PM AND PREMIERS AT POWER GRID CONFERENCE

Prime Minister Diefenbaker (centre) chats with premiers at the opening of a national power grid conference in Ottawa this week. Mr. Bennett is also holding discussion on the Columbia River stalemate with Bennett of British Columbia (left) and Roblin of Manitoba Finance Minister Fleming.

EICHMAN TRANSFERRED

JERUSALEM (AP) — Adolf Eichmann was moved in strictest secrecy Wednesday from his prison cell near Tel Aviv to the Jerusalem court building where his appeal against a death sentence will be heard today. The former Nazi officer, convicted of complicity in the slaughter of 6,000,000 Jews, was taken before dawn to the same quarters where he lived during his four-month trial last year.

The power grid conference adjourned to meet later. In the meantime Quebec which was not represented, will be invited to participate. (CP Photo)

Canada's Proposals Endorsed At Geneva

By ALAN HARVEY

GENEVA (CP) — Canada's seven-point proposal for reconciling rival East-West plans on disarmament won general endorsement Tuesday at the fifth plenary session of the Geneva conference.

Swedish Foreign Minister Unden gave the Canadian initiative what one conference source called a "fulsome" welcome. Britain's Foreign Secretary Home and Indian Foreign Minister Krishna Menon also gave it favorable reference.

But the Canadian formula, which consists basically of trying to pick out points of possible agreement, is only one of a welter of proposals advanced in the sessions.

A Canadian delegation source said nevertheless it would be fair to say that most countries were taking the Canadian proposal as their point of reference in advancing suggestions for working procedure.

'SOMETHING IN THE AIR'

In this second week of the conference, there was no definite indication of any budge in East-West positions, but there seemed to be a feeling that there is "something in the air." Green, emerging from a luncheon given by Carlo Russo, undersecretary at the Italian foreign office, told a reporter he remains "very hopeful" about the outcome.

Old hands at conferences are saying this one might produce something because the various pressures for agreement are greater than they ever have been.

The decision that the Big Three nuclear powers are to resume test - ban negotiations in a conference subcommittee brought pleasure to the Canadian delegation.

The effect of the move is that the test ban talks will be brought under the conference umbrella. Up to now the Big Three exchanges have been on the fringes of the conference, and delegates have not yet even received a report of Russo-American exchanges made public outside the conference last Thursday.

SOME FLEXIBILITY

In addition the deadlock on test bans has tended to give the impression the disarmament conference itself is bogged down.

Green had dinner Monday night as a guest of Sweden with U.S. State Secretary Rusk and Soviet Foreign Minister Gromyko. Green said the Russian minister gave signs of a "certain amount of flexibility" in a discussion on a wide range of problems.

Gromyko showed a touch of wit. When Green greeted him by saying, "Hello, Mr. Co - Chairman," Gromyko replied smiling:

"Hello, Mr. Ex-Chairman."

Green was conference chairman Thursday under a rotating system. Gromyko is one of the two permanent chairmen.

Life Insurance Sales Increase

OTTAWA (CP) — New life insurance policies issued by federally - registered life insurance companies in Canada increased by more than seven per cent last year, a preliminary report showed Wednesday.

A total $6,113,000,000 in new life insurance was written in 1961, an increase of $420,000,000 over 1960, K. R. MacGregor, superintendent of insurance reported.

At year's end $48,291,000,000 in life insurance was in force, an increase of $3,642,000,000 or 8.16 per cent over the amount at the end of 1960.

Life insurance companies had net premium income last year of $771,000,000 compared with $729,000,000 in 1960, and annuity payments increased to $198,000,000 from $178,000,000.

APPROVE RECORD BUDGET

TORONTO (CP) — Metropolitan Toronto council debated 12 hours Tuesday night and early Wednesday before approving a record $94,407,232 current expenditure budget. Metro Chairman William Allen said after the vote that the budget will mean a $3.30 increase in taxes for all Metro homes assessed at the average of $5,000. The budget does not include a record expenditure of $82,356,025 approved earlier by the metro school board.

P.E.I. Union Membership Said Increasing Rapidly

P.E.I. is considered to have the highest per capita membership in labor unions of any province in Canada, with some 1,000 members in all. Labor Minister Henry Wedge said in the legislature.

Twenty-nine separate locals have been certified from Alberton to Souris, with four percent of the overall population paying dues to unions. Growth shows no signs of stopping, he added.

The minister made the statement as he spoke of the Industrial Relations Bill which will replace the old Trade Union Act which was passed originally in 1951.

Objects of the new act, he said, are to:

Provide an efficient and concise foundation for labor-management relations in the province;

Provide labor with a blue print of its rights and obligations in the light of present day conditions, and to provide management with the safe guards which experience here and elsewhere have shown to be necessary.

The new act was evolved after a study of conditions across the country. It is based on the Nova Scotia but is adapted to fit problems peculiar to this province by incorporating features from the acts of several other provinces, it was explained.

SPACE AGE

The first four years of the space age saw the Soviet Union and the United States successfully launch 70 successful satellites and space probes.

