

PATON & CO'S GREAT SHOW
Will be Continued To-day.

HEN VISITING
the store of this firm the reflection that consideration of space will prevent us from dilating on the merits of the various novelties shown at the length we would desire, is always a matter of regret. We have once or twice caught ourselves in the act of wishing that these novelties were neither so meritorious nor as numerous as is the case, for the effort to notice them all in the space available is nothing less than harrowing.

This spring the firm has eclipsed itself in providing all that is dainty and attractive in feminine attire.

THE DRESS GOODS DEPARTMENT.
We have accustomed ourselves to look for a well selected stock in this popular department. It is, of course, impossible to go into details where there is so much variety in texture, pattern and shade. We will therefore only direct attention to some of the leading popular goods. There seems to be still confidence in Crepons Figured and plain Alpaca, Shot Alpaca, Fine Shot Sicilians, Lace Stripes and Figures. We were very favorably impressed with the selection of Colored Costumes shown us there.

FLOWER AND FEATHER DEPARTMENT.
Is a strong feature of this house. These are far too many to attempt any description. Moreover just a passing remark about 250 Sprays of Gems and French Colored Sprays and Wreaths shown from 85 cents to \$2.75 each. "A veritable flower garden on every hat," So the Americans have pronounced the Paris hats and from what is shown, Mr Paton has caught the infection if the flower imports are any guide. We were shown over 75 large cartoons of Easter flowers.

SILKS.—The range of Silks to be seen is a thoroughly representative one. As you look over the lot you can rest assured that they are the latest. It appears that fancy Antique designs will be very popular. Fancy Moires are apparently great favorites. We were especially captivated with the shaded grounds and floral designs.

PARISIAN BONNETS AND HATS.
Reviewing the trimmed hats as a whole we find flowers, more particularly roses, and pauties, used in great profusion, together with jewelled ribbons and fancy gauzes. Fancy colored straws predominate, those in violet and red being particularly attractive. Special shapes are stocked suitable for cycling; Children's hats, too, are made a special feature of. The many charming French models to be seen defy a mere pen description; suffice it to say, therefore, that this firm are manifestly well to the fore in Parisian productions, of which fact wise buyers should make a note. The straw hat untrimmed forms a great feature of this firm's stock, and the variety of shapes and colors they are offering is calculated to meet all demands. The Straw with Shot effect appears to be now very popular. In Black Straws the range is particularly large, comprising, we should say, every conceivable shape. In trimmings, the favorite flowers appear to be Lilies and Lilac.

"JUBILEE GOODS."
So called Jubilee goods are to be seen in almost every department and there seems to be but little doubt that every novelty produced in this special year of grace will have the mark of the Jubilee somewhere upon it. This is as it should be, and when the fervor of commemoration festivities has become—as it is sure to become—an epidemic, then the wise dry goods man will reap his harvest.

GLOVE DEPARTMENT.
It is expected to be a leather year, and in Kid, Lamb, and Doeskin all the latest productions in fancy points and buttons are found. The 4 Horn Button Glove is a feature of the season. In this department all classes of gloves are found.

Children's Millinery Department is well equipped in special lines in bonnets and tams. The Lace and Fall Net Department is a well known spot in this house, and the extent and variety of the veiling stock is remarkable. The Ribbon Department contains all the leading lines from the Baby Ribbon up to the Grand 14 inch Silk-Picot width. This is a ribbon Shot centre with contrast border and Fancy edge. Just a gem of a ribbon. Gauze ribbons promise to be a special feature of this season's trade.

SKIRTS.
In the department in which this smart looking department garment is shown, there is a numberless variety with flounces. Some are in Alpaca, Moreens, Moriettes, Zephyrs, Jap Shot Moreen and Shot Silks. In the trimming department, embroideries seem to carry the day with Boleros, Garnitures, Chiffons, Nets and Gimps. These goods are all suitable for a high class trade. Laces and frillings collars and cuffs all in newest effects.

