

I have the honor to be, Gentlemen,  
Your obedient servant,  
NEIL McLEOD.

AMERICAN BALDWIN APPLES are  
now at their best, and, as everyone  
knows, this Apple is of the finest flavor, good  
baked, stewed, made into pies, or for eating  
when raw.

We need not remind you how beneficial to  
health it is to eat Apples with your meals, nor  
how much the children's health will be pro-  
moted by a generous supply of Apples.  
Everyone knows or ought to know.

Fruit is cheaper than medicine (and tastes  
nicer.) The next point is to get good Apples.  
WE HAVE THEM (Choice Maine Baldwins)  
and we sell by the dozen, peck, bushel or bar-  
rel, as you may desire.

About price. This depends on how good  
they are. We have them for \$2.00 per bar-  
rel,—good for the price. Our best stock of  
No. 1 Fruit is \$3.50, \$3.75 and \$4.00 per  
barrel. We claim that our \$4.00 Apples beat  
anything in the city.

This is all we have to say. It is for you to  
do your part. We can only offer the goods.  
It takes two to make a bargain.

### LETTERS TO THE EDITOR.

#### Mr. Sutherland's "Devises."

SIR,—I notice in the *Patriot* of the 16th  
a short letter signed by "John McKenna,"  
Victoria, contradicting an "item" which ap-  
peared in THE EXAMINER of the 10th inst.,  
in reference to a visit paid by J. M. Suther-  
land, Esq., and a boon companion from the  
city, to a prominent politician of the North  
Melville Road, on or about the first of the  
New Year. Since reading the letter signed  
by Mr. McKenna, I have made enquiries  
regarding the truthfulness of the "item"  
referred to, and I can assure you, Mr.  
Editor, (on the very best authority) that  
every statement it contained was true, and  
yet "the half hath not been told." Mr.  
Sutherland's trip north is the most amus-  
ing incident that has occurred in local  
politics for some time. It has excited the  
laughter of all acquainted with the facts,  
and even grave and sober Grits have been  
known to smile at the narration of the de-  
tails of the trip, but of course they smile  
more in pity than in anger. I am told  
that as the "cutter" slowly wended its  
way over the picturesque hills of Lot 30,  
the children clapped their hands in glee  
exclaiming, "Santa Claus is coming," and  
rushed to the roadside, where they stood  
watching in eager amazement the two  
strange-looking, furred occupants of the  
sleigh. But alas, their expectations were  
not rewarded by even a "Sium Jim." The  
"cutter" was not loaded with "goodies,"  
in the old fashioned "Krit Kringle" style,  
but with something far more precious—  
almost akin to nectar from the gods. I am  
sure a sweet, sardonic smile illumined the  
child-like countenance of Mr. Sutherland  
as he contemplated how a few judicious  
doses of the nectar at his feet would fire the  
zeal, and nerve the arms of his dependent  
followers for the approaching life and death  
struggle with the terrible Liberal-Conserva-  
tives. It appears that our "village blacksmith"  
and his brother "Snuidy," from Hampton,  
with keen olfactory bugles sniffed the de-  
licious odor from afar, and following these  
unerring guides, soon reached the Eldorado  
of their hopes. Here I will draw the  
mantle of charity over the proceedings, and  
take Mr. McKenna's version. He says he  
saw no sign of the "exhilarating fluid," all  
withdrew at an early hour, and those who  
went to the meeting as Mr. Sutherland's  
opponents, returned home his friends.

What a marvellous conversion! Nothing  
like it since the days of the good St. Paul!  
Pray, Mr. McKenna, was it the "exhilarat-  
ing fluid," the eloquence or the music that  
produced this wonderful change? What a  
libel on the character of the electors of the  
North Melville Road! The truth of matter is,  
the electors of the North Melville Road are  
too independent and too intelligent a body  
of men to be influenced by even a whole hog-  
head of "mountain dew," and too shrewd  
not to see through the little schemes and  
petty dodges of wily politicians. No doubt  
they withdrew from the meeting at an  
early hour, laughing at the simplicity of the  
lawyer's contrivance to catch votes. Had  
Mr. Sutherland distributed dolls and spin-  
ning tops among the children, and even  
kissed the "wee bairns" in the cradle in the  
regular orthodox fashion of politicians of  
his school, his conduct might be pardon-  
able, but when he imagined that a  
"drop of the craythure" was the "open  
sesame" to the hearts and votes of the free  
and intelligent electors of North Melville  
Road, he made a most egregious blunder.

No wonder many respectable Liberals are  
heartily ashamed of the humiliating spec-  
tacle which their late representative is mak-  
ing of himself through the District in his  
eagerness to catch votes. Hence the nec-  
essary for contradicting a truthful account  
of his meanderings I would, however,  
advise Mr. Sutherland to restrain his in-  
judicious friends from rushing into print in  
his defence, as in their clumsy attempts to  
"whitewash" him they only cover him  
with soot. But perhaps, after all, the ob-  
ject of Mr. Sutherland's weary pilgrimage  
to the north was not to catch votes. Per-  
haps his mission was to enter into an agree-  
ment with our "village blacksmith" and  
the little Hampton Cyclop to forge thun-  
derbolts for grim Grit warriors to hurl at  
the heads of unfortunate Liberal-Conserva-  
tives on election day; or is it possible that  
Mr. Sutherland and his city friend are such  
ardent lovers of choice music, artistically  
rendered, that they came all the way from  
Charlottetown to hear the musical prodigy  
of Victoria execute some of his soul-stirring  
airs on his "ould bathered-out tam-  
bourine."

