

THE DAILY EXAMINER.

NOVEMBER 23, 1895. A CANADIAN IN BOSTON.

It is reported in a despatch from Boston that Mr. D. C. Fraser, M. P. for Guysboro, addressed an audience there, mainly of those who have been Canadians, on the subject of the Federated Provinces. We are told that he described the system of government of the provinces and how all classes and creeds were able to live harmoniously together.

Referring to the Manitoba school question, he was of the opinion that the difficulty would be settled without any undue turmoil. In Mr. Fraser's opinion the chief evil Canadians have to contend with is the high protective tariff.

But as Canada has contrived, while building transcontinental and other railways, and constructing the best canal system in the world, as well as developing a complete lighthouse service and taking the foremost position among the colonies of the British Empire, to build up a national credit equal to that of first-class nations, the protective tariff cannot be such a very great evil after all.

It is to be hoped that Mr. Fraser impressed upon his Boston audience the fact that the protective features of the Canadian tariff are largely due to the continued attitude of commercial hostility assumed by the United States. We shall have to protect and defend ourselves as long as the attack is maintained.

In the course of an interview with the Boston Standard, Mr. Fraser is reported to have said: "Canada is cosmopolitan, but none the less sincere in its British allegiance. We look upon it as the cleanest, most contented and most honorably governed country on this hemisphere, and likely on the other. We have about 5,000,000 people spread over an area larger than that of the United States. Most of them are English and Scotch, sturdy, ingenious, progressive and peaceful people. Our schools are excellent, our penal and charitable institutions are clean and well regulated. In municipal politics there is a good deal less corruption than there is in the United States."

"In regard to annexation," Mr. Fraser went on, "I think Canadians are contented with Canada."

It is pleasing to note that the picture of a ruined, disintegrated, disaffected, disloyal Canada is not drawn by at least some members of the opposition when they go abroad.

OUR ROADS.

We were unable to publish the letter of our correspondent "Loi Five" upon the day on which it was received, and Jack Frost has, in the meantime, intervened to improve the bad roads, of which he gives such a vivid description. As the roads have been at the West, so they have been in every part of the Province in which there has been much traffic. Hundreds, says, thousands, of persons have, consequently, the same cause as our correspondent to demand a change in the road system. Under this system, a corrupt and unscrupulous administration does as little as possible until election year, and then distributes public money right and left among the class of voters who are ready, in consideration of the letting to them of road jobs at high prices, to vote for the Government candidates. We hope that honest men in all parts of the country—who desire freedom, purity and independence of Government, men who require good roads, men who wish to control the expenditure of the money they pay into the public treasury—will unite to abolish the system under which such corruption is possible, and to procure the enactment of a measure, under the operation of which the ordinary repair of the roads will be effected at the least expense, and a permanent improvement in the roads most used will, from year to year, be made.

A KINDERGARTEN.

It is very pleasing to learn that the trustees of the Wesleyan School Fund have decided to establish a kindergarten in Charlottetown. The kindergarten will be supplementary to the public school system, and will supply a want in the community. A teacher (Miss Sayres, of Fredericton) has been engaged, and it is expected that the kindergarten will be opened shortly after the beginning of next year.

NOTES AND COMMENTS.

—We hear with regret of the death of Mrs. Neil McKelvie, which took place at Summerside on Thursday evening after a long illness. Mrs. McKelvie was deservedly esteemed by a large circle of friends. Her bereaved husband and family have the sympathy of all.

—Minneapolis Times: "There is not much soundness in Victor Hugo's contention that when you build a schoolhouse you close the door of a jail. The people of no other country spend more money for education than the people of the United States; but crime here more than kept pace with instruction, and it is worth our while to consider whether this result may not be in some measure due to the quality of the teaching."

—On the 31st October the Merchant's Bank of P. E. Island had loaned to the Provincial Government \$25,250; and the amount under the same heading opposite the Merchant's Bank of Halifax was \$14,616, nearly \$110,000 between the two. Let us see, was not the total debt of the Province when the Debentures Act was passed somewhere about \$40,000? Now it is the amount of the debentures afloat, the amount in the Provincial Savings Bank and the amount due the banks. A large sum, all told, no doubt!

—Mr. J. A. Maskell, writing to THE EXAMINER from Boston, remarks: "I went to hear Sir William Dawson at the Lowell Institute last night. He has just concluded a series of brilliant lectures on the 'Beginnings of Life.' Sir William made a splendid impression on his distinguished audience. For profound thought, scholarly research and masterful presentation, his lecture has never been equalled from a Boston platform. Truly, the eminent Canadian makes one feel proud of his native land."

Blankets and comforts at cold weather prices at Weeks & Co's. nov23

FROM ALL POINTS OF THE COMPASS.