LADIES' SHIRT WAISTS AND BLOUSES.
The stock shown is extensive; we were shown over 700 waists with the new

sleeve and collar, tie and cuff to match which are particularly noticeable, together with White Lawn Waists, Crepons, Fancy Zephyrs, Petticoats, Piquis and French Lawns, and Fancy and Spot Muslins, Plain Black Satens, also Colored Satens, also the Staple Cambric warranted to wear well.

SUNSHADES.
A perfect blaze of sunshades, Bright Colors, Shots, and Plains, exceedingly dressy with sticks to match.

MANTLE DEPARTMENT.
Although coming last in our notice this department is by no means the least important and should and will receive a visit for young ladies short cloth capes will again be worn with fancy silk facings and linings. Jackets are conspicuous for their absence. Elderly ladies will adopt the long capes made in worsted and silk with pretty Black Lace lining. Hundreds of garments shown.

The windows, which are so superbly dressed, will be on exhibition to-day. No doubt many admirers will be pleased to halt and admire their beauty. The firm will be pleased to have any person call, no matter whether or not they intend making any purchases.

MESSAGE TO MEN.

Proving that True Honesty and True Patriotism Still Exist.
If any man who is weak, nervous and debilitated, or who is suffering from any of the various troubles resulting from youthful folly, excesses or overwork, will take heart and write to me, I will send him confidentially and free of charge the plan pursued by which I was completely restored to perfect health and manhood, after years of suffering from Nervous Debility, Loss of Vigor and Organic Weakness.

If he nothing to sell, and therefore want no money, but as I know through my own experience how to sympathize with such sufferers, I am glad to be able to assist any fellow-beings to a cure. I am well aware of the prevalence of quackery, for I myself was deceived and imposed upon until I nearly lost faith in mankind but I rejoice to say that I am now perfectly well and happy once more and am desirous therefore to make this certain means of cure known to all. If you will write to me you can rely upon being cured and the proud satisfaction of having been of great service to one in need will be sufficient reward for my trouble. Absolute secrecy assured. Send 5c silver to cover postage and address Mr. Geo. G. Strong, North Rockwood, Mich. 135p&w.

EPPS'S COCOA
ENGLISH BREAKFAST COCOA
Possesses the following Distinctive Merits:
DELICACY OF FLAVOR.

WOMAN'S PHYSIQUE.

Correct Proportions and How to Maintain Them.
In a lecture at the Academy of National Sciences in Philadelphia Professor A. B. Brubaker, discussing the subject of "Physical Development," said:
"Professor Gottfried Schadow of the Royal Academy of Arts in Berlin has given to the world, in his figure of an artistically formed woman, the following measurements: Height, 63 1/2 inches; breadth of neck, 3 3/4 inches; shoulders, 15 inches; waist, 9 inches; hips, 13 1/2 inches.

"Long before Professor Schadow's time an unknown artist created the Venus de Medici, the world's ideal of perfection in the female figure, on these measurements: Height, 63 inches; breadth of neck, 4 inches; shoulders, 16 inches; waist, 9 1/2 inches; hips, 13 inches.

"Professor Sargent, with several thousand tabulated life measurements in hand, produced composite figures of the young American girl with these measurements: Height, 63 1/2 inches; breadth of neck, 3.8 inches; girth of neck, 12.1 inches; breadth of shoulders, 14.7 inches; breadth of waist, 8.6 inches; girth of waist, 24.6 inches; breadth of hips, 13.1 inches; girth of hips, 35.4 inches; girth of calf, 13.3 inches; girth of upper arm, 10.1 inches; girth of thigh, 21.4 inches, and forearm, 9.2 inches.

"Miss Arna Wood has given measurements closely similar to those of Professor Sargent in her composite figure of the Wellesley college girl, being averaged from the measurements of over 2,000 young women.

"Given the height, proportion and weight of an average physique for the man and woman, what should be the attitude or posture of such an individual, especially when standing? By posture is meant a position of equilibrium of the body which can be maintained for some time, such as standing, sitting or lying.

"For the maintenance of the erect posture the following conditions must be realized: (1) The corresponding halves of the body must be in the same anatomical relation; (2) the center of gravity of the whole body must fall just in front of the last lumbar vertebra. That the first of these two conditions may be realized, there must be a well developed and symmetrical skeleton and a corresponding symmetrical development of the muscles on the two sides of the body. That the second condition may be realized, there must be such a development of the extensor muscles on the back of the body as will be sufficient to antagonize the flexor muscles on the front of the body.