Accident Prevention Meeting Attracts General Attention

By FORBES RHUDE
Canadian Press Business Editor

Conventions, business courses and comments upon about every facet of Canadian economic enterprise, feature the current daily run of business news.

The Industrial Accident Prevention Associations will hold its annual conference in Toronto April 16-17.

While the organization is an Ontario one, its annual meetings are regarded as Canada's biggest safety show and attract safety men from across the country, and also from the United States and overseas. Discussion topics will include the following:

Safety belts in automobiles; "slips and falls," a major injury cause; harmful industrial noise; fires and explosions; and getting employees back to work as soon as possible after an injury, if light work is available.

More than 50 Canadian, American and British firms will demonstrate products designed for accident prevention and treatment of industrial health hazards.

Membership in the organization includes 29,000 industrial firms and 15,000 retail businesses with about 850,000 employees in such diverse classifications as fashion models and machinists.

Other approaching meetings in Toronto include:

Eddy Products manufacturers of Canada April 2-3; Association of Canadian Advertisers April 30-May 2, with about 2,500 Canadian and American marketing men expected to attend; Canadian Retail Federation May 29. The Canadian Insitute of Steel Construction meets at the Seigniory Club, near Montebello, Que., May 11-12.

The school of business of the University of Toronto announces an executive seminar June 17-22 with the theme "Business Policy in a Changing Society." It will be "a live-in conference for senior managers in business or public administration," and discussion leaders are drawn from business, labor and the university. Topics include:

Trends and policies in the Canadian economy; secondary manufacturing industries; combines legislation; financing the cost of government; future of collective bargaining; industrial relations; and morality and business behavior.

The school of business of Queen's University will hold its three-week executive summer school at Kingston June 11-29, "designed primarily for men at middle and senior levels of management."

Quotation from recent addresses by Karl E. Scott, president, Ford Motor Company of Canada Ltd.:

"The highway ahead for us is not smooth-paved nor straight; but neigher is it for the Americans, British, French, Belgians, Scandinavians, West Germans, Italians and the others.

"Within the next five to 10 years Canadians who earn their livelihoods in manufacturing industries must choose between corporate and government policies, methods and regulations, that will either open the door for us to 450,000,000 potential customers in the United States and Western Europe, or lock ourselves into the relatively small, slow-growing market of 18,000,000 'homeland' customers.

Plant At Granby Closes In April

GRANBY, Que. (CP) — The Nordic Hose Company will close its plant here April 15 and move to Hamilton where it will be absorbed in other plants of the parent National Hosiery Limited it was learned Wednesday.

The plant, opened here 34 years ago, employed about 75 persons.

FOUR CHILDREN PERISH

CHICAGO (AP) — Four small children perished early Tuesday in a fire that broke out in the living room of their apartment home on Chicago's south side. Three other children were taken to safety by their parents, Mr. and Mrs. Joseph Heard. The victims were identified as Diane, 6, Valerie, 3, Ricky, 3, and Michael, 4.

Obviously, this will not be an easy, overnight choice."

FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. Hold false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor breath". Get FASTEETH at drug counters everywhere.

TUBELESS — $2 extra (most sizes) Tire Installation—50c extra
Road Hazard Insurance Plus 2-Year Guarantee

What worries you most about travelling at highway speeds — legal or otherwise? The possibility of a tire blow-out? That's one worry you can forget, according to the evidence of safety piled up by the amazing new Super-Lastic Twin-Ply Nylon . . .

• HERE ARE THE FACTS — Super-Lastic TWIN-PLY NYLON is SO SAFE that millions of miles of driving on over 100,000 of these tires in the past test year have not produced a single, solitary reported case of a blowout . . . And less than 1/100th of 1% showed bruise damage after driving over the roughest, toughest roads.

• DOUBLE-STRENGTH TWIN-PLY NYLON — contains by weight the same amount of finest DuPont Nylon Tire Cord, but by being twice as big, is twice as strong as the tire cord used in conventional tire building. This new method allows the production of a tire that is "ALL MUSCLE" — like a well-trained athlete, so completely flexible and ready to respond instantly to every call for action. Yes, flexibility is the secret of the success of the new Double-Strength TWIN-PLY NYLON.

• DARE TO COMPARE — Examine this new Super - Lastic Double - Strength TWIN - PLY NYLON Tire — FEEL IT! You'll be amazed at the lightweight, flexible resilience. Like a champion boxer, the TWIN-PLY NYLON champion boxer, the TWIN-PLY NYLON "rolls with the punch," that's why it soaks in and absorbs every variation in the road surface — resists heavy impacts that cause breaks and blowouts in the kind of tires you've been riding on.

• GET THESE NEW, FINER FEATURES NOW! — but only at Canadian Tire. From a service life angle, Super-Lastic Double-Strength TWIN-PLY NYLON could command a much higher price; but in keeping with Canadian Tire's 40-year-old policy, the consumer price is our factory cost, plus a small, direct-selling profit margin. Investigate Super-Lastic Double-Strength TWIN-PLY NYLON this week-end . . . at CANADIAN TIRE.