Cholera in St. Petersburg. St. Petersburg, November 21.—The official Gazette announces that cholera has reappeared in St. Petersburg. From Nov. 1 to Nov. 6 there were 17 cases and 12 deaths. Since Nov. 6 there have been 28 cases and 19.

Will Not Commute the Sentence. OTTAWA, Nov. 21.—His Excellency had under consideration petitions asking for a new trial for the wife murderer, J. R. Hooper, and finds nothing in the case to warrant granting the application or a commutation of sentence.

Greenway Will Not Compromise. WINNIPEG, Nov. 21.—The Tribune in a leading editorial last night indicated that the reply of the Greenway Government to the Dominion Government in the school question would be a steadfast refusal to consent to the slightest compromise.

Many Killed by French Shells. PARIS, Nov. 21.—Temps has a despatch regarding the incidents attending the capture of Adrianopolis, the capital, by French troops. It records the tremendous effect of the melinite shells by the French and the huge gaps made by them in the ranks of the enemy. One shell killed 33 men and another killed 18.

Buchanan and Chief Visit the Queen. LONDON, Nov. 21.—The Buchanan and chiefs, Khama, Sabelo and Rathoan, who have been in London for some time seeing the sights and being entertained by distinguished personages, paid a visit to the Queen at Windsor yesterday afternoon, and delivered their presents to Her Majesty, who presented the chiefs with suitable gifts in return.

Presentation to Lord Dufferin. CARDIFF, Wales, Nov. 21.—A number of prominent residents of this city tonight publicly presented Lord Dufferin with a silver model of Valerius III. The inscription on the base of the model, which was approved by Lord Dufferin, is as follows: "Presented at Cardiff, Nov. 21, 1895, to the Earl of Dufferin, K. P., by his neighbors and friends in recognition of his gallant efforts to bring home the America's cup."

Terrible Fate of a Colchester Boy. TRURO, Nov. 21.—By the explosion of a defective gun, Albert, aged 13 years, son of Campbell Johnson, of Greenfield, Colchester County, will probably lose his life. When the gun was fired the breech of the gun was driven back violently into his forehead over the left eye and remained there until the services of Dr. H. H. Muir were secured from Truro, who removed it and a number of fractured fragments which were pressing on the brain.

An Atrocious Chicago Murder. CHICAGO, Nov. 21.—At 18 South Clark street early yesterday morning, Charles Noe secured a rope and throwing it over the gas jet placed the noose around the neck of his mistress, Annie Anderson, while she was asleep in bed. He pulled the rope, swinging the woman out of the bed into the air. Securing the rope to the leg of the bed he watched the convulsions of the victim as she slowly strangled. When the struggles ceased the murderer stretched himself on the bed and went to sleep. He has been arrested.

Canada and the Mother Country. LONDON, November 21.—Sir Charles Tupper addressed the Tyne-side geographical institute at Newcastle last night on "Canada." His address was largely descriptive and statistical. He strongly advocated reciprocal trade between the British colonies and the mother country. Many articles, he said, the other countries imported from foreign countries could be supplied by Canada. He contended that it was the duty of every Briton to promote between the colonies and Great Britain that connection he believed indispensable for the future progress and prosperity.

Spanish Navarros in Cuba. Key West, Fla., Nov. 21.—Passengers by the steamer Oliveira from Havana last night report that General Antonio Maceo with 1800 men had a battle with General Navarro on the 17th instant, near Santa Clara, which lasted for 17 hours. The Spaniards were defeated with 500 killed and wounded. General Navarro, having been wounded, narrowly escaped being captured. The insurgent loss is said to have been very small. Havana advices state that General Maximo Gomez fought a battle with General Suarez Valdez, in Santa Clara province. The battle lasted several hours. The insurgents finally defeated the troops, seriously wounding General Valdez, commander of the Colonias. The Spaniards can only be quenched in a sea of blood.

London, Nov. 21.—The Constantinople correspondent of the Times telegraphed that a remarkable amount of sensational news is current, and it is impossible to sift the grain from the chaff. Disorder and bloodshed in the provinces are not ended. Measures for the restoration of order, like the returns, came too late. The fire of frenzied excitement produced by Christian and Mohammedan agitators can only be quenched in a sea of blood. Shakir Pasha, who has been named as commissioner of the Armenian reforms, telegraphs from Erzerum that Hushian Pasha, a Kurdish chieftain, who is also an officer in the Hamidian cavalry, will be tried by a court martial for murdering Armenian villages near Bitlis.

