by Agamemnon Id

Ombudsman Alan Doucette has joined ex-Comptroller Leo Trainor as Council prima donnas of the year. First Leo resigned because he was censured over the SJC incident and now Doucette came out in a council meeting and said he wouldn't re-consider his resignation because of publicity he got in the Charlottetown Garbagecan—in an article he wrote and handed in himself—when he resigned at the meeting that voted to end the boycott. Reasons for resigning were variously given as: an inability to keep Keaveny from running the meetings; the so-called damage and mess left by students in the government building (untrue); and his feeling that he lost his impartiality by inviting students over a microphone to come to a meeting.

After Council defeated a motion to accept his resignation, he agreed to stick out his term. But Leo has stayed out — leaving Jerry Brimicombe with the job at a late date.

The brief lesbian mouth-to-mammary scene in "The Killing of Sister George" was snipped out by the censor (who lives in New Brunswick by the

way). I guess the reasoning was that mere mortals couldn't take such stimulation.

I can imagine what would happen if they brought in "I Am Curious (Yellow)". The censor would probably have a field day with the scissors and what you would see would take about 5 minutes to run.

Apart from which, you may remember that the Alberta censor is presently up on a morals charge. Seems there was this 14 year old "chick"....

Saturday, February 21 is the date for the hearings in Charlottetown of the Ledain Commission on the Non-Medical Use of Drugs. Sessions are from 9:00 - 12:00 and 2:00 - 5:00. Sessions specifically for University and high school students will be held from 12:15 - 2:00. Anyone who wishes to speak will (within reason) be allowed to, without any names, recordings, etc. taken. Secrecy is provided.

Notification of formal submission should be made to a Dean so the Commission can arrange its schedule.

The Malpeque Coffee Shoppe is becoming a real

horror show. Not only is it loud and dirty, but games are provided. The old (really old) favourite, the pinball, has been superceded by the war game. It at least, justifies its existence, inasmuch if you can score 15 hits in a game, you get a scholarship to the Air Force Academy or the Metropolitan US police force of your choice.

Captain Bearheart's Little Leaguers provided aural gratification.

There are differing opinions about Winter Carnival: this columnist for one, felt that it was quite good on the whole. They did lose about 3,000 more than the 3 grand they figured on, but such things as the Variety Show, the Coffee Shoppe Pub Night, and the Main Entertainment were great. In the main show, Rotary Connection and John Hammond really shone, with Esther Marrow something of a bore — her songs dragged on too long without her ever really getting into them. Bringing in Hammond was fantastic — although few in the audience had heard country blues before, he was well applauded for a fantastic show. Rotary Connection didn't go over well, but I couldn't figure out why—I thought they had a very tight, heavy sound.

## IT'S CURTAINS FOR LYNCH

The External Vice-President of the Student Union is sporting a new set of drapes in his office in the Student Union building on Kent St. According to John Keaveny, Lynch was not authorized to purchase the drapes, the total cost being \$20. Apparently Lynch felt that it would not look very good for the Student Union if the External Vice-President had curtainless windows.

## NOTHING LIKE HINDSIGHT

"It is not always easy to evaluate a situation, especially when it differs radically from what we have come to consider the norm.

The thought is inspired by the obvious accord prevailing at the University of P.E.I. between the student body and the administration. No battles are being fought on issues weighty or otherwise, no threats of boycott are heard, no lockouts or sit-ins; in fact such an aura of peacefulness hangs over the institution that it draws attention by comparison to other colleges elsewhere.

We understand students themselves can find little of which to complain as we have been told they have no compulsory courses, no curfew hours — and good food. In fact the things we have heard would make any confirmed radical squirm for the very lack of material with which to start a campus revolution. If any such there be in our midst they must be developing ulcers from sheer frustration.

What caused this change in so short a space of time? It seems only a few weeks since we watched placard-carrying students roaming over the Malpeque campus, setting up "strike" headquarters and cutting all classes, and such a short time ago those from the Downtown campus were marching in force on the Legislature.

Yet today quiet reigns over both to the extent of recalling the poetic lines "here shall ye see no enemy but winter and rough weather."

Perhaps a mere taxpayer should not ask what happened, just accept the situation thankfully and be grateful the riots and rebellions of other colleges find no welcome in our town."
