## ECHOES OF THE STORM

### Has Been a Very Serious Matter.

#### THE LOSS OF LIFE HAS BEEN VERY HEAVY

#### The Shore Piled With Wreckage—Many Lives Lost.

[SPECIAL TO THE EXAMINER.]

BOSTON, Nov. 30.—The passing hours do not seem to bring an end to the reports of wrecks and loss of life up and down the New England coast as the outcome of the terrific storm.

It is from Cape Cod that the most terrific accounts of ruin and death are coming, and of these the loss of the steamer Portland, a side-wheeler plying between Boston and Portland with all on board, nearly one hundred souls, over shadows all else.

The rightly-called graveyard of the coast, the treacherous bars and reefs on the outside of Cape Cod, have claimed victims without number.

Miles and miles of the coastline are piled high with wreckage, most of which is ground so fine by waves that identification of hapless the craft is impossible.

VINEYARD SOUND, Nov. 30.—The best summing up of the disasters in this section is told by Captain Hart, of the revenue cutter Dexter, who has cruised along the shore.

He says the sight in Vineyard Haven is one of desolation.

Hulls are piled upon the shore, and those vessels which are afloat seem mere shells.

Reports have reached here from southern Cape Cod that the steamer Gate City has been wrecked on Peaked Hill Bar.

#### Carlist Preparations.

[SPECIAL TO THE EXAMINER.]

LONDON, Nov. 30.—A despatch from Madrid says that unfavorable information has been received from official sources concerning the Carlists propaganda and preparations.

#### Schooner Success Wrecked.

[SPECIAL TO THE EXAMINER.]

HALIFAX, Nov. 30.—The small coasting schooner, the Success, was wrecked near the entrance of the harbor during the storm. William and John O'Neil, all on board, were drowned.

#### THE PICQUART AFFAIR.

#### Minister of War Refuses to Intervene.

PARIS, Nov. 29.—The minister of war, M. DeFreycinet, in the Chamber of Deputies yesterday, refused to intervene in the Picquart affair and the house approved the government's declaration regarding the separation of military and civil powers by a vote of 437 to 73.

A Radical deputy, M. Boss, opened the discussion. He said that while there had been some honesty in the Dreyfus prosecution there had been nothing but dishonesty in the Picquart affair. These remarks caused an uproar.

M. Boss detailed the history of the Picquart "persecution," recalling Col. Picquart's exile to Tunis, and asked the minister of war, M. DeFreycinet, why he had permitted a court martial to be summoned for Dec. 12.

The deputy also accused Gen Zurlinden, the military governor of Paris, who, he explained, had promised a revision of the case, with having broken his word. This caused another uproar.

#### A Concession From the Porte.

CONSTANTINOPLE, Nov. 29.—United States Minister Straus has obtained a concession from the Porte granting traveling permits to foreigners in the interior of Asia Minor, a privilege which the Porte had for a long time stubbornly refused. The immediate incentive to the action of Mr Straus was the Porte's refusal to grant permits to American missionaries.

#### THE SCHOONER HYDRA

Sunk in Glace Bay on Sunday.

[SPECIAL TO THE EXAMINER.]

HALIFAX, Nov. 30.—The schooner Hydra, from P. E. Island, loaded with potatoes and oats for the Dominion Coal Co, sank at Glace Bay on Sunday.

#### A Queer Case.

LONDON, Nov. 29.—"An Antiquarian Romance; or Making a Pedigree," as the remarkable prosecution of Herbert Davies is called, ended at the Old Bailey the other day, when the prisoner, a man of 26 years, was sentenced to three years' imprisonment.

He is one of the cleverest criminals that have appeared in years. In making "researches" to find out whether Colonel Shipway was entitled to a coat-of-arms, the young man cleverly forged lines in very old wills and parish registers, intimating the ancient handwriting and phraseology, and altering tombstones and coffin plates, and writing the name Shipway on the belfrey. The experts of the British museum at first declared the forgeries genuine, thereby allowing an innocent schoolmaster, as Davies declared himself, to continue drawing a salary and expenses.

#### Britain and the Boers.

NEW YORK, Nov. 29.—The Times publishes the following from its London correspondent: "Misapprehension prevails here concerning the scope of the Anglo-German agreement. It is not the case, as everybody is saying, that Delagoa Bay is made over to England. Delagoa Bay, of course, is the key to the Transvaal, and therefore of vital value to the preservation of the peace of South Africa. I believe all that has happened is that England has become assured that German hostility will not block any action England may in the future have to take against the Boer oppression of the Uitlanders, and the hampering of the mining industry. For the moment peace is assured in South Africa, but the present situation cannot and will not continue indefinitely. Unavoidable events must compel England to act sooner or later. I hope this remark may be recalled a year hence.

Meanwhile, trans-African communication proceeds apace. Already the telegraph connects Cairo with Kassala. The British force is at Duffleh, beyond Lado, and an Egyptian gunboat has reached Meshra, or Rek, the port of the Bahr-el-Ghazal Province. The Queen is deeply interested in the scheme of the Cape to Cairo railway, and has recently expressed the hope that she may live to see its completion. There is reason to think that Germany has agreed to allow the Congo State to cede a strip of territory along Lake Tanganyika, which is the only missing link.