Big Break in the Price of Bicycles. New York, November 21.—Henry Clews says that the so-called bicycle craze of the last year has been as prevalent as during that of the Kaffir speculation craze in Europe, through which Barney Barnato is said to have made himself fabulously wealthy. "It is safe to say," explains Mr. Clews, "that in the last four years the American people have paid out for bicycles not less than \$200,000,000, at the rate of \$50,000,000 per annum. It is a well known fact that each bicycle costs the maker about \$27, and is generally sold for about \$100, consequently the growing competition in manufacture has reached a point where a serious break in prices may soon be expected. Should this materialize in this country, because property which originally cost \$200,000,000 is marked down to probably \$75,000,000 or less? For my part, I don't see what Wall Street interests should in any way be affected in the one case more than the other."

The Difference Between a Squirrel and a Man. Lots of signs in nature point to a long, cold winter before us. The fur on squirrels is extra heavy this fall, and they are busy laying in a larger supply of nuts than usual. And the prudent person takes heed to these signs and will try and arrange for his own comfort. Extra wraps are always a nuisance and are quite unnecessary in these days, when a man can have a single breath of cold air to steal through and rob any of the natural heat from the body. nov23

Blankets and comforts at cold weather prices at Weeks & Co's. nov23

LETTERS TO THE EDITOR.

ABOMINABLE ROADS WEST.

SIR,—It is my opinion that you people about Charlottetown, comparatively had as the roads may be, have very little grounds for complaint. If you were only introduced to the class of thoroughfare we are obliged to sail through, all further complaint would be knocked out of you. We have no macadamization to sigh after—all is one grand desert of mud. The beautiful superiors of this beautiful Government spoiled anything in the shape of roads we ever had. If they had left things alone this year we might now "spaddle our own canoes" with a fair good comfort; but they got their crop in and everything nicely fixed up at home they made a descent on the road precincts under their jurisdiction and sold to true and tried leechmen patches and shreds here and shreds and patches there, with sundry approaches to bridges, with the result that August and September saw the repairs done which should never be made later than June. Now that new work—stop work at any time—is one great muck hole and every poor unfortunate wayfarer has to damn his soul as well as destroy his gear and perhaps lose his horse getting through it. Our little superior laughs heartily at the straits of the public and pockets his money. "Never such roads before" he says, and indeed that is quite truthful. It would be hard to get anything worse anywhere. Really this road, boondoggling and bungling is going to extremes. If we can't get the road work done early on unmacadamized roads it shouldn't be done at all.

I believe with you that the road service ought to be released from political management. We should keep this important work in satisfactory shape. The present system is a dead failure. I'd like to see all the roads contracted for to be kept in good repair summer and winter. Much loss of money would be avoided, as well as a lot of fat swearing, broken tackling and broken hearts. At any rate a change is needed—any change will be welcome. nov23

NEWS NOTES.

In his annual report the Secretary of the United States Agricultural Department points out that the country's shipment of cheese to Great Britain is falling off, and prices and quality are also the lowest. He says that is better the country is out of the race.

Woman suffrage is being pushed vigorously in Idaho. There is a club in that county, and the next week there is to be a state conference of representatives of the clubs held at Boise, for the purpose of forming a state organization and to devise plans for an educational campaign.

The Government has decided not to send an exhibit to the proposed Fisheries Exposition, at Kiel, Germany, next year. It is thought that the benefits, which would be derived by Canada from such an exhibition, would not compensate for the expense incurred.

silver tankard, with hinged cover and weighing thirty-six ounces, presented by King Charles II. to Sir Edmondbury Godfrey for his services during the plague and the fire of London is for sale in London. Godfrey was the magistrate before whom Titus Oates made his declaration of the Popish plot, his body being found soon after in a ditch with a sword run through it. All England became excited and ready to believe Oates' incredible lies. The tankard, with the royal arms and scenes from the plague and the fire engraved upon it.

The wholesale and retail fish dealers of Montreal have forwarded a petition to the Minister of Marine and Fisheries, asking that steps be taken to protect their interests. They state that the local market is flooded with immature fish taken from the St. Lawrence and the lakes back of Montreal. These fish do not average more than one-half of a pound each. The petitioners urge that stringent amendments to the regulations be adopted to prevent the catching and selling of these fish. To that end also, they suggest that a special officer be stationed at Montreal to inspect the fish offered for sale.

"The Railroad Kidney." Railroad employes, bicyclists, teamsters and other men who are subjected to much jolting, are often troubled with pain across the small of the back. This indicates the "Railroad Kidney," an insidious precursor of serious illness. On the slightest symptoms of backache take one Chase's Kidney Liver Pills—one is a dose—and thus obtain instant relief. For all kidney troubles they have no equal. 25c. per box.

The New Yorkers are eager to believe that Sir George Newnes is going to send in a challenge for the American cup. To judge from the state of feeling in England, the report is very unlikely. There has been so much dissatisfaction in connection with the last contest that it is hardly to be expected that he will persist until the foolish things, said on both sides, can be forgotten.

