OBITUARY.

It is with sorrow we offer this small tribute of love and respect to the memory of Edward Daly, whose death took place at his home, St. Mary's Road East, a short time ago. He was quite young, being in his twenty-ninth year. He was widely known and much loved by all and in particular by those who knew him best. He possessed a bright intelligent mind and much bodily strength. He was so kind and cheerful as to make him at once the comfort and joy of home and friends. About three months ago Mr. Daly was stricken down with heart trouble and was so low as to be thought at the point of death. But after a while he rallied so as to be able to walk about a little. Again his trouble began to press heavily upon him. He was advised by his good pastor and his two wise and skillful doctors to go to the hospital, which he did in hope that the change might help him. But in a short time, becoming aware that his skill was no longer of use to him, he appealed to his father and mother and other friends who were by his bed to take him to die in his home. Then, bidding adieu to the place where he had received much spiritual comfort and all the rites and consolations of holy religion and to the good, kind Sisters, he was taken to his home, which he reached safely through the mercy of God and help of many kind friends. There with gratitude in his heart and words to God and man, amidst the prayers and tears of his dear ones, and many who had loved him through life, shortly before eleven o'clock on Monday morning, January 22nd, his soul passed peacefully from this vale of tears. He leaves at the old home to mourn a loving father, mother and two sisters, and one dear sister and a loving and only brother, Rev. Wm. Augustine Daly, of Salem, Oregon. His funeral was very large. The church was becomingly draped. High Mass was sung and the funeral ceremonies performed by the good pastor, Rev. William Phalen. His remains were then borne to the cemetery nearby, and with loving care laid to rest to await the final call.

At Souris Line Road, on December 21st 1899, after a lingering illness, Mary Violet, only and beloved child of Thomas and Catherine Grinsell, aged 14 years and 7 months. Of a sunny nature and a sweet and amiable manner, Violet won the love of her friends and companions, by whom she will be sadly missed. No more will her bright smiles and happy laughter gladden the hearts of her lonely father and mother, who watched over her with such loving care and tenderness. With sad despairing eyes, they beheld the joy of their lives and comfort of their old age, slowly but surely fade away, the evening of her bright young life close in, and their Star of Hope set, to rise in a brighter, purer world, free from sin and sorrow, wether God called her before her fair young life was shadowed by the troubles of this world. After a solemn requiem mass was sung by the Rev. D. F. McDonald, all that was mortal of Mary Violet Grinsell was laid to rest in the quiet churchyard of St. Mary's, there to await the sounding of the trumpet which shall proclaim this world to be no more.
(Island papers please copy.)

ORWELL COVENOTES.

The farmers around this vicinity are idle for want of snow as the most of them have to draw their firewood some two or three miles. Nevertheless some of the leading ones are increasing the population and as far as I understand the fever is about to spread among the neighbors. This accounts for the increased price of spool thread and flannelette. By the way, if this continues until spring between nurse's bills and Dr. Collins' the farmers will be bankrupt.

An old resident, Mr. McLeod, has been confined to his bed for some time, and is not improving in health.

We are glad to hear that Mr. John A. MacDonald, merchant, has recovered from his recent illness and is moving out.

The factory here, has been idle this winter, owing to a defect in the boiler, which causes the patrons to draw their milk to Vernon River Bridge.

We are informed that Mr. Charles Nicholson has resigned the Post Office in favor of Mr. William Dreelan.

Our most popular merchant, Mr. D. D. McLeod is doing a rushing business in all lines of mercantile industry.

Our school is progressing rapidly under the supervision of Miss May Dorsey, of Charlottetown. Miss Dorsey has only recently taken this department, and judging by the earnestness displayed by both teacher and pupils we may expect good results. The assistant teacher, Miss Maggie McLavish, is also doing excellent work.

TERTULLIAS.

For Fordless Rivers.

CAPE TOWN, Feb. 13.—Major Seymour, of the Volunteer Railway Pioneers, has planned an ingenious apparatus for transporting heavy material over fordless rivers. It will be built on the principle of an aerial tramway, and will be completed within a week. After that it will be subjected to practical tests, and, if found to work satisfactorily, will be sent to the front.

"Catch the opportunity." By taking Hood's Sarsaparilla now you may build up your health and prevent serious illness.

NOTES AND COMMENTS.

—The London Times, dealing with the military situation, says: "If General Buller has failed, it seems unlikely that another attempt will be made. The terrible initial strategic mistake of abandoning the principal objective for a subsidiary operation—overweighs the campaign. But the time approaches when its baneful influence will cease to fetter our action. The great issues of the war will not be decided in Natal."

