The possibilities of another series of joint meetings led by the ministers of the Association was given some consideration. Last year's united effort had been a fine success and it was felt that the impetus of union work was an emphasis needed at this time.
A survey of the missionary activity of the United Church of Canada was given by Rev. K. G. Sullivan. There is a fine zeal in the United Church with respect to both home and foreign missions. This activity beyond the level of the local congregation is unified financially in the missions and maintenance fund. Of this fund about twenty five per cent goes for foreign work.
The Women's Missionary Societies also contribute largely to missionary work while the churches are constantly spurred in interest

by the missionary educational work of the Board of Missionary Education. Foreign missionary work is conducted in Japan, China, Korea, Central India, West Africa and Trinidad. In these areas there are 76 missionary families supported by the Overseas Board with yet another 105 workers supported by the W. M. S. groups. The foreign missionary activity has various emphasis, with education being the greatest stress in Trinidad and medical work the stress in Korea. There are more than 70 schools under the director-

ship of the United Church in Trinidad holding responsibility for 25,000 students.
The United Church in its overseas work is being very careful that the Christian converts won't be not being known by the denominational label of the home Canadian church but rather are being identified with the union groups in their own lands. This 25th year of union will witness the sending of a large contingent of missionaries to foreign fields under the sponsorship of the United Church of Canada.—S.
