Graham Sails For New York

SOUTHAMPTON, England (AP)—Evangelist Billy Graham sailed for the United States Thursday aboard the liner Queen Mary, concluding his month-long London crusade was a success and that tales of British moral decay are exaggerated.

"I found tremendous religious influence in Britain and was in every way greatly encouraged by what I saw and felt in the new, young generation," Graham told reporters.

Graham said 1,049,000 people attended the meetings or watched them on closed-circuit television during his four-week crusade—three times the number who attended his three-month 1954 crusade in Britain.

PLASTIC'S THE ANSWER
FOLKESTONE, England (CP)—A Yorkshire architect says plastic homes, to last only five years, are the solution to Britain's housing problem. Arthur Quarmby told a Kent conference such houses would be cheap and quickly built, and allow additions as a family expands.

Volkswagen Plans To Recall Some Beetles For Inspection

WOLFSBURG, West Germany (CPAP)—A spokesman for Volkswagen said here that about 40,000 "beetles" throughout the world are being recalled for inspection of front axle ball joint assemblies.

In Canada, about 15,000 cars are affected. A spokesman for Volkswagen Canada Ltd. said in Toronto that that number of Volkswagen sedans and the sports model Karmann-Ghia

such operations occasionally the spokesman said "There is nothing unusual about it."

CHECK SEALING RINGS
The spokesman said checkups established that plastic sealing rings holding protective rubber loops over the ball joint assemblies might permit moisture to enter the assemblies and cause corrosion.

He said that during inspection the sealing rings will be replaced as well as any ball joints that are found to be not in order. Also, all ball joints will get new lubrication he added.

There are four ball joints on the front axle but only the two lower ones may be affected, he said.

The square-back Karmann-Ghia are being recalled in the United States after it was found that in some cases luggage compartment lids opened when they were hit by shifting luggage, he said.

The spokesman said that all customers will be notified of the recommended inspection. The recalling operation will be undertaken gradually, he said.

All costs will be borne by Volkswagen.