—According to a Montreal paper there is at least a possibility of some Australian butter coming on the Canadian market by way of London. The unusual condition of affairs arises from the fact that heavy receipts of Australian creamery butter entered the English market and caused the price that Canadian butter paid back to Montreal and for paying freight to the ways realized were less than the London price. A London firm has since asked a Montreal house for a quotation on a thousand boxes of Australian butter. Fortunately for Canada, the bulk of its butter for export had been sold before the Australian article arrived, and at present the price in this country is good and stocks light.

St. John Sun: Sir Louis Davies is still haunted with the memories of last fall's campaign in Prince Edward Island, where he tried to bribe with public money two constituencies and tried to intimidate those who would not be bribed. He is expecting any day the news of the final collapse of the Prince Edward Island government, which he made frantic efforts to save, and which is now trying to get along with ministers who have not seats in the house.

DIED.

At Stanhope, on the 31st ult, of whooping cough, Minnie Gladys, aged 3 years, and on the 2nd inst, Katie Bell, aged 4 years, daughters of James and Mary Ann McCabe.

At Rose Valley, on the 28th ult, Robert McKinnon, in the 16th year of his age, son of John McKinnon.

At St. Mary's Road, Lot 61, on the 20th ult, Edward Daly.

At Lot 11, on the 31st ult, Philip Gahan, aged 103 years and 4 months. The deceased was a native of Malpeque, but spent the greater part of his long life at Lot 11, and was highly esteemed by all who knew him. In the early days of the Island's history, when the travelling was done by foot or boat, and later by driving, Mr Gahan's home was often filled with travellers whom he delighted to entertain, and from whom he would never accept any recompense. His remains were interred in St. Bridget's cemetery, Lot 11.

At Pleasant Grove, on the 6th inst., James Doyle, aged 58 years.

NEWS NOTES

"It is reported that among the Boer dead lately found in the trenches a number of armed Kaffirs were found."

MOTHER AND BABE.

Nature is cruel and visits upon mother and babe alike the results of the mother's neglect of her own health. It is an oft-told tale—the mother dies in the agony of child-birth, and in a few short months the sweet babe follows her to the cemetery.

If women will only learn, and teach their daughters, the supreme importance of keeping the distinctly feminine organism in a perfectly vigorous and healthy condition, this ever-recurring tragedy will soon be a story of the past. If women who suffer from weakness and disease of these delicate organs will write to Dr. R. V. Pierce at Buffalo, N. Y., they will learn that in order to recover and maintain their health in this respect, it is not generally necessary to submit to the humiliating examinations and local applications insisted upon by physicians. In writing confidentially to Dr. Pierce, a woman places her case, without charge, in the hands of an eminent and skillful specialist, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute at Buffalo, N. Y.—one of the leading medical institutions in the world, with a staff of nearly a score of eminent practitioners. Dr. Pierce's Favorite Prescription cures all weakness and disease of the organs distinctly feminine. Honest druggists recommend it instead of urging a substitute for a little extra profit.

"I have been a great sufferer from female diseases," writes Mrs. C. C. Clark, of New Rome, Floyd Co., Ga. "I was confined to my bed three years. Nine bottles of Dr. Pierce's Favorite Prescription completely cured me."

Good temper is largely a matter of good health, and good health is largely a matter of healthy activity of the bowels. Dr. Pierce's Pleasant Pellets cure constipation. They are safe, sure and speedy, and once taken do not have to be taken always. One little "Pellet" is a gentle laxative, and two a mild cathartic. They never gripe. Druggists sell them.

THE MILK COMPETITION

SIR,—I notice in the last issue of THE WEEKLY EXAMINER a statement signed "Dairyman," saying that Alfred E Dewar, of Hazelbrook, supplied the largest amount of milk to any cheese factory in the province during the past cheese-making season, the amount being 108,872 pounds.

Now, if that amount of milk was produced by one herd of cows, I would agree with "Dairyman." But the fact is that two farmers owning two separate herds of cows, handled and fed on two separate farms, supplied the above amount. No doubt a good showing for two farmers, but I notice that Mr. D. P. Irving, a patron of Vernon River cheese factory, supplied during the past cheese-making season the amount of 101,000 pounds from his herd of cows. Mr. Irving, therefore, holds the distinction, so far, of supplying the largest amount of milk from one herd of cows to any cheese factory in this province.
TRUTH.

Is absolutely pure. It costs only one-tenth as much a day per head if you buy in large cans. It will increase the profit from your poultry this winter. To be profitable your poultry should lay now. All your hens should be in condition to lay daily while eggs are high. It assures perfect assimilation of the food elements needed to produce eggs.
If you can't get the Powder send to us. One pack, 25 cts. Five, \$1. Large two-lb. can, \$1.20. Six cans, exp. paid, \$5. Sample copy best Poultry paper free. L. S. JOHNSON & CO., Boston, Mass.