#### Wood Pulp in Quebec.

QUEBEC, Nov. 29.—It is stated that a powerful English syndicate is preparing to go into the wood pulp business in the Saguenay district and has approached the local government offering to make 450 tons of pulp per day, providing the free use of certain water powers is accorded. The company proposes to expend about \$2,000,000 and to erect its principal mill on the Grand Discharge.

#### CHEESE.

### Exports to Great Britain Show a Falling Off.

#### MORE BUTTER FORWARDED.

MONTREAL, Nov. 29.—Canadian cheese shipments for the past season amounted to 1,900,000 boxes, at a cost value of \$12,065,000, as compared with 2,102,985 boxes at a cost value of \$14,195,000, in 1897, a decrease of 13 1/2 per cent. The decrease is attributed to lower prices and to the greater attention devoted to butter-making, in which the margin for increase is considerably greater. The season has thus been a poor one for the producers. The factory-men, it is estimated, will be \$2,000,000 out of pocket as a result of their labors since last spring.

In round figures, 270,000 packages of Canadian butter went to Great Britain, and though prices fluctuated quite widely during the summer, the ruling price for the price for the entire season was practically the same as last, viz, \$12.25 on the basis of a 70-pound tub. Taking this as an average the revenue from butter was \$3,307,500, an increase of over \$610,000, in other words, there has been an increase of 8 per cent. in exports, as against a little over 7 per cent. last year. This is not at all a bad showing, if it can only be kept up. The creamery men's revenue having been added to in the past three years \$2,950,000, an increase in the period of 25 per cent. The exports for the season amounted to 270,000 packages at a cost value of \$3,307,500 against 220,000 packages at a cost value of \$2,698,400 in 1897. Bristol was the leading market for Canadian creamery butter followed by London and Liverpool.

#### Farmers Holding Their Wheat.

WINNIPEG, Man., Nov. 27.—The receipts of wheat of this year's crop at Port William and Port Arthur elevators to November 21st inclusive amounted to 4,500,000 bushels, compared with 8,250,000 bushels received to same date of last year. The amount shipped forward to Ontario and sea board was 3,109,000 bushels, against 6,690,000 a year ago.

The farmers are still disposed to hold their wheat for higher prices, and it is thought that a larger quantity will be carried over until next spring than ever before in the history of grain growing in this country.

#### Buffalo not Extinct.

WINNIPEG, Man., Nov. 27.—Three of the old plain buffalo have been seen in the Swan River district by a settler. The district lies between Duck and Porcupine mountains, and is just being opened up by the Dauphin railway. It is thought that more of these animals are to be found in the lower reaches of the Saskatchewan valley, where the fauna of the country has been free from molestation up to the present.

#### Dr. Lyman Abbott Resigns.

NEW YORK, Nov. 28.—The Rev Dr Lyman Abbott, from the pulpit yesterday, announced his intention to resign the pastorate of Plymouth church, which he has filled for ten years. Failing health is the reason assigned.

#### SCHR. CLARA MAY.

Is Ashore at Jeddore Harbor.

[SPECIAL TO THE EXAMINER.]

HALIFAX, Nov. 30.—The schr. Clara May, from Halifax for Rustico, P. E. I., went ashore at the mouth of Jeddore Harbor on Sunday. The tide is rising and falling in her.

If the weather continues fine, she may be taken off. The damaged cargo was landed in a somewhat damaged condition.

#### PARIS PEACE COMMISSION.

#### Spain Rejects United States Principles, but Accepts the Money.

PARIS, Nov. 29.—The document presenting the acceptance by Spain of the United States' conditions for the cession of Porto Rico, Guam and the Philippines contained only 300 words. It opened with a reference to the final terms of the United States, and said that the Spanish commissioners, after having taken cognizance of the terms proposed by the Americans, replied that their Government had tried to give as equitable an answer as possible, but that they were not prepared to commit their government to the acceptance of the principles embodied in the American argument. Spain rejects these principles, the notes continue, "as she has always rejected them."

Basing her attitude upon the justice of her cause, the note then says she still adheres to those principles, which she has heretofore invariably formulated.

However, the note adds, in her desire for peace she has gone so far as to propose certain compromises which the Americans have always rejected. She has also attempted to have submitted to arbitration some of the material points upon which the two governments differed. These prospects for arbitration, it is added, the Americans have equally rejected.

These allegations, in Spain's reply, with regard to attempted arbitration, refer to her proposal to arbitrate the construction of the third article of the last proposition. Since its presentation, and in return for such arbitration, Spain offered to cede the territory in dispute. The Americans refused both propositions for arbitration.

Spain's reply, in substance, continued by declaring the United States had offered, as a kind of compensation to Spain something very inadequate to the sacrifices that country made at this moment, and she felt, therefore, that the United States' proposals could not be considered just and equitable. She, however, accepts the \$20,000,000.

#### Ottawa Notes.

OTTAWA, Nov. 27.—Hon. Mr. Sifton has furnished a striking admission of official mismanagement. It is stated by his own organs that some officials in the gold commissioner's office at Dawson have been removed, and the question naturally arises if there were no grounds of complaint against the interior department administration. T. D. Macfarlane, the official timber inspector, is also said to have received his censure.

Nineteen creameries were operated under federal auspices in the territories this year, as against sixteen last year, and three in 1896.

Hon. Mr. Mulock or the American Bank Note Co., has rendered himself liable to the penalties of the alien labor law by importing four engravers from New York to engrave the new penny postage stamps. In this way the postmaster general encourages the American idea.
