

A FELLA'S GOTTA KEEP COOL

Griffin McIntee, age 4, of Rochester, New York, stands under a hose to cool off as the temperature rose to 91 in that city Wednesday. It was the seventh day in July the thermometer there had hit 90 or higher.

Beach Point Man Dies

The death occurred at Montague, July 17, 1966, of Harry MacNeill of Beach Point in his 81st year. Mr. MacNeill was a son of the late Mr. and Mrs. Laughlin MacNeill and was born at Beach Point where he lived his entire lifetime. He was married to the former Angie Jordan of Beach Point who predeceased him in 1952.

He leaves to mourn four sons: John, Lester, Wilbert and Gerald, all of Beach Point, and two daughters: Sylvia, Mrs. Ashley Vanderstine, Murray Harbour, and Lima, Mrs. John Kinsmen, Hamilton, Ontario. A son George predeceased him several years ago. Also left to mourn are three brothers, Wilfred and Albert, a Beach Point and Angus, Murray Harbour, three brother and two sisters predeceased him. The remains are resting at Montague Funeral Home.

Funeral arrangements have not been completed.

AMBASSADOR ARRIVES
TOKYO (Reuters) — Canada's new ambassador to Japan, Herbert O. Moran, arrived at Yokohama by ship Saturday to take up his new post. Moran, former director-general of the Canadian external aid office, succeeds Richard Bower, who left Japan in May. The new envoy also will serve as ambassador to South Korea.

The Guardian, Charlottetown, Mon. July 18 - 1966.

Travel Groups To Visit Here

George V. Fraser, Director of the Prince Edward Island Travel Bureau, announced Saturday that two important travel groups are scheduled to visit the Island during the summer of 1966.

A delegation of 10 will make up the American Automobile Travel Trade Mission scheduled to visit the province August 24 and 25. They will be entertained jointly by the Travel Bureau and the P.E.I. Tourist Association.

In September a group of six delegates from the Society of American Travel Writers will spend from September 17th to 21st in Prince Edward Island gathering material for travel stories in national publications including National Geographic Magazine, House and Garden Magazine and the Christian Science Monitor.

All visits are co-ordinated by the Prince Edward Island Travel Bureau and, in most cases, the visiting writers and travel personnel are taken on conducted tours by the Bureau staff.

Strike May Close Local CP Plant

A plant official at Canada Packers said Saturday morning that some 175 to 200 employees of the Charlottetown plant would be involved if a threatened national strike materializes on Wednesday.

It is still hoped that a settlement in the dispute could be reached. The strike could force a complete shut-down in production at the local plant.

The United Packinghouse Workers CLC announced the strike deadline Friday after it had rejected a company offer of 40 cents an hour in wage increases over two years, plus improvements in fringe benefits valued at another two to three cents an hour.

The strike would affect Canada Packers plants in Toronto, Montreal, Hull, Charlottetown, Winnipeg, Edmonton, Calgary and Vancouver.

The company is the largest packer of cooked and processed meats in Canada.

Fined In City Court

W. McAskill, city, Ronald Thompson, Highfield, and John J.K. Hughes of Bedford were each fined \$5 and costs or two days for failing to stop at a stop sign by Magistrate A.J. Haslam, QC, in city Police Court Saturday morning.

Wendall Clarence Duncas, city, charged with failing to stop at a red traffic light, was fined \$10 and costs or five days. John E. MacPhee, city, charged with making false statements had his case adjourned to July 23.

Placement Officer Gets SDU Office

A suite of offices has been supplied by St. Dunstan's University for the recently appointed University Placement Officer of the National Employment Service, Edmund LeClair.

Accommodations will also be provided at Prince of Wales College for Mr. LeClair in the near future.

The establishment of the University Placement Officer fills a long felt need on P.E.I. George W. Cheverie, Manager of the Charlottetown Office of the National Employment Service, said today that although the staff of the local office had always done whatever they possibly could for the University students they were not previously able to supply the full service that can now be offered to them.

ISLAND WAVES FEAR

The western hemisphere's largest English speaking city south of Miami is Kingston, Jamaica, with 123,500 people.

Extension Added On Heavy Water

By ROB MCKENSI
OTTAWA (CP) — Deuterium of Canada Ltd. has been given another extension to decide whether it will be able to increase its heavy water facilities at Glace Bay, N.S., Mines Minister Pepin said recently. Friday was the deadline for the company to show proof of financial ability for the expansion and accompanying new contract from Atomic Energy of Canada Ltd.

But the deadline was extended to Aug. 15 when the company was unable to get a second bid covering construction for the proposed plant extension.

The present plant at Glace Bay was scheduled to start production of 200 pounds of heavy water a year at the end of this month. But informants say construction problems will delay the start of production until late in the year, probably October or November.

The heavy water, a rare form of normal water used to control the fission of uranium in nuclear reactors as well as to transfer heat in steam turbines, will be the first produced in Canada.

HAS CONTRACT
Deuterium of Canada now has a five-year contract with AECL calling for 1,000 tons of heavy water at \$20.50 a pound. The company has asked for a larger contract, bringing it into line with one recently negotiated with Canadian General Electric Co. Ltd. for 5,000 tons over 12½ years at an average price of \$18.15.

Canadian General Electric announced June 15 its plant scheduled to go into production 300,000,000 suns.

By August, 1966 would be built near Port Hawkesbury, N.S., on the south coast of Cape Breton Island about 80 miles southwest of Glace Bay.

An enlarged Glace Bay plant and the Canadian General Electric installation would make Canada a world leader in heavy water production and would provide a surplus early in the 1970s. But recent studies of nuclear power demand indicate there will be a ready export market for heavy water by the time Canada's needs are satisfied.

Anniversary Service In Alberton
ALBERTON — Rev. Donald Nicholson, Minister of St. John's Church, Belfast, was guest preacher at the anniversary service in Alberton Presbyterian Church Sunday evening. The theme of his sermon was the need for spiritual discernment.

Worship was conducted by A. R. Murray, catechist serving the Alberton congregation. The Wilmot Quartette of Fredrickton, N.B. — Jack Scott, Therman Wister, Harry Currie and Frank Pridham — sang three selections, "Praise to the Holy One," "My Wonderful Lord" and "Sail On." Soloist Jack Scott gave a fine rendition of "The Garden of Prayer." The organist was Mrs. Lloyd Wilkie.

NOTICE

All veterans please attend funeral service for the late Comrade Murdoch MacPhee at Wood Islands Church, Monday July 18, at 2 p.m.

EVER HEAR OF BRICKWORM?

OR DRY BRICK ROT?

... or brick borers or termites in the masonry? Of course not. That's the beauty of brick; you put it up in a home, or an apartment or a school and up it stays against wind, weather, time OR termites.

Another beautiful thing about brick is... the BEAUTY of brick! Brick red is now joined by brick pink, brick black, brick grey, brick buff, brick... well, you name it and if it's brick, L. E. Shaw makes it!

When you build—think
BRICK first—to last!
