The handsome platform rocker with its Kroehler cushioned construction and with covers selected for texture as well as decorative colors, is the largest selling type of chair used in Canada today. Because it is so widely purchased as a gift article, the Pre-Christmas price is reduced to \$49.95.

Another delightful gift article for the home is the plate glass mirror. There are sizes suitable for living room, dining room and hall... these mirrors are so perfect that the manufacturer issues a 5 year warranty with each one.

Lamps make wonderful gifts... you can choose from a wide variety of floor lamps, table lamps, boudoir lamps and desk lamps. You select the lamp at the price you want to pay.

Don't overlook the old-fashioned kitchen rocker! There are many people who love them and have kitchens big enough to use one... natural and walnut finish at a cost of only \$12.50.

The mantel radio, especially one made by Philips, with its beautiful tone and excellent reception will give hours of pleasure to that special someone on your list... Philips are priced as low as \$29.95.

For Dad, (in fact, for the whole family) nothing can beat a new recliner. When he wants to relax, Dad simply leans back and the leg rest automatically comes out to support his legs. Recliners are made with combination covers using durable, washable, heavy plastic in areas that readily soil. Soft, warm frieze materials cover the seat and lower back. Recliners by Kroehler are \$89.50 and \$124.50.

You are sure to please her with a solid cedar chest... this year C. & S. even have cedar chests to match her Vilas maple; as well as mahogany and walnut. With each cedar chest there is a gift from C. & S. to you... a satin bound blanket.

A Bissel carpet sweeper from C. & S. will make Mother's day lighter... her rugs will be kept clean as a whistle with so little effort. Bissel sweepers start at \$8.95.

A desk that will add beauty as well as convenience to any room is ready and waiting at C. & S. at a cost of only \$39.50. With an arborite top you need not worry about stains or marks.

For that little remembrance, why not a small but oh so useful mat? Textures and colors to satisfy the most discriminating taste... Braided mats as low as \$4.50... \$5.95 for Axminster mats.

Here is a delightful gift for the whole family to enjoy a TV by Philips... for the small living room the 17" model is just the ticket... for larger rooms there are all kinds of 21" sets to see... for the extra large room Philips big, bold 23" set is the only answer.

For those who are not fussy about TV there are the increasingly popular STEREO high-fidelity radio-record combinations by Philips, priced from \$124 right up to \$449.95.

Be sure to visit C. & S. where there are sights and sounds to please both the ear and the eye. Drop in today this very day!