"These conditions are not always realized, and hence certain physical defects are observable, such as obliquity of the head, elevation or depression of the shoulder, curvature of the spine, and so forth.

"Among the defects which interfere with proper stature and proportions may be mentioned knockknees, bowlegs and pigeon toes.
"Knockknees occur in childhood or at puberty and are generally associated with rickets and due to a want of muscular or bony strength. Owing to the width of the pelvis, the thigh bones are inclined inward. This determines the direction of the deformity. There is a disproportion between the weight of the body and the strength of the muscles. In consequence the inner condyle of the thigh bone grows down and inward and throws the lower leg outward.

"Bowlegs are also associated with rickets and want of strength in muscles and bones. In this condition the natural curve of the bones is exaggerated, and the leg bends outward.
"Pigeon toes are a term applied to the inward direction of the foot, dependent on insufficient development of the muscles which should turn the foot outward. This is a condition observed in monkeys and very young children.

"In addition to the above mentioned deformities relating to the trunk and limbs there are others found in both men and women, especially in the latter, however, which relate to changes in the shape of the thorax, caused by undue compression or constriction.
"It is difficult to understand why this constriction should have been indulged in through the ages. There is an idea, however, that it confers on the individual an artistic effect. The Greek woman of the decadent period suggested the methods and objects. It was adopted by the Romans at the beginning of the empire. During the middle ages it died out, to be revived in the twelfth century."—New York Sun.

WOMEN'S WAYS.
A real clever woman can fix her hair to look as if she had taken the top of her head off while she did it.—Aitchison Globe.
"Ladies' smoking cars" are now being run on some of the Russian railways. No wonder the good, sensible wife or mother is satisfied to be referred to merely as a woman.—Cleveland Leader.
A New York paper publishes the information that it takes \$25,000 to dress a woman fashionably and keep her in a happy state of mind. It is a blessed thing that so many women can effectually conceal their unhappiness.—Buffalo Courier.
In Kansas a woman who had killed two children was acquitted of murder, and about 50 other women at once crowded around her and kissed her and cried over her. Meanwhile the mother of the dead children sat alone and unheeded. Women continue, upon occasions, to be queer creatures.—Cleveland Leader.

WHEEL WHIRLS.
Don't try to catch the handle bar with your teeth.
Don't look around to see if the hind wheel is following.
Always fall on your right shoulder and do not let your ear strike the ground till a few seconds later.
Don't be surprised if the front wheel shows a disposition to turn into a yard and lie down for a rest.
Never kill a pedestrian when it can be avoided, but when you do kill one dismount and say you're sorry.
When you lose a pedal, don't get off and go back to look for it. It's there on the machine still, and if you'll feel for it long enough you'll find it again.
Should you find a runaway horse on your trail, keep close to the curb until he has passed. Then make a spurt and seize him by the tail and put on the brake.—Hub.

McMillan & Hornsby's FOR WALL PAPER
A By-law for allowing a Rate of Discount on the Assessments on Real Estate and Personal Property in the City of Charlottetown for general civic purposes for the current year ending the thirty-first day of December A. D. 1897.

EVERY MOTHER SHOULD Have it in the House

It will positively cure the many common ailments which will occur to the inmates of every family as long as life has work. It soothes every ache, every lameness, every pain, every soreness everywhere. It prevents and cures asthma, bronchitis, colds, coughs, croup, catarrh, diphtheria, gout, hacking, hoarseness, headache, hooping cough, influenza and neuralgia.

Johnson's Anodyne Liniment
Originated in 1810, by the late Dr. A. Johnson, Family Physician.
For more than forty years I have used Johnson's Anodyne Liniment in my family. I regard it one of the best and safest family medicines; used internal and external in all cases. It prevents and cures asthma, bronchitis, colds, coughs, croup, catarrh, diphtheria, gout, hacking, hoarseness, headache, hooping cough, influenza and neuralgia. If by magic. E. A. FERRENOT, Rochport, Pa.
