Record Budget Heard In Sask.

REGINA (CP)—A record budget calling for expenditures of \$187,983,719, a deficit of \$8,577,670 and new projects designed to stimulate industries and agriculture was presented Friday to the Saskatchewan legislature.

Provincial Treasurer J. M. Brockelbank said the budget provides for "new horizons in the economic development of Saskatchewan," but a small deficit was planned because of a slowing down in the national economy.

The previous record budget included expenditures of \$174,290,290 in the 1962-63 fiscal year. It called for a deficit of \$2,433,250 but Mr. Brockelbank said that as a result of 1962's buoyant economy he expected to tax a surplus of more than \$5,000,000 by the end of the fiscal year.

Mr. Brockelbank said the government would set up a Saskatchewan Economic Development Corporation to make grants and loans to new industries and provide sites and buildings on a lease-purchase basis. The house would be asked to approve \$2,000,000 for the corporation to finance initial deficit was planned because of a slowing down in the national economy.

Expansion of pasture and forage resources to meet the growing needs of the livestock industry would be emphasized in the agriculture program. Expenditures would rise to \$11,200,000 from \$7,400,000 in the current year. About \$2,500,000 would come from federal short-put a surplus of more than

Municipal Education Costs Almost Double Since 1945

By GREG MACDONALD
Canadian Press Staff Writer

The municipal education bill in Canada accounts for more than half of all collected municipal taxes, says the Canadian Tax Foundation.

The impact of education costs at the municipal level when related to personal income, says the Foundation, has almost doubled since the Second World War.

For all provinces, the per capita amount levied by all local authorities for school purposes has increased from \$8.97 in 1946 to \$34.43 in 1960—a rise of 273 per cent.

If these figures are reduced to 1949 constant dollars, the increase per capita is 112 per cent, the difference between \$12.56 and \$26.59.

Furthermore, when expressed as a percentage of personal income—a device which reflects to some extent the ability of people to pay—the proportion of income taken by municipalities for school purposes has risen from 1.18 per cent to 2.24 per cent—an increase of 90 per cent.

COSTS TO RISE

"There seems to be no doubt a long informed observers," says the Foundation, "that school costs will continue to rise."

"This appears to be a reason-

Ship Owners Ass'n Charges Gov't Has Lack Of Interest

OTTAWA (CP)—The Canadian Shipowners Association has accused the government of a lamentable lack of interest in the shipping industry.

The association, representing 30 firms, said in its annual report made available here that labor problems and the high cost of construction for deep-sea vessels in Canada made competition with foreign vessels impossible.

"More stable and... realistic maritime labor regulations are a prerequisite to a revival

INDIAN RESERVES GO FOR PASTURES

Federal agriculture minister Alvin Hamilton and Chief Fred Bear of the Ochapowic Indian reserve near Broadview, Sask., shake hands after the signing of an agreement turning over part of the reserve for use as pasture by the Prairie Farm Rehabilitation Administration. Mr. Hamilton said he hoped for more agreements with Indian reserves for pasture use. (CP Wirephoto)

Worm Outbreak In Nfld. Spuds Is Not Alarming

ST. JOHN'S, Nfld. (CP)—A survival report of a survey of potato worms in Newfoundland and federal and provincial agriculture investigators say the infestation is "not alarming."

Agriculture Minister W. J. Keough said Friday the report indicated there were only small and isolated spot infestations of the pest existing outside the east-coast Avalon Peninsula. The worm infestation was discovered last year.

Mr. Keough said the report also was sent to Federal Agriculture Minister Hamilton. He said until the infestation was discussed by both governments "it would be premature for me to comment further."

Potato worms, not harmful to persons eating the vegetable, is a tiny insect that attacks the roots of the plant, retarding growth.

"It could seriously reduce an economical potato crop," Mr. Keough said. He said further surveys were planned for this year.

Potato was prevalent in the province has banned export of Newfoundland potatoes outside the province for many years.

Small Oil Field Made In Greece

ATHENS (Reuters)—Petroleum has been discovered in central Greece, industry ministers said. London Bourgas is a firm here. He said boring at about 12,000 feet at Kilioussa in western Greece yielded sulphurous petroleum. Capacity at the first stage could reach 28 barrels a day.
