Tribute To Late Judge C. G. Duffy Given In Court Here

A tribute to the learning and legal contribution of late Judge Charles Gavan Duffy, was delivered at Tuesday's sitting of the Queens County Court, by the late jurist's successor in office, Judge C. St. Clair Trainor, Judge Duffy, who died on March 14th, presided in Queens County Court for almost 20 years. Judge Trainor reviewed the career of the late Judge Duffy, particularly in the legal field. In conclusion he said: "He was a deep student and had a very ready knowledge of the law and was most successful in the trial of bankruptcy cases. On the bench he seldom reserved judgments and his attitude was never indecisive, but very few of his judgments were ever reversed on appeal.

"Judge Duffy's contribution to society was not confined to the teaching and legal fields alone. In his earlier years, he was a member of a Charlottetown debating club in which he became a recognized debater and an authority on parliamentary procedure. Consequently there was little wonder that, on his election to the Legislature in 1919, he was chosen to be speaker of that body although he had never previously occupied a seat therein. "In the discharge of the duties of that office, he had no superior and few, if any, equals. It is worth noting that, in 1922, he was instrumental in revising and consolidating the Rules of Procedure of the Provincial Legislature. And so thorough was he in that task that, after a lapse of 36 years, those rules still remain with but two minor amendments. "In the four score and three years of his life, Charles Gavan Duffy, teacher, legislator and jurist, has made a worthy con-

tribution to the public life of this Province.

Pirates Of Penzance Plays To Second Capacity House

The Prince of Wales College Chorus' splendid production of "The Pirates of Penzance" packed them in last evening for the second of a three-night stand. An enthusiastic audience applauded the sparkling numbers, witty dialogue, and spectacular stage settings and costumes. This show is a splendid training for the participants. Under Miss Lillian MacKenzie's skilful guidance they have had a unique experience in music and stage technique. It is notable that the cast of "The Mikado" and "Trial By Jury", the chorus' previous shows, have taken their experience with them to other institutions. Several of them have appeared in Dalhousie and Mount Allison productions and they sent a telegram of good wishes to Dr. MacKinnon on the opening night. "The Pirates" is a tremendous undertaking, and the necessary leadership has been given by four partners. Miss MacKenzie, the director, whose skill at the podium is receiving widespread acclaim, has worked wonders

with the large cast. Miss Eleanor Lowe, art instructor at the College, has painted magnificent scenery which sets the whole atmosphere of the show and delights the audience. Mr. R. G. White has directed the staging and turned the college auditorium into an opera house for the occasion. Dr. Frank MacKinnon has been the producer, responsible for business management and the numerous details involved in such a production. The make-up of the cast was superb, the girls looking fresh and beautiful and the boys looking ferocious as pirates and efficient as policemen. The make-up department comprises Mr. and Mrs. Barry Bugden and a group from the Little Theatre. The third and final performance takes place tonight.

The Family That Can't Fight Back

"Living like a king" includes losing the right to defend yourself against criticism. When Lord Altrincham made his sensational attack on the Queen, charging that her speaking voice was a "pain in the neck," that her radio personality was that of a "priggish schoolgirl," there could be no direct reply. Others criticize the Queen's clothes, her friends, her fondness for races. Are these charges fair? What is done about them? Read in Weekend Magazine what a reporter close to royal circles says in defense of the family that can't fight back.