"To My Life's End." Old age brings many aches and pains which must be looked after if health is to be maintained. This depends more than anything else on the kidneys. "I am 85 years old," writes A. Duffin, farmer, Aultsville, Ont., "and have had kidney trouble five years. My son advised Chase's Kidney-Liver Pills, and I obtained immediate relief. I shall use them to my life's end." You will find Chase's Pills equally effective for that lame back.

The Newfoundland fishery of this year winds up very favorably, the catch being large.

The body must be well nourished now, to prevent sickness. If your appetite is poor take Hood's Sarsaparilla.

Look here, gent, we can sell you your linen collars, latest styles, cuffs, winter gloves, cardigan jackets, neckties, shirts, etc., etc., at prices that would surprise you. Try us, and save at least 25 per cent.—W. A. Weeks & Co. nov23

Outer Wraps.—This store is surely less than a year, so many ladies say so, naturally that makes it so. Having each season the latest idea, and selling them at a small advance on cost of production, that's what makes business. Jackets, 27 to 30 in., double-breasted with large button, capes single and double, at low prices.—Jas. Paton & Co.

STMR. NORTHUMBERLAND. During remainder of season the Northumberland will leave Charlottetown for Summerside and Point du Chene on Thursdays, instead of Mondays morning as heretofore. FRED. W. HALES. Ch'town, Nov. 22—2i

ST. PETER'S Penny Reading Concert

PHILHARMONIC HALL, THURSDAY, 28th November. PROGRAMME: 1. Instrumental Duet Mrs. Brecken and Miss Dodd. 2. Song Miss Mianie Moore. 3. Reading Miss Benoit. 4. Song Miss Benoit. 5. Cornet Solo Mr. Major Galbraith. 6. Song Miss Sullivan. 7. Recitation Miss McLean. 8. Song Mr. F. de C. Davies. 9. Violin Solo Mr. Vinnicombe. 10. Reading Mr. L. H. Davies. 11. Song—Woodland Scene (Mandolin and Piano accompaniment) Mrs. Holston. GO! SAVE THE QUEEN.

Music will be rendered during the intervals by Mr. Ernest Esprit. Doors open at 7.15 p.m. Entertainment will commence punctually at eight o'clock. Tickets for sale at Watson's, Reddin Bros. and Rankin's Drugstore. Price 15 cents. Only a limited number of tickets are for sale.

Long-Winded Discourses and Ads. Are Alike. 3 Words with U. WHITE PINE EXPECTORANT. The best remedy for your cough.

TELEGRAPHIC.

SPECIAL DISPATCHES TO THE EXAMINER

INTERESTING NOTES FROM THE CAPITAL. Proposed Change of the Route of the S.S. Stanley.

OTTAWA, Nov. 23. Oliver Howland, of Toronto, T.C. Keefer, of Ottawa, and Thomas Munro, of Colem, have been appointed Canadian deep-waterways commissioners.

The Marine Department has under consideration certain proposals with reference to changes in the winter service in P. E. Island. The route between Capes Tormentine and Travers, only eight miles, would be the most economical one. But unfortunately there is no deep water wharf at Cape Travers, and therefore the S.S. Stanley could not land her passengers or freight. The Summer people are anxious that the Stanley should run between that place and Cape Tormentine, the distance being 18 miles.

A Drysdale, M. P. P., Halifax, Edwin Ruggles, Bridgetown, and C. Chisholm, Sydney, have been gazetted Q. C. William Smith, it is said, retires from the position of Deputy Minister of Marine and Fisheries. Among the names mentioned as possible successors are A. W. Ross, and Jonas, M. P.

The American College in Rome. Boston, Nov. 23. A cablegram to the Herald from Rome says that the Rev. Father William H. O'Connell, of Boston, Curate of St. Joseph's Church, has been chosen by the Propaganda to be the new rector of the American College in Rome.

Fatal Fire. Chicago, Nov. 23. In a fire in a large wholesale house yesterday, several firemen and two or three working girls lost their lives.

The Amherst Boot and Shoe Co. Don't fail to try us for rubbers and overcoats, we have a large stock, we are selling out at very low prices. If you want any, you cannot help buying at J. B. Macdonald & Co's. nov18 6i

OUR FOUR TRADE WINNERS. J. M. McLEOD & CO., Wholesale and Retail.

GEO. T. SLATER & SON, \$3, \$4, \$5. SHOES FOR MEN. J. & T. BELL, Fine Footwear.

Cartier's Bookstore. News Counter, Cheap Books, New Fancy Goods, New Toys, Japanese Chinaware.

Boy's Own Annuals, Girl's Own Annuals. Tuck's Celebrated Cards. BOOKLETS AND CALENDARS. New designs 1895. Something for everybody, and very cheap at Carter's Bookstore. Nov. 23.