ELECTOR.  
Victoria, Lot 29, Jan. 18, 1890.

#### Deadly Electricity.

A HORSE AND MAN KILLED AT NEWBURG.

A Newburg, N. Y., despatch of the 20th  
says: This morning at 6 o'clock a man tied  
his horse to an awning post on Water  
Street and went away. A few minutes  
later the horse touched the iron post and  
fell into the gutter like a log. Thomas  
Dawson ran to help the horse, but no  
sooner had he placed his hands on the  
animal than he (Dawson) fell dead. Thomas  
Saltz hastened to his assistance and took  
hold of him to lift him up, but received  
a terrible shock, and he too was dropped to  
the ground. An arc electric light wire had  
sagged and lay upon the iron rod extend-  
ing from an awning post to the building  
and the full force of the electric current  
was passing down the iron post into the  
ground. The insulating material of wire  
had become thoroughly saturated by rain.  
Saltz revived.

#### A Mean, Cowardly Affair,

BY WHICH AN INNOCENT GIRL SUFFERS—  
GUNPOWDER PUT INTO A STOVE  
—BY A FRIEND.

Fletcher Richard, a young man residing  
at East Medway, near Cherry Hill, Lunenburg  
County, N. S., placed some house furni-  
ture in an uninhabited house owned by  
Stephen Conrod, Jr., of the same place.  
On Friday, 19th inst., Miss Jennima Con-  
rod, who was to be married in a few days  
time, went to the said house with her  
brother for the purpose of polishing the  
parlor stove. She proceeded to make a fire  
in the stove, and in the act of doing so a  
powder explosion immediately occurred,  
bursting the stove and burning the girl's  
face badly, and setting on fire a woollen  
shirt which she had used as a hood, it  
being a very cold day. This same hood  
was the means of saving a good head of  
hair and a good deal more injury to her  
face, her brother tearing off the burning  
hood and putting out the fire. The girl is  
now at her home confined to her room,  
under the care of a loving mother and sis-  
ters, who think that in the course of a few  
weeks she will be able to take her part in  
the happy event that the foregoing occur-  
rence delayed.

#### Teach Children Farming.

MAINE GRANGERS WANT IT TAUGHT IN THE  
PUBLIC SCHOOLS.

An Augusta, Me., despatch of the 18th  
says: At the meeting of the State Board  
of Agriculture to-day, Prof. Ballentine dis-  
cussed the subject of education, holding  
that some work now done in the common  
school should be dispensed with, and the  
boys and girls taught the principal forma-  
tions of plant growth. B. W. McKenna,  
President, M. C. Fernald, Secretary Gilbert,  
B. A. Barr, E. W. Stevenson and Dr. G.  
M. Twitchell emphasized the necessity of  
immediate action, looking to the introduc-  
tion of text-books treating the science of  
agriculture. The executive committee,  
with the secretary, were directed to act in  
conjunction with the committee on the  
State Grange to introduce such agricul-  
tural education into the schools. The  
question of increasing the appropriation  
from the State for improvements of agricul-  
ture was discussed at length.

#### The Johnstown Flood.

MEETING OF THE RELIEF COMMISSION—741  
UNCLAIMED DEAD.

A meeting of the Johnstown flood relief  
commission was held in Philadelphia on the  
16th inst. Arrangements have been  
perfected with the Girard Life Insurance  
Annuity and Trust Company for an ad-  
ministration of the annuity fund, whereby  
322 children under 16 years, orphaned by  
the Conemaugh flood, will each receive \$50  
annually until they reach 16 years. The  
sum appropriated for this purpose is \$175,-  
000. It was decided to appropriate \$10,000  
for the erection of a hospital in John-  
stown. Five thousand dollars was appro-  
priated for hospital purposes in Williams-  
port. The secretary's report showed 116  
women, widowed by the Johnstown flood,  
had been paid \$179,471, and will receive  
\$92,250 more for children in annual pay-  
ments. The report estimated that there  
were drowned in the Conemaugh valley  
2,289 persons; number of bodies recovered,  
1,665; identified, 1,021. Unclaimed dead,  
numbering 741, were buried in Grand View  
cemetery.

#### News Notes.

The star of Bethlehem is again to be  
visible in this year, being its seventh ap-  
pearance since the birth of Christ. It  
comes once in 345 years, and is of won-  
derous brilliancy for the space of three  
weeks, then it wanes and disappears after  
17 months. It will be a sixth star added  
to the five fixed stars in the constellation  
Cassiopeia while it remains in sight.

It has been discovered that the 110-ton  
guns carried by the 10,000 ton man-of-war  
Benbow, of the Mediterranean fleet, are  
entirely worthless for the purpose for which  
they were designed. This was intimated  
some time ago by Postmaster-General  
Raikes, who took occasion, in a speech a  
day or two ago, to denounce the further  
expenditure of money in their construction.  
The statements concerning the guns  
now put forth by naval experts confirm  
the assertions of Mr. Raikes and have  
greatly depressed the enthusiasts who ad-  
vocated their construction.
